RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in *"Italics."* State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, October 9, 1875.

Financial and Commercial Affairs.

A fairly active demand has been noted for Money on the basis of 1½@3 per cent on call, and 5@7 per cent per annum, in the discount form. Though lenders have been unusually discriminating as to collaterals, borrowers in unexceptionable standing have met with little difficulty in making ample provision for their wants at the quoted figures. The depression and irregularity at the Stock Exchange have not had much influence on the course of Money in the open market one way or another. The inquiry from mercantile sources for accommodation has been only moderately active for the season—less urgent, as a rule, than through the preceding week; and this circumstance operated on the City bank averages quite distinctly. The U. S. Sub Treasury reported a slight falling off in its cash balances, both coin and currency. The City Banks reduced their reserve of legal tender notes $831,300, their deposit item $5,035,800, and their specie average $820,300. They report a decrease of $2,774,900, in the loans and discounts and of $8,500 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $58,302,432, against $58,617,813 the preceding week; and a coin hoard of $35,830,992, against $36,408,678 on the previous return. The City bank exchanges in currency during the week were $885,154,909, or a daily average of $64,192,485. The customs revenue of the port, during the week, was $1,985,000. The City banks reported their average of gold last week at $6,448,900, and their

greenback average at $66,490,600. Their deposits stood at $234,403,600. The loan item was $278,841,300. The circulation was $17,925,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $14,338,600.

The aggregate of the outstanding U. S. currency, of all denominations, October 1, was $415,274,897. The outstanding amount of legal tender notes is $374,010,956. The National bank circulation is now $346,994,193, including $2,639,500 of national gold bank notes.

The specie shipments from San Francisco, January 1, to Sept. 22, were $32,215,377, against $21,195,300 same time in 1874.

The U. S. Sub Treasury receipts from all sources, in September, were $61,921,640, including $10,471,233 from customs; payments, $68,722,039 including $1,313,544 of coin interest.

Government will sell four millions of Gold, during the current month of October—one million on each Thursday of the month.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $5,170,000; special deposit of legal tenders for the redemption of certificates of deposit, $61,285,000; Coin, $67,100,000; Coin certificates $12,330,000.

The Comptroller of the Currency has called on the National Banks for a report of their condition on the 1st of October.

The week's import entries of Foreign Merchandise at New York, were $4,983,203, and included of dry goods $2,033,861.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 30½ millions; and from Customs, 46 millions.

Gold has advanced materially on a more active speculative movement. The export and customs drain has been moderate. A cable dispatch from Southampton advised on Tuesday of a shipment specie to the amount of £50,000 sterling by the *Main*, for this port. The extremes of the week have been 116¾@117⅜, closing on Wednesday at 116¾, as against 116⅞ on Wednesday of the preceding week. The specie outflow last week was $370,000 against $343,500 the previous week. The imports of specie at this port since Jan. 1, have been $9,331,914, against $4,867,565 same time last year. The customs demand for Gold last week averaged $330,833. Foreign Exchange has been less active and generally quoted heavy. Bankers' sixty day bills on London closed on Wednesday at $4 77½@$4 78½; sight bills on London at $4 81½@$4 82½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,837,619. The week's imports of Dry Goods and general merchandise were to the specie value of $4,983,203, against, $6,632,465 same week last year.

Government Securities have been in generally good demand, especially for home investment purposes, and have been held with confidence. The last public debt statement exhibited a further liquidation of $3,342,563. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation is $371,489,262. The Secretary of the Treasury has issued another call for $5,000 000 of the Five Twenties of 1864, for redemption, January 1, 1876, interest to cease on that date.

U. S sixes of 1881 closed on Wednesday of this week at 123¾@121¼; U. S. Five-Twenties of 1864, at 119½@119¾; U. S. Five-Twenties of 1865 119⅞@120⅛; U. S. Five-Twenties of 1865, consolidated, 119¼@119½; U. S. Five-Twenties of 1867, 120⅞@121⅛; U. S. Five-Twenties of 1868, 121¼@121½; U. S. Ten-forties at 117¾@118; U. S. Fives of 1881, (Funding Loan) 118@118¼; Six per cent. currency Sixes, 124½@125.

State and Railway bonds have been in quite moderate request, yet the more substantial loans, bearing assured income to investors, have been quoted generally steady. And in the line of Railway and Miscellaneous share property, business has been fairly active, but at very variable prices, the market closing heavily in most instances.

Breadstuffs and Provisons have been quite active, and generally quoted stronger in price, though closing irregularly. The inquiry from shippers for Flour, Wheat, Corn, Mess Pork, Western Steam Lard, and City Refined do., has been more satisfactory. Cotton has been more freely dealt in, but at reduced figures. Export buyers have been purchasing more liberally, chiefly for Liverpool and Germany. Naval Stores, Petroleum, Hides and skins have been in less demand, as have likewise been Fish, Wool, Hardware, Earthenware, Seeds and East India Goods. Metals have been quoted steady, with a rather better inquiry noted for most descriptions. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock, $32 50@$33; Coltness, $33; No. 1 American Pig at $25@$26 50; No. 2 do. at $23@$24 50; Forge, $20@$22 50; English Rails at $48@$50, gold; American Rails, at works, $46@$50; Old Rails, $25@$27. Wrought Scrap, $31 50@$33 50; some holders asking more. Ocean freights have been more active with room for Grain, Cotton, Flour, and Provisions in most demand; and at the close rates quoted much stronger.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Lehigh and Wilkesbarre 7s, consol., 96⅜; Chicago, Burlington and Quincy 7s, consol., 107; Clev., Col., Cin. and Ind. 7s, consol., 98¼; Central Pacific State aid bonds, 109; do. Old Colony Railroad.

The Miller Platform is now placed upon nearly all the passenger cars of this road, and will soon entirely supersede the old platform. Workmen are busy setting Hall's Electric Signals for a distance of ten miles out. If successful, these will supplant the hand signals now in use by the road. Every safeguard to travel is being introduced. The fact that for more than two years no fatal accident has befallen any passenger on this road shows a commendable vigilance of the Superintendent and his numerous subordinates.

☞ It is announced that Charles Morgan, of New York, has concluded a contract with the Harlan & Hollingsworth Company, of Wilmington, Del., for the immediate construction of two iron propeller steamships for his line between New York and Brashear City, Texas. They will be similar in size and model to the two just built for that line by the same builders, being about two thousand tons capacity each.

☞ It is announced that the Canada Southern Railroad will be immediately pushed forward from its present terminus at Fayette, Ohio, to Butler, Indiana, where it will connect with the Detroit and Eel River Railroad. The distance is about 30 miles.

A New Plan of Elevated Railroad.

On Saturday morning last a large party of gentlemen from this City, including Gen. Barnard and Gen. Wright, of the United States Corps of Engineers, Messrs. Wyman, Burtis, and Moore, Directors of the New York Elevated Railroad, Prof. Thurston and Mr. Thurston, started by special train from Jersey City, on the invitation of Messrs. Clarke, Reeves & Co., of the Phoenix Iron Works, Phoenixville, Penn., to be present at the trial of a new system of elevated railroad which has been recently constructed by Gen. Stone upon the grounds of the company at Phoenixville. Mr. Clarke met the party at Jersey City and accompanied them on the trip. Upon reaching the Germantown junction, near Philadelphia, where a special train was in waiting on the Reading line, the New York party was joined by a number of gentlemen from Philadelphia, who were accompanied by Mr. Reeves. Phoenixville was reached at 1, 30 P. M., and the trial of Gen. Stone's system of elevated railroad, which was made with an engine and one carriage upon a track 900 feet in length was entirely satisfactory. The system of elevated railroad which Gen. Stone has introduced is known as the Single Rail Plan, which occupied the attention of railroad men in Europe some years ago. One of the chief recommendations claimed in favor of this system is the perfect safety guaranteed to passengers, it being impossible to throw the cars off the track even while turning sharp curves at the rate of thirty miles an hour. Gen. Barnard and other engineers who witnessed the trial, expressed their approval of the plan. The cost of construction is estimated at $100,000 per mile. Gen. Stone expects to have a line of this system of elevated railroad constructed in Philadelphia before the opening of the Exhibition, and Messrs. Clarke, Reeves & Co. are making arrangements to tet up 500 feet of it in New York, with the view of securing its adoption in this City.

☞ The Portsmouth, Ohio, Street Railroad Company, with a capital stock of $25,000, in shares of $50 each, was incorporated on the 1st inst. by W. Q. Adams and others.

Notice to Contractors.

THE COMPLETION OF THE FOURTH AVENUE Improvement gives us a large and valuable surplus of Stock, Machinery and Tools, which we propose to sell in the next twenty days at Panic Prices.

THE LIST INCLUDES:

Sixty Large Work Horses,
Sixty Broad Tire Dirt Carts,
Sixty Setts Cart Harness,
Twenty Setts Double Work Harness,
Fifteen Stone & Earth Wagons,
One City Furniture Truck,
One Hundred Side Dump Dirt Cars of three feet two inches gauge,
Five Burleigh Rock Drills,
Six full setts Blacksmith Tools,
Steam Boilers from six to sixteen Horse Power,
One Number Four Centrifugal Pump and Engine,
One Ryder Engine, eight Horse Power,
One Deck Hoisting Engine, with two seven and a half inch Cylinders,
One Number Four Clayton's Air Compresser,
Twenty Derricks full rigged with either Hand, Horse or Steam Power,
Two Tons, four and a half inch, by a half inch, Railroad Spikes,
And a large variety of miscellaneous smaller tools, common to Railroad Work.

DILLON, CLYDE & CO.,
68 East 49th Street, New York.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

A QUARTERLY DIVIDEND OF TWO AND A HALF PER CENT. is declared, payable on and after WEDNESDAY, October 20th.

The transfer books will be closed from THURSDAY, the 30th inst., to SATURDAY, the 23d prox.

SAMUEL KNOX, Treasurer.

☞ A portion of the New York, Boston and Montreal Railroad, ten miles in length, between High Bridge and North Yonkers, was formally opened on the 4th inst.

European and North American Consolidated Railway.

The following is a complete statement of the bonded indebtedness of this company, received from an authentic source. It will be recollected that the company ceased paying interest on its floating liabilities a few months since; and the investigating committee have now reported a plan which it is thought the creditors will accept, and thus place the company on a sure footing again:

1st. An issue of $280,000 of 6 per cent twenty year currency bonds, dated August 1, 1863, and payable August 1, 1883. Of these $261,000 have been called in, canceled and returned to the City Treasurer of Bangor as per his receipts, leaving $19,000 still outstanding, on which the coupons have been regularly paid up to and including August 1, 1875. Coupons payable at the office of the company in Bangor. Bonds $1,000 each.

2d. An issue by the City of Bangor to the European and North American Railway of $1,000,000 twenty five year 6 per cent currency bonds, dated January 1, 1869, and payable January 1, 1894 Coupons payable in Boston January 1 and July 1, and have been paid by the railway company to and including January 1, 1875. These bonds, $1,000 each, were all sold and the whole issue is outstanding. They are secured by a first mortgage of road from Bangor to Winn, 56 miles.

3d. An issue by the railway company of $2,000,000 thirty year 6 per cent gold bonds (principal and interest), dated March 1, 1869, and payable March 1, 1899. Coupons payable in New York March 1 and September 1, and have been paid to and including March 1, 1875. Bonds $1,000 each, secured by a first mortgage on the lands granted to the company by the State of Maine, a first mortgage on railway from Winn to the St. Croix river—about 58 miles—and by a second mortgage on the railway from Bangor to Winn, about 56 miles. Of these bonds $1,986,000 have been disposed of, leaving $14,000 unsold but pledged at the Bangor Savings Bank as collateral security for loans.

4th. An issue by the New Brunswick Railway Company of £411,000 of 30 year 6 per cent gold bonds (principal and interest) dated July 1, 1867, and payable July 1, 1897, coupons payable January 1 and July 1, and have been paid, on all bonds sold, to and including July 1, 1875. Total sold and outstanding £361,600 or about $1,760,000, leaving unsold £49,400 or $240,000, which are pledged as security for loans in London. Bonds £200 each. They are secured by a first mortgage on the entire line of road in New Brunswick, about 88 miles.

5th. On the 5th of December, 1872, after consolidation with the New Brunswick Company, an issue of $6,000,000 of bonds was authorized for the purposes named in article 9 of the consolidation agreement. Of this issue $5 000,000 were to be set apart and used only for the redemption and payment of the $5,000,000 of first mortgage bonds upon the consolidated Railway, viz: $3,000,000 in Maine and $2,000,000 in New Brunswick. The other $1,000,000 to be used to pay debts, purchase rolling stock, etc. Under this authority $1,500,000 of these consolidated bonds were printed and $1,000,000 only approved and signed by the trustees and duly prepared for use. These were 6 per cent bonds, 40 years to run, principal and interest in gold, dated May 1, 1873, payable May 1, 1913, coupons May 1 and November 1, payable in New York. Secured by a mortgage upon the entire line of railway from Bangor to St. John, N. B., and also a second mortgage upon the lands granted by the State of Maine to the European and North American Railway Company. Of these bonds $6,000 only have been sold. The balance, $994,000, are pledged as collateral security for loans of money to the company.

The outstanding bonds of the Bangor and Piscataquis Railroad Company, are:

1st. An issue by the city of Bangor to the company of $600,000, thirty year 6 per cent currency bonds, dated April 1, 1869, and payable April 1, 1899. Coupons payable in Boston April 1 and October 1 and paid to and including April 1, 1875. Bonds $500 and $1,000 each. Secured by a first mortgage on the entire line of railway—55 miles.

2d. An issue by the city of Bangor to the company of $122,000 7 per cent currency bonds, dated Oct. 1, 1871, and payable April 1, 1899. Coupons payable in Boston April 1 and October 1 and paid to and including April 1, 1875. Bonds $500 and $1,000 each. Secured by first mortgage as above.

3d. An issue by the city of Bangor to the company of $92,000 7 per cent currency bonds, dated Dec. 1, 1874, and payable April 1, 1899, coupons payable in Boston April 1 and Oct. 1, and paid to and including April 1, 1875. Secured same as the above. All the foregoing have been sold and are outstanding. Bonds $1,000 each.

4th. An issue by the Railway Company of $200,000 twenty eight year 7 per cent gold bonds (principal and interest), dated Feb. 1, 1871, and payable Feb. 1, 1899, coupons Feb. 1 and Aug. 1. None of these bonds sold, but all pledged at the Bangor Savings Bank as collateral security for a loan of $100,000. Interest has been paid on this loan to Sept. 23, 1875.

Statement of the Public Debt of the United States October 1, 1875.

DEBT BEARING COIN INTEREST.

	Amount Outstanding.	Accrued Interest.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, September 30, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

Louisville and Nashville Railroad.

RESIGNATION OF COL. ALBERT FINK.

Col. Albert Fink, who for many years has been connected with the Louisville and Nashville Railroad, has resigned his position as General Superintendent and Vice President the resignation to take effect on the first of October. The reasons for his resignation are of an entirely private nature, his relations with the other officers and the directors of the road having at all times been of the most pleasant character.

In losing Col. Fink the Louisville and Nashville Railroad Company will miss a most valuable officer; one who has assisted to a great extent in building up the road to its present position as the largest and wealthiest road in the South.

Col. Fink has been connected with the Louisville and Nashville Railroad for eighteen years. Previous to that time he was an engineer of the Baltimore and Ohio Railroad, a position which he held for eight years, from 1849 to 1857. After leaving the Baltimore and Ohio Railroad he became engineer of the Louisville and Nashville Railroad when that road was in process of construction, thirty miles of it having at that time been completed. He became General Superintendent of the road in 1865, having also previously had charge of the machinery department. In 1871 he was elected Vice President of the company, and has ever since held both positions. He intended to resign sometime ago, but was urged to continue his connection with the road until the present time.—*Louisville Conrier-Journal, Sept.* 27.

☞ The Central Railroad Company of New Jersey having completed the Extension from

Long Branch to Seagirt, expected to commence running trains regularly on the 22d instant, making the run to Jersey City in about two hours. The connection with the Pennsylvania Railroad branch at Squan will be made in a few days.

Pacific Mail Steamship Co.

At a meeting of the directors of the Pacific Mail Steamship Company held in this city on the 27th ult., the following communication was received from Mr. George S. Scott, Vice President:

NEW YORK, Sept. 27, 1875.

To the President and Directors of the Pacific Mail Steamship Company:

GENTLEMEN: Important interests of this company requiring my temporary absence in Europe, I have deemed it advisable to present for your consideration the following statements:

Immediately on assuming the control of its affairs I endeavored to systemize the accounting department, so as to be able to arrive at the monthly earnings and expenses. This, through the efforts of the head of that department, has been so far accomplished, that I am enabled to lay before the board the results of the last two months:

	July, 1875.	Aug., 1875.
Gross earnings	$485,308 82	$516,912 17
Total expenses	396,014 74	373,674 94
Net earnings	$89,294 08	$143,237 23

The total net earnings for two months are $232,531 31, an increase of $147,299 94 over the corresponding months of 1874.

The general financial results of the company's business since March 1, 1875, are as follows:

Total indebtedness March 1, 1875, exclusive of Panama loan, and including the current payments accruing to December 1, 1875, under the contract for three new iron steamers $1,474,701 38

PRESENT INDEBTEDNESS.

Bills payable	$253,077 67
Due connecting lines	78 833 33
Loan due directors	103 000 00
Currency due bank	45 679 44
Cash bills	25,000 00
	$505,590 44

LESS CASH ASSETS.

Gold on hand	$77,123 57	
Freights due in N. York	45,000 00	
Due by U. S. Government	157,000 00	
Due by Mexican Government	44,000 00	
Due by connecting lines	175,000 00	
	$498,123 57	
		7,466 87

Total net reduction of liabilities..$1,467,234 51

inclusive of payments on new steamers. It is not surprising, in view of the foregoing statement, that the credit of the company has so steadily and materially improved.

Upon completion of the new ships at Chester, the Australian and China lines will be fully equipped with new iron propellers. To the economy resulting from the general introduction of these modern screw steamers upon the lines of the company these gratifying results are mainly due.

GEO. S. SCOTT,
Vice President.

In a supplemental report, dated October 2, 1875, Mr. Scott says:

For the purpose of replying to numerous inquiries called forth by the statement lately made to the Board of Directors of this company, I desire to say it was not the intention of the management to do other than offer a comparison between the liabilities of the company as they appear on the books of the New York office to December 1 and as they existed on the 1st of March of the present year.

The intention was rather to answer conclusively the reports so frequently circulated that the company was on the eve of bankruptcy than for any other purpose.

After December 1 the liabilities may be briefly and generally stated:—

First—Amount due Panama Railroad Company, $500,000.

Second—Bills for coal, stores and supplies for September, not audited.

Third—Balance due Messrs. John Roach & Son, on delivery of new ships, together with their necessary outfit, from which latter sum may be deducted the earnings of their trip to San Francisco.

The bills of supplies, &c., aggregate about $40,000 per month.

The balance due on each ship when completed and delivered being $315,000, without cost of outfit.

In addition to these liabilities there is a claim against the company for taxes, which the company's attorneys are confident will be materially reduced. To offset this, however, the company have in suit a very large volume of claims, with fair prospects of success. The recovery of a small percentage of these would more than liquidate the "tax liability."

In regard to the future of the company it may be reasonably assumed that the earnings for the next twelve months will at least keep pace with those of the past five months. This would realize the gross sum of $6,000,000.

With a continuance of the present system of management the total expenses should not exceed sixty five per cent of the gross earnings, which, after a reasonable allowance for depreciation, would leave a surplus to the company of upward of $1,500,000 to the liquidation of its indebtedness.

In view of the fact that after December 12 the company will effect a saving of $10,000 gold per month, and after January 12 a further sum of $10,000 gold per month, now paid for the charters of steamers Vasco de Gama and Vancouver, together with the earning capacity of its three new ships, now a dead asset, the estimate of earnings and expenses is not, in my judgment, an unreasonable one.

No attempt has been made to place a valuation on the company's assets, as any conclusion arrived at would necessarily be a matter of personal opinion and subject to a wide diversity of views.

☞ The Central Pacific Railroad Company are pushing the Colusa extension railroad from Woodland up with great vigor. Eight miles of track are already laid, and all with steel rails, which are the only kind used.

☞ Messrs. James A. Freeman & Co. sold at auction at the Stock Exchange in this city on the 22d ult., $25,000 bonds New York, Housatonic and Northern Railroad mortgage 7s, with last October coupons attached, at 2 per cent.

☞ In the suit of George Reed against the Wisconsin Central Railroad trustees, the injunction against the sale of the balance of the bonds in the hands of the Company was dissolved.

RAILROAD IRON.

THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails,** and of any required weight and pattern.

The Coal Trade.

The tonnage of all the anthracite regions for the week ending on the 25th ult., as stated by the Philadelphia *Ledger*, aggregated 586,155 tons, and for the year 14,048,636 tons, against 14,430,427 tons to same last year, a decrease of 381,791 tons. The bituminous tonnage for the week was 91,912 tons, and for the year 2,708,967 tons, making a total of all kinds for the week of 660,067 and for the year of 16,757,603 tons, against 17,035,095 tons to the same time last year, a decrease of 277,492 tons. At Port Richmond for the week ending the 2nd instant there were receipts of 80,000 tons of coal, shipments of 75,000 tons, leaving 160,000 tons on hand.

☞ Superintendent Bentley, of the New London Northern Railroad, and the directors visited Turner's Falls on the 29th ult., and in company with many of the business men looked over the route for the proposed branch railroad. They seemed favorably impressed, promised a speedy decision and gave encouragement that the road would be begun within a month.

☞ The Walla Walla and Wallula Railroad is now completed from Wallula to a point within five miles of Walla Walla.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

☞ A joint stock construction company, with Hon. Chas. Foster as President, has been organized to finish the Atlantic and Lake Erie Railway.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

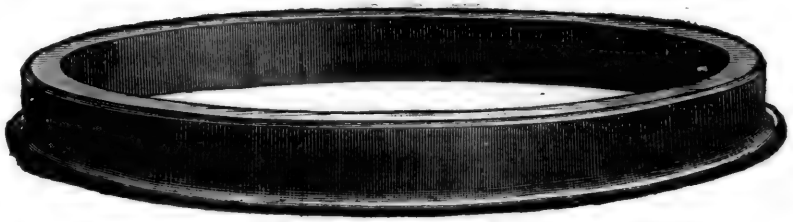
Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.



Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, October 16, 1875.

West Wisconsin Railway.

The West Wisconsin Railway, from the northern terminus of the Chicago and Northwestern Railway to Hudson, a distance of 177 miles, defaulted on the interest of its first mortgage bonds in January last, and this, it is claimed, has involved a forfeiture of its charter. The President issued a report to the bondholders in March, calling upon them to fund their coupons, and about two months ago a meeting was held in the New York office of the company, No. 60 Broadway, at which a committee was appointed, and it was recommended to the bondholders to deposit their bonds, so as to enable the committee to take definite action in their behalf by foreclosure or otherwise. On Sept. 15 the English first mortgage bondholders held a meeting of their own at the Cannon Street Hotel, London, James Goodson, Esq., one of the Trustees, presided. It was resolved to take similar but independent action to that recommended at the New York meeting, and Messrs. Frederick Lehman, Josiah Attwood, William F. Bruff, John Perry, R. U. Potts, Barthold Schlesinger, (of this City,) and Henry Schlesinger were appointed a committee to act for the bondholders. A circular has been issued, copies of which have just been received here, calling upon all the bondholders, American as well as English, to act with the English committee. The Americans are asked to deposit their bonds with Naylor & Co., Nos. 99 and 101 John street. The committee believe the line to be in good condition and sufficiently equipped, though it is said certain liens exist on the rolling stock in favor of creditors. The company is said to have an exceedingly valuable land grant of 6,400 acres per mile:

The liabilities of the road are given as follows, by a recent statement of the President of the Railway Co.:

First mortgage land grant bonds, now outstanding, being the first charge upon the company's land grant and its line from Tomah to Hudson, a distance of about 155 miles	$3,815,500
Southern extension mortgage bonds (including $370,000 pledged as collateral security)	640,000
Consolidated bonds (including $1,471,000 pledged as collateral security)	1,510,000
Other debts (against part of which the above $1,841,000 of bonds are pledged)	1,842,526

The bonds pledged as collateral security would of course cease to constitute a liability of the company if the debts for which they are pledged were paid off.

According to the President's statements, the following was the company's revenue for 1873 and 1874:

	1873.	1874.
Gross receipts	$869,188	$884,920
Working expenses	591,974	697,107
Net revenue	$277,214	$187,813

This appears not to include any receipts from sale of lands, which the committee believe to be valuable.

The amount required to pay the annual interest on the first mortgage land grant bonds is $267,055.

The committee propose to receive the bonds of such holders as will co-operate with them, and to issue in exchange negotiable receipts. They ask for a subscription of one half per cent. on the nominal amount of the bonds deposited, (that is, $5 for each £200 or $1,000 bond,) and an engagement to make further contributions not exceeding an additional one and one half per cent. as necessary.

A trust deed to carry out the above object has been prepared, and copies of it accompany the circular.

New Jersey Midland Railway.

A meeting of the first mortgage bondholders of the New Jersey Midland Railway was held in this city on the 7th inst. Mr. D. B. Halstead presided, and Mr. E. S. Francis acted as Secretary. A plan of reorganization, devised by a committee appointed at a previous meeting for that purpose, was read, of which the following are the points:

1st—The foreclosure of the first mortgage already commenced to be consummated with as little delay as practicable, and the road, equipment, and property of the company to be bought and a new organization formed upon the following plan:

2d—The Receiver's certificates to the amount of $350,000 to be protected and a new first mortgage of $3,000,000, bearing seven per cent. currency interest, payable semi-annually, to be issued, the coupons to be funded for three years.

3d—The capital stock of the new company to be limited to $4,000,000, of which $1,200,000 of first preferred stock to be issued to the present first mortgage bondholders at the rate of $400 stock for every $1,000 bond, estimated to cover past due coupons to the date of issue and the funded interest on the new bonds.

4th—Issue a second $1,500,000 of preferred stock to the present second mortgage bondholders.

5th—Issue $600,000 of common stock to the creditors of the old company. The holders of the third mortgage bonds being considered creditors to the amount loaned on or paid for said bonds. The amount due in all cases to be audited by the Directors of the company. Out of the remainder of said capital stock each bona fide holder of stock in the present company to receive twenty five cents on the dollar in common stock of the new company.

6th—The affairs of the new company to be managed by a board of fifteen Directors, to be chosen, nine by the first preferred stockholders, four by the second preferred stockholders, and two by the common stockholders, until the earnings of the road shall be sufficient to pay a seven per cent. dividend on all the stock, after which neither class of stockholders to have any preference over others as to Directors or elections.

7th—First mortgage bondholders to deposit

their bonds with the Central Trust Company on or before 1st of December next, together with one half of one per cent. on the amount of said bonds, in cash, for defraying the costs of foreclosure. Holders of second mortgage bonds to deposit their bonds and pay a like sum on or before same date. Any balance over such costs and expenses of foreclosure to be applied in settling with those first mortgage bondholders who shall not join in the purchase of the road, and the remainder, if any, to be paid into the treasury of the new company.

Two of the committee reported against the proposed issuance of a second preferred stock, and Mr. Balastier offered another plan. At this point the Receiver, in response to inquiries, gave a statement of the condition of the road under his management, showing a deficiency. To put the road upon a proper footing, he estimated that $385,000 will be required, divided as follows: For right of way, $40,000, (this may be doubled or trebled;) for new rolling stock, $184,000; due Middletown, Unionville and Water Gap Railroad, $40,000; due on land mortgages, $61,500; interest due on Weehawken land mortgage, $10,000; State taxes due, $25,000; repairs, $25,000. Ex Gov. Price, of New Jersey, said he was satisfied that the road is worthless. He suggested that the only way to rehabilitate it is to open a connection to the coal regions, where an inexhaustible carrying trade awaits it.

Here a proposition was submitted on behalf of the South Mountain and Boston Railroad Company of New Jersey. This company offers to purchase at the foreclose sale the New Jersey Midland Railway on certain stated terms, agreeing to finish its line by June 1, 1876, and to operate and maintain the same.

In order to obtain time to choose between this offer and the two other plans of reconstruction, an adjournment was taken until the 21st inst.

Erie Railway.

APPLICATION IN BEHALF OF THE ENGLISH BOND HOLDERS—ORDER OF JUDGE DONOHUE GRANTING THE APPLICATION.

Judge Donohue filed an order in Supreme Court, Chambers, on the 8th inst., on an affidavit previously submitted to him by Mr. McFarlane, of counsel for Mr. Jewett, Receiver of the Erie Railway. The affidavit, made by Mr. C. G. Barber, Mr. Jewett's Secretary, is as follows:

City and County of New York ss.—C. G. Barber, being duly sworn, says that he is, and, since the appointment of Mr. Jewett as Receiver of the Erie Railway Company, has been, the Secretary of that officer, and has for several years prior been Secretary of the President of that company, and is well informed as to the residence and ownership of the stock and bondholders of that company; and, on information and belief, he avers that a majority of the shares of the preferred stock, that much the greater portion of the shares of the common stock, and about nine tenths of the bonds upon which interest is in arrears, are owned and held in Great Britain; and, in like manner, he further states that the owners and holders of said stock and bonds so held and owned abroad have sent to the United States members of a committee by them selected, of whom Sir Edward W. Watkin is Chairman, and for whom Mr. John Morris, (Solicitor, &c., in London,) both of England, is legal adviser; and that, after full conference with the Receiver, Mr. Jewett, as to the future management and organization of the affairs of said company, they and the said Receiver have reached, among others, the following general conclusions, which said Jewett, as the officer of the court, deems it his duty to bring before the court for any appropriate sanction or instruction, viz:

1st—That the Receiver should give to the committee his views as to a proper scheme for the rearrangement or reorganization of the affairs of the company.

2d—That bondholders whose interest is in arrears ought to have a voice as to the expenditure of net earnings otherwise applicable to interest that may need to be expended during the period that default may continue, while the affairs of the company are being placed in that condition which will authorize the termination of the Receivership.

3d—That such voice might be practically expressed through a representative committee of the last named bondholders or of the said bond and stockholders, whose advice the Receiver should consult as to the expenditure of the last named earnings.

4th—That the last named committee should, as they may find needful, open an office in the City of London for the transaction of business connected with the affairs of the said expenditures, and with the measures for the rearrangement or reorganization aforesaid, the proper expenses of which office the Receiver should pay from the funds of his receivership, and that the Receiver transmit monthly to that office a statement of earnings and expenditures, as he may find practicable.

5th—That it is just and expedient that at least those bondholders whose interest is at any time in arrears should be allowed to vote, and that it is desirable that the laws affecting the company should be so amended as to allow such voting, and that in the meantime all such measures should be encouraged by the Receiver, with a view to their becoming a part of such a plan of rearrangement or reorganization as will obstruct mere speculative voting and combinations, and at the same time encourage a steady and honest representation of the bona fide stock and bondholders who may be entitled to vote.

6th—That it is proper, and would be advantageous, to allow the stock and bondholders residing abroad to have some representation from their members in the Board of Directors so soon as the laws may be so amended as to permit of the election of a limited number of non resident Directors.

7th—That the Receivership should be terminated as soon as—by negotiations, if possible, or by foreclosure, if necessary—the company can be relieved of unjust and fraudulent engagements originating in the abuses of past management, and its affairs can be placed in a condition to be safely, prudently, and efficiently conducted by a corporation.

8th—That, to facilitate the carrying out of the measures which these conclusions contemplate, Mr. Morris should be associated with the present legal advisers of the company, and with the counsel of the Receiver, and be regarded as one of the legal advisers of the undertaking.

And deponent further says that he has read this affidavit to Mr. Jewett, the Receiver, and is desired by him to present the same to the court for such sanction or instruction as to the matters therein as the court may deem proper to give.

And deponent further says that the interests involved are very large and complicated, and that unless they are very carefully managed and all reasonable precautions are taken to allay the jealousy, and give a fair representation to the interests and wishes, of the foreign stock and bondholders, there may be a needless and expensive litigation, which said conclusions seem well adapted to prevent.

C. G. BARBER.

Subscribed and sworn to before me this 30th day of September, A. D., 1875.

HENRY L. SMYTHE, Notary Public.

The following is Judge Donohue's order:

On reading and filing notice of motion for this order, with proof of service thereof, you, the attorneys for the plaintiffs in the above entitled actions and for the defendants who have appeared therein respectively, and on motion of Mr. W. MacFarland, of counsel for Hugh J. Jewett, Receiver, &c., no one appearing to oppose, it is ordered that until the further order of this Court the receiver of the Erie Railway Company be and he is hereby authorized in a prudent and proper manner not inconsistent with his general duty as a receiver, to take such action as he may deem advisable upon the basis of the conclusions and to accomplish the purposes set forth in said affidavit and to make the proper payments thereby necessary.

CHARLES DONOHUE.

Eastern Railroad.

At a meeting of the directors of the Eastern Railroad Company, held in Boston on the 5th inst., it was unanimously voted that the President be instructed to issue the following statement for the information of the stockholders:

The Directors of the Eastern Railroad Company, having received the report of the Committee of Investigation, submit to the stockholders the following statement:

The entire indebtedness and liabilities of the corporation September 1, 1875, as shown by that report, were as follows:

Bonds	$5,691,448 00
Ten Year Notes, including $2,000,000 Sinking Fund	5,676,500 00
Notes maturing within 8 months	1,677,900 00
" " " 3 years	286,000 00
Notes of P., S. and P. R. R. indorsed by E. R. R.	250,000 00
Other debts not bearing interest	344,400 67
	$13,926,248 67
Liability on purchase of Mill Pond Lands in Charlestown, assumed at time of purchase and maturing in 1877	724,125 00
	$14,650,373 67

There is also a contingent liability of the corporation as indorser of bonds of the Portsmouth, Great Falls and Conway Railroad, amounting to $514,000, that mature in 1892.

Against this indebtedness, besides the road, stations, lands, equipment and all other items properly included in Construction account, and representing the whole permanent plant and income earning property of the corporation, it holds the following items of specific property, in excess of what is required for the business of the road, viz:

Lands at Charlestown, not required for use of the road, at Assessor's valuation	$1,800,200 00
Lands at East Boston, Lynn, Malden and other places on line of the road not required for use, and shares in connecting railroads, and other items of property, valued by committee at	1,211,551 44
Balances due from other roads, agents, etc.	460,976 72
	$2,972,728 16
To this add:	
Coal, Wood and Iron on hand	316,529 08
Cash	130,395 66
	$3,419,652 90
The above items do not include the investment of the corporation in the P., G. F. & C. R. R., consisting of 5513 shares of stock, costing	551,300 00
Bonds, costing at par	486,000 00
	$1,037,300 00

The value of this investment depends of course, in great measure, upon the ultimate success of the Eastern Railroad, which operates the P., G. F. and C. R. R. under a lease made by that corporation to the Eastern Railroad in N. H.

The directors see no reason to doubt that, before the maturity of its bonds, the P., G. F. and C. R. will be self sustaining and ample security for the debt which they represent, and that its shares will at all times have an appreciable value. Without estimating these securities of the Conway road, it will be seen that if the property owned by the Corporation, not required for railroad purposes,

could be made available it would reduce the debt of the corporation to $11,280,720 77.

The apparent increase in the net amount of debt since the last annual report is in part accounted for by the entire omission of these securities of the P., G. F. and C. R. R. from the present valuation of the property of the road, the diminished valuation put upon the property of the road by payments made upon pre-existing contracts for steel rails and additional lands in Charlestown, and by discount on sales of securities.

The directors realize that the report of their Investigating Committee, and the above statement, based upon that report, are at least as unfavorable to the road as the facts will warrant; but notwithstanding the adverse appearance of these figures, made during the most disastrous year since the inauguration of the railway system in this country, they believe that the views of the Committee, expressed in the subjoined extract from the concluding paragraph of their report, are true and will commend themselves to the public:

"However discouraging the present aspect of the financial condition may seem to be, we must not forget that the increase of population and business is steadily going on. The receipts of the road must continue to grow in the future as they have grown in the past. From 1861 to 1871 the increase of travel was from 1,122,405 in 1861 to 3,545 649 in 1871, so that it is fair to suppose that the increase in population along the line of the road, which has in Essex county alone been 10 per cent. during the last five years, will still continue. We are also aware of the recent great development of business in Maine and New Hampshire through the increase of railroad facilities, which will probably still grow in the future, so that by careful watching and accommodating the traffic and reducing our expenditures to within the lowest practicable bounds, we may look forward with confidence to a return of prosperity in the affairs of the road."

By order of the Directors,

JNO. WOOLDRIDGE,
President.

Boston, Oct. 5, 1875.

Western Maryland Railroad.

A bill of complaint has been prepared by Samuel Snowden and J. Thomas Scharf, solicitors, to be filed in the Circuit Court for Baltimore county, Md., against the Western Maryland Railroad Company, the complainants being Daniel Dougherty, James Dougherty, Paul Whitman and Mary Ann Dougherty, administratrix of Dennis Dougherty, holders of preferred second mortgage bonds of that company. The bill recites that the interest on the bonds held by the complainants have been due and unpaid for more than thirty months; that by the terms of the mortgage securing these bonds the trustees, grantees in the mortgage, are authorized to sell the road, but they refuse to do so, and therefor a decree is asked for removing these trustees, and for the sale of the mortgaged property for the payment of the claims of the complainants and distribution among the creditors of the company according to their several priorities.

The bill further alleges the railroad company is insolvent, and asks for the appointment of a receiver for the road, and for an injunction to restrain the company from interfering with any of the property included in the mortgage.

The preferred second mortgage bonds mentioned were issued in 1868 to the amount of $600,000, and are payable in 1895, with six per cent. interest, payable semi annually in Baltimore on the presentation of coupons attached to the bonds. The company, to secure these bonds, conveyed to certain trustees all its property and effects, real and personal, with the road bed, superstructure, &c., between the Relay House and Hagerstown, the net revenues, engines, cars, and rolling stock, &c.

The complainants, Mary Ann Dougherty, administratrix, holds 7 of the $1,000 bonds, James Dougherty holds 14 of $500 bonds, Paul Whitman holds 2 of $1,000 and 2 of $500 bonds, and Daniel Dougherty holds 7 of $500 bonds.

The bill recites that a mortgage was executed by the company in 1858 for $600,000 of bonds, another mortgage in 1867 to the city of Baltimore and Washington county for bonds to the same amount, and that the last named mortgage has been postponed by the grantees to the mortgage to secure the bonds of complainants.

Chicago, Danville and Vincennes Railroad.

The following order has been entered by Judge Drummond in the suit of Fosdick & Fish:

On application of the receiver upon petitions filed, leave is given him as such receiver to make an agreement for the rental of a road and property of the Chicago and Southern Railroad Co., as set forth in the petition filed on the 24th and 13th ult. And on petition of the receiver this day filed leave is given him to arrange with the Western Union Telegraph Co. to build, under their contract with the said C., D. & V. R. Co., a line of telegraph from Bismarck, Ill., along the line of what is known as the Indiana Division to Coal Creek, Ind., about 24 miles, as proposed in his printed report, pages 9 and 11; to pay the old account of the said telegraph company upon the best terms he can obtain; to make at the Danville shops the improvements mentioned in his printed report, page 31; and to surrender to the Hinckley Locomotive Works, of Boston, Mass., the five engines belonging to them now in his possession, and referred to in his printed report, pages 11 and 15.

The lease mentioned is that of the Chicago and Southern Railroad for a monthly rental of $1,866 66 in gold, the lessee agreeing to run two suburban passenger trains daily, except Sundays, over the line, and to stop at such stations as that road shall direct. All free passes given by the C. & S. R. R. Co., on account of donation contracts shall be good on such trains and all other regular passenger trains between stations where such trains make regular stops.

Peoria and Rock Island Railroad.

The following is an abstract of the report of J. R. Hilliard, Esq., Receiver, filed on the 2d inst:

The earnings for seven months ending August 31, 1875, have been $73,110 22, against $33,723 32 for the corresponding months of 1874, an increase of over 100 per cent. From the earnings have been paid:

To employes back pay in full	$19,790 70
On account of notes secured by mortgage	23,592 14
G. W. Cable, interest on bonds	7,500 00
New water tank at Galva	1,107 36
New iron	10,623 60
Cross ties	4,708 05
Labor putting in ties, etc	1,472 15
Rebuilding cars	2,800 61
Legal services	1,238 48

There is still remaining due on the chattel mortgage $26,407 86, which can be paid within the next sixty days. The road is favorably located, running through a rich farming country, and having on either side valuable coal deposits in operation. Peoria has a population of over 30,000, and Rock Island, Davenport and Moline, more. There are numerous thriving towns along the road, most of them having good elevators, thus being excellent grain markets. The road was cheaply constructed, and to that fact chiefly must be attributed its failure. The grades are so heavy, (some of them being upwards of 90 feet to the mile,) and the curves so sharp that only a train of 15 cars can be hauled by one engine; and from Peoria, 6 miles westward, two engines are necessary. If the grade could be lowered to 40 feet to the mile, and the curves made easier, a train of 25 cars could be hauled by one engine, and great expense avoided. The cuts, fills and ditching were so carelessly done that the road-bed needs widening and deeper ditching alongside it. The ties being of pine must be replaced as soon as possible. There are 225 bridges along the line, 5 being of the Howe truss pattern, and the others trestle. Many of the latter, having been built on soft wood piles, need extensive repairing. The iron between Peoria and Orion is generally good, only needing about 200 tons of new rails. That between Orion and Coal Valley is much worn, having been used by the Rockford, Rock Island and St. Louis Railroad, and will need 200 tons of new iron. Between Coal Valley and Rock Island the road is also bad, having been used by the Coal Valley Mining Co., and 600 tons of iron and 5,000 ties will be needed to put it in repair. Much expense has been incurred by the want of depot grounds. The loss at Peoria is annually nearly equal to the cost of purchasing grounds and erecting suitable buildings. At Rock Island also the necessary freight and passenger room is leased from competing lines, causing great expense and inconvenience. In both these cities land for depots is scarce, and it is necessary that it should be purchased at once. The company is also suffering from the lack of a suitable quantity of rolling stock. There are only three passenger and four freight engines, and the receiver is constantly under the necessity of hiring engines. This is a very difficult matter in the busy season, and much inconvenience results. A switch engine is also much needed. There are about 20 miles of road for which the right of way has been purchased but not paid for. The debt will be liquidated at the rate of $50 an acre, and many adjacent land owners be thus converted from enemies to friends. There are also about 80 miles of track unfenced, and as the land owners offer liberal inducements, and the amount paid for stock killed is large, the receiver recommends that this portion be fenced at once. An order was thereupon entered by Judge Drummond allowing the receiver to make such improvements in the track and bridges as are absolutely necessary; to purchase such ties, piles and iron, as are imperatively demanded, and one freight engine; to examine the site for a depot in Peoria, and report its location and cost, and also to report from month to month a list of his expenses, and disbursements and receipts.

☞ The Providence, R. I., Journal has information of the progress of the Providence, Ponegansett and Springfield Railroad movement among the Connecticut towns that leaves little doubt that the location now being made in Rhode Island will be continued through Connecticut.

☞ Ebenezer Westcott has been appointed Receiver for the Bridgeton and Port Norris Railroad, in place of Hon. A. W. Markley, deceased.

Official List of Patents Issued by the United States Patent-Office.

[For the Week ending October 7, 1875.]

MECHANICAL AND RAILROAD.

167,825. Wrench-bars, A. G. Coes, Worcester, Mass.

167,842. Gates for R. R. crossings, P. Keller, Wrightsville, Penn.

167,860. Steam pistons, O. M. Stillman, Westerly, R. I.

167,861. Feed devices for rolling mills, S. Vanstone, Providence, R. I.

167,863. Derricks, W. C. Wetherill, Youngstown, Ohio.

167,865. Balanced valves, J. F. Allen, New York.

167,883. Exhaust pipes, J. C. Farmer, Providence, R. I.

167,884. Countersinks, F. F. Farmer, Boston, Mass.

167,890. Molder's flasks, H. H. Garrett, Albany, N. Y.

167,897. Ratchet braces for Drills, H. C. Hart, Unionville, Conn.

167,928. Car starters, L. C. Parker, Robinson, Kansas.

167,974. Metal turning lathes, G. F. Ballou, Pawtucket, R. I.

167,999. Mechanical motors, J. W. H. Doubler, Philadelphia, Penn.

168,021. Nut-locks, C. Holton, Reading, Penn.

168,026. Machine for rolling metal tubes, C. L Johnson, Whitesborough, N. Y.

168,035. Rotary engines, W. Lyon, Newark, N. J.

168,037. Nails, A. Marotzski, Jersey City, N. J.

168,041. Car couplings, G. H. McGlothlen, Clarinda, Iowa.

168,055. Railway crossings, C. C. Shelly, Jersey City, N. J.

168,058. Electric railroad signals, S. W. Sparry, Reading, Penn.

168,062. Time locks, E. Stockwell, Stamford, Conn.

MINING.

168,010. Rock drills, G. Frisbee, Reading, Penn.

SHEET METAL.

167,870. Metallic cans, G. W. Bell, Brooklyn, N. Y.

167,897. Metal drills, H. C. Hart, Unionville, Conn.

167,969. Soldering irons, J. Aguiar, Baltimore, Md.

167,974. Metal turning lathes, G. F. Ballou, Pawtucket, R. I.

168,001. Sheet metal cans, J. F. Drummond, New York.

168,026. Metal tubes, C. L. Johnson, Whitesborough, N. Y.

168,063. Sheet iron blanks, G. E. Taylor, Philadelphia, Penn.

☞ The San Francisco *Call* says that the Oceanic, the pioneer steamer of the Occidental and Oriental line, arrived there on the 29th ult. from China and Japan, and then adds: The cargo is the most valuable that has ever crossed the Pacific since the epoch of the Spanish galleons that lumbered over the rollers and made Acapulco their haven. It is valued at one million dollars, and consists of 31,704 packages of tea, 858 of silk, and 17,804 of general merchandise. There were also $22,235 in specie on board. As most of the cargo is consigned East, the Central Pacific Railroad Company have made special arrangements for its transit. One hundred and twenty cars will be required. The Oceanic brought a large list of passengers, including 257 Chinese.

The Manhattan Railway.

REPORT OF THE COMMISSIONERS.

To His Honor W. H. Wickham, Mayor:

Sir: The undersigned, the Commissioners appointed by you under the provisions of chapter 606, Laws of 1875, reported on the 6th ult. the routes for steam railways fixed, determined, and located within the sixty days by the law allowed for such action. The reasons thus stated for addressing that report to you prompt us now to make formal report to you of the plans also, which we have, within the ninety days allowed for that purpose, decided upon, for the construction of such railways, with the necessary supports, &c., upon the routes in the locations determined. As was suggested in our former communication, we have attempted to ascertain not what is, under other circumstances, the best in theory merely, but what is the best that can here and now be realized in practice. We have thought it to be our duty so to designate routes and so to describe plans of structure as to make sure, if possible, of the actual accomplishment of rapid transit. And, beginning our work with a sincere desire for information, and with minds open to conviction, we have considered every suggestion made in response to published or personal invitations on the subject. To engineers and the capitalists expressing a desire to invest moneys in the enterprise we have given special attention. We perceived at once that in such an undertaking capital should be hampered with the fewest possible restrictions. Remembering the discussions had during the last fifteen years, and the history of the several attempts in that time made to reach the results desired; considering the circumstances of the present situation, and advised by engineers and capitalists as well, we had, before the date of our previous report, reached the conclusion that elevated steam railways are not only more likely than any other steam railways to be actually constructed in this City, but are the best for the purposes in view. It is with reference to the location, not of the tracks or railways, but of the route itself, that the law under which we have acted required us to determine whether it should be over, under, through, or across the several streets traversed, and you will remember that in our resolutions designating routes, and adopted within the statutory sixty days, we carefully described elevated routes. Nobody has proposed to us to construct a railway either under the surface of the street or in a tunnel. But when we determined the routes we had already heard the arguments of engineers who have proposed what are called "depressed" or "open-cut" railways, and we had examined their drawings and specifications. Since then, and within the last three weeks, we have been again urged by parties in interest to decide upon that plan as the style of construction to be adopted. But our deliberate judgment has been against it, and had we been otherwise inclined, we are advised by counsel that, having designated the routes already described, it was not within our power to decide upon a "depressed" or "open-cut" plan of construction, and that it is indeed doubtful whether the law which allows the streets to be used for steam railways can be held to intend that so large a portion of a street as is necessary to make a "depressed" or "open-cut" railway materially better than an underground or tunnel road should be absolutely withdrawn from the possibility of use for any purpose other than that of furnishing air and light to a steam railway below the surface. The plans for the construction of rapid transit railways now decided upon by us are described in the resolutions adopted on the 4th inst., of which copies accompany this report. It will be observed that with regard to the structure we have limited our requirements to essentials, exacting attention only to the necessary conditions of strength and safety. As to all matters of detail we have allowed the widest range of choice to those who shall build the road. Our purpose has been to secure the roadway of the streets against obstructions wherever it is practicable to do so; and though we have allowed a certain range of choice for selection, by the companies building the roads, of the plan of structure to be used in any particular street, it will be found, we think, that they are required to employ in each street a structure which affords least occasion for objection in that locality. We have had a communication from the Honorable the Common Council on this subject, which was received with great deference, and with the suggestions therein made we have complied as far as was possible in view of the general controlling considerations above referred to. Among the plans submitted to us by engineers and inventors there are many of great merit—too many to be here more particularly referred to. And the general requirements by us adopted allow, we believe, the companies which may construct the railways to select the best features of each of these plans in the structures to be erected. The time allowed us by the statute within which to decide upon the style of construction has proved too short for the investigations and experiments which might have enabled us to speak with confidence as to the relative excellence of many of these plans. That must be left to the experts who will be employed by the capitalists controlling the corporations which are to build the railways. In our labors we have been assisted by the exhaustive and admirable report of the Society of Engineers upon the subject of rapid transit roads, and we have also had the privilege of reference to the recorded proceedings of Commissioners who have preceded us in the consideration of the elements of the problem peculiar to this locality. For quite two months we have had the advantage of daily consultation with Mr. Isaac Newton and Mr. Samuel H. Shreve, well known civil engineers, who have given special attention to the questions which arise with reference to elevated railways. They have made careful examination of the many plans of construction submitted to us, and to their experience and thorough knowledge as to the theory as well as practice in such cases we are greatly indebted.

The law under which we have acted is new, and it contains many provisions novel in the legislation of this State upon which the courts have not yet passed. The Constitution, too, has been recently so amended as greatly to increase the difficulties of enterprises such as we have been

directed to provide for, and several of the parties concerned have been constantly represented before us by counsel advocating the views and interests of clients. Under these circumstances we have found it necessary to require the almost daily attendance and advice of Burton N. Harrison, Esq., who is our own regular counsel, and we have also, at his suggestion, repeatedly consulted with and have the opinions of James Emott, Esq., and Stephen P. Nash, Esq., who were retained by Mr. Harrison as special counsel to the board. Although the New York Elevated Railway Company and the Gilbert Elevated Railway Company give us reasonable assurance that they will construct and operate railways within the time and upon the routes prescribed to them by us, we still adhere to the opinion suggested in our previous report, and for the reasons there stated: that a new corporation should be organized, as the law allows us to do to render "assurance doubly sure" that our labors will result in rapid transit actually accomplished. That corporation we have decided to name the Manhattan Railway Company. It is to be organized with a capital of $2,000,000, and books of subscription to the capital will be opened within the next thirty days and as soon as practicable after we shall have drawn the articles of association, by the law required to be by us prepared for the subscribers. We have also, within the statutory ninety days, determined the times within which the several portions of the railway shall be constructed and be ready to be operated, together with the maximum rate to be paid for transportation and conveyance over such railways, and the hours during which special cars or trains shall be run at reduced rates of fares. Copies of our resolutions on these subjects are hereunto annexed as a part of this report. In finishing this communication we are happy to be able again to inform you of the harmony with which we have worked together since the board was organized, and to state that the conclusions reached are by unanimous votes. We have done everything in our power to further your own expressed wishes and earnest efforts in the solution of one of the urgent problems of the day in municipal government, and you can in the future, as heretofore, rely upon our co-operation, with the hope that by rendering the middle and upper portions of the City accessible by rapid transit from the localities in which business is now centred, we may not only add to the comforts and conveniences of life in New York, but may secure a large increase of population, and by distributing values of property more evenly throughout the area of the City reduce the rate of taxation and reduce also the amount of the City debt.

Very respectfully your obedient servants,

JOSEPH SELIGMAN,
LEWIS B. BROWN,
C. H. DELAMATER,
JORDAN L. MOTT,
C. J. CANDA.

☞ The Philadelphia and Chester County Railroad Company propose to run a railroad from Philadelphia to some point east of Downingtown, on the Pennsylvania Railroad, by way of West Chester. It will be twenty-four miles in length, in almost a direct line. This road was begun two years ago, but only five miles of it was then completed, owing to the failure of the contractor. The directors have made the necessary arrangements for recommencing the work during October.

Railroad Speculations.

A correspondent of the Sacramento Record Union, writing from Salem, Oregon, under date September 26th, says:

The North Pacific Railroad Company may reach Portland by the 1st of January, 1880, but that road cannot divert our commerce to Puget Sound. It is supposed that the Central Pacific Railroad Company is intending to secure two strings to its bow by some time or other building the Winnemucca road, to pass down the west side of the Willamette valley to Astoria. When at Forest Grove it will be thirty miles from Portland and only sixty miles from Astoria. It will naturally go to the latter. It is supposed that the Union Pacific Railroad Company will seek to be independent of the Central Pacific Railroad by building the Salt Lake road, which need not, and probably will not go to the upper Columbia, to compete with the North Pacific road, but can traverse middle Eastern Oregon and cross a good pass to this place, and so reach Astoria. A railroad to Astoria may be considered a certainty within ten years, and may be built in five or less, and when that place is so connected with the rest of Oregon it will be able to compete on a fair footing for the trade and commerce of the interior. The time is not very far distant when capital will seek Astoria as a place for enterprise and investment. Millions that are being coined will be there set to work sooner or later, and then will follow a struggle between the city of Portland, that is rich, and the city of Astoria, that wants to be, which will be interesting, to say the least of it.

Forty-first Parallel Railroad.

A certificate of incorporation of the Forty-first Parallel Railroad of Ohio has been filed with the Secretary of State. The road starts from and connects with the Forty-first Parallel Railroad of Indiana at the State line, at the township of Benton, Paulding county, in the State of Ohio, and runs through the counties of Paulding, Putnam, Hancock, Seneca, Huron, Ashland, Medina, Summit, Portage and Mahoning, and connects with the Forty-first Parallel Railroad of Pennsylvania, with a spur or branch diverging from the main or trunk line in Putnam or Hancock counties, running through the counties of Henry or Wood and Lucas to Lake Erie, at or near the city of Toledo, connecting with a branch or spur diverging from the main or trunk line in Lucas or Huron counties, through the county of Erie to Lake Erie at or near the city of Sandusky in Erie county. The length of the road is estimated at nearly three hundred miles. Capital stock is fixed at $300,000, or $10,000 per mile. The incorporators are Geo. B. Loring, L. M. Morrison, Daniel Saunders, Henry Blanchard and Charles Kellogg.

Wisconsin Central Railroad.

It must be a source of gratification to the people of Wisconsin to learn that the Wisconsin Central Railroad Company has concluded to commence work to-day on the straight line between Stevens Point and Portage City. The company waited to know whether Portage City, Packwaukee, Westfield, Hancock, Waupacka, Stevens Point, &c., had voted the small aid required. The amount asked for the whole line was $72,000, or only $1,000 per mile. Yet on this small basis the company will proceed with the work, and if the present autumn is favorable they hope to have the whole line completed from Stevens Point to Portage City by the 15th of September, 1876. The route is so very favorable the engineers think they can grade, lay the track and iron it for $11,000 per mile; and they are confident that on this comparatively small investment to what other roads have cost they can render it a paying line.

The road will be of immense advantage to the farmers north of Portage City, as we think it will add four cents to every bushel of grain that they raise, and lumber which is now so dear there, will then be cheap, as they will then have direct and easy access to the pineries of Northern Wisconsin. This rord will unquestionably add to the importance of Portage City as a railroad centre, and it will also become a valuable feeder to the Milwaukee and St. Paul in its distribution of lumber to Madison and other points, and also to Milwaukee, because the distance between Milwaukee and Stevens Point via Portage City or Menasha does not vary more than five miles.—*Mil. Wis., Oct. 6.*

Northern (Cal.) Railroad.

The San Francisco Real Estate Circular says that the Northern Railroad, which is at present to run from Woodland, on the California Pacific Railroad, to Tehama, is being rapidly built. The grading is already completed for a distance of about seven miles from Woodland. The steel rails are now arriving, and ties sufficient to lay twenty miles are already on hand. Track laying will be commenced in a few days, and the work will be pushed forward without interruption to a point opposite Colusa—a distance of thirty-eight miles. Several grain warehouses are already being erected along the line, and much of the grain will be held for shipment by rail. The construction of this road opens up one of the best grain growing sections of the State. It is the intention, eventually, to have the terminus of the Northern Railroad at Oakland, a bridge or ferry to accommodate which will cross the Straits of Carquinez.

Durability of Steel Rails.

The last iron rail has been laid on the Central and Southern Pacific Railroads. In future steel rails will be used exclusively on both these roads and their branches. Thirteen thousand tons of Bessemer steel rails are now afloat, on the way here for the Southern Pacific Railroad. The first instalment of this large order arrived here last week. Some four years ago iron and steel rails were laid alternately on the railroad tracks at Fourth and Townsend streets. Trains of passenger and freight cars run over some of the tracks there one hundred times a day. The iron rails have been renewed three times, they being utterly worn out each time, while as yet the steel rails show no perceptible sign of wear at all. This is also true on the mountain division of the Central Pacific, in the Sierra Nevada. The wear and tear on rails there is extremely severe, and the curves in many places very sharp, but as yet the steel rails laid there show no perceptible wear. The same material is, of course, used in the iron as in the steel rails, the difference being that, to make steel of it, the iron is put through a scientific, patented process, a description of which would occupy too much space here. The patent for Bessemer steel rails has about half expired, and, in consequence, a reduction in the price of rails made under it has recently occurred. With steel rails and redwood ties on the main Central and Southern Pacific Railroads and their branches, accompanied by well ballasted road-beds, we will have railroads as nearly indestructible as money can make them, and well calculated in every way to bear the enormous and rapidly increasing traffic of the Pacific coast.—*San Francisco R. E. Cir.*

☞ Packages for transmission through the mails between the countries embraced by the Treaty of Berne are limited to eight ounces for written matter and two pounds three ounces for printed. All packages exceeding this weight must go to the Dead Letter Office.

American Railroad Journal.

Saturday, October 16, 1875.

☞ CONTRACTORS will find a notice of interest to them on another page of the JOURNAL.

Financial and Commercial Affairs.

Money has been more active and quoted firmer in price, call loans ruling most of the week at 2½ @3½ per cent to the leading Street houses; and best commercial credits rated at from 5@7 per cent per annum. The more vigorous movements of Breadstuffs, Cotton and other produce from the interior towards the seaboard have been calling into requisition larger amounts of currency; and this circumstance has been operating against the accumulation of legal tender and national bank notes, especially the latter, at the great Money centres. These changes, regarded as indicative of reviving animation in the trade and industrial interests of the country, have been reviewed quite favorably. The Cotton movement is now unusually brisk, and the exports are in larger volume in good part to the Continent. Advices from Europe are of generally stronger Money markets; and the Bank of England reports further losses of specie, chiefly through withdrawals for shipment to America. Several failures, financial and commercial, abroad and at home, have been reported during the week, but none of them of sufficient moment to make any serious impression on the course of the markets. The U. S. Sub Treasury reported a considerable falling off in its currency balance, with a handsome gain in that of coin. The City Banks reduced their reserve of legal tender notes $6,138,800, and their deposit item $4,-

247,500, while enlarging their specie average $252,600. They report an increase of $3,332,300 in the loans and discounts and a decrease of $73,500 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $55,280,171, against $57,302,432 the preceding week; and a coin board of $37,898,420, against $35,830,992, on the previous return. The City bank exchanges in currency during the week were $408,246,651, or a daily average of $67,207,775. The customs revenue of the port, during the week, was $2,065,000. The City banks reported their average of gold last week at $6,701,500, and their greenback average at $60,856,800. Their deposits stood at $230,156,100. The loan item was $281,973,600. The circulation was $17,852,400.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of only $9,519,325.

The aggregate of the outstanding U. S. currency, of all denominations, October 1, was $415,274,897. The outstanding amount of legal tender notes is $373,941,124. The National bank circulation is now $346,769,853, including $2,640,000 of national gold bank notes.

The specie shipments from San Francisco, January 1, to Sept. 22, were $32,215,377, against $21,195,300 same time in 1874.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $6,500,000; special deposit of legal tenders for the redemption of certificates of deposit, $61,885,000; Coin, $70,000,000; Coin certificates $13,000,000.

The week's import entries of Foreign Merchandise at New York, were $4,652,546, and included of dry goods $1,110,692.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 33 millions; and from Customs, 49 millions.

Gold has been quite active but more variable in price, and, toward the close, depressed and lower, under more urgent offerings, chiefly on speculative account. The customs call has been fair, and the export drain light. The extremes of the week have been 115⅞@117⅜, closing on Wednesday at 116 as against 116¾, on Wednesday of the preceding week. The specie outflow last week was $453,900 against $370,000 the previous week. The imports of specie at this port since Jan. 1, have been $10,003,488, against $5,060,939 same time last year. The customs demand for Gold last week averaged $344,167. Foreign Exchange has been generally in very moderate request and quoted irregular, closing more or less nominal. Bankers' sixty day bills on London closed on Wednesday at $4 78½@$4 79; sight bills on London at $4 83@$4 83½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,877,407. The week's imports of Dry Goods and general merchandise were to the specie value of $4,652,546, against $6,479,189 same week last year.

Government Securities have been fairly active, the demand having been mainly for home investment, but currency prices have ruled lower in sympathy with the decline in Gold. The offerings of all issues have been very moderate. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation is $369,791,762.

U. S sixes of 1881 closed on Wednesday of this week at 123@123½; U. S. Five-Twenties of 1864, at 118¾@119; U. S. Five-Twenties of 1865 119½@119¾; U. S. Five-Twenties of 1865, consolidated, 118½@118¾; U. S. Five-Twenties of 1867, 119⅝@119⅞; U. S. Five-Twenties of 1868, 120½@120¾; U. S. Ten-forties at 116¾@117; U. S. Fives of 1881, (Funding Loan) 117¼@117½; Six per cent. currency Sixes, 123½@124.

State and Railway bonds have been in fair request, as a rule, with the more substantial loans quoted generally stronger in price toward the close. And in the line of Railway and Miscellaneous share property, an active movement has been reported, with, however, more than usually wide fluctuations in values, in good part, by speculative manipulations.

General business has been fairly active in the line of domestic produce, especially Breadstuffs, Cotton, Provisions and Tobacco, which closed, as a rule, stronger. Foreign merchandise has been in moderate request and comparatively firm in price. Hardware, Boots and Shoes, and Earthenware, less sought after. Metals have been less freely dealt in, and prices of American Pig Iron and Pig Lead have been quoted lower. Ingot Copper rather dearer. Eglinton Pig Iron quoted here at $29@$30; Glengarnock, $33; Coltness, $33; No. 1 American Pig at $25@$26 50; No. 2 do. at $23@$24 50; Forge, $21@$23; English Rails at $47 50@$50, gold; American Rails, at works, $46@$50; Old Rails, $25@$27. Wrought Scrap, $31 50@$33 50. Ocean freights have been quite brisk, stimulated, in part, by a reduction in rates and room on berth and charter for Grain. Cotton and Tobacco shipments more liberal.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Cedar Falls and Minnesota 1st mort., 81½; Lehigh and Wilkesbarre 7s, consol., 96; Chesapeake and Ohio 1st mort., coupon on, 29; Canada Southern 1st mortgage, coupon on 45; Delaware and Hudson Canal reg. 7s, 1877, 104; Rome, Watertown and Ogdensburg 7s, consol., 90; Dubuque and Sioux City R. R., 27½@28½; George's Creek Coal, 130@145; Atlantic Coal, 2.45@2.50; Am. Gas Coal, 20@30; Santa Clara Mining Co., 6½@7; Canton Co., 45@50.

☞ The Boston Journal says that the Wason Car Manufacturing Company, of Springfield, Mass., will increase their present force of upward of 100 workmen to about 300 November 1, when they will commence work on their contract for building 12 new passenger cars for the New York, New Haven and Hartford Railroad. They have hopes of receiving subsequent orders enough to work a force of 450 workmen during the winter.

Dt. of Col. 3-65 Bonds.

The Board of Audit of the District of Columbia, which consists of the first and second controllers of the United States treasury, have discontinued the issue of 3-65 District bonds, but do not concede that they have no authority to issue these bonds in excess of ten millions. There have already been issued about twelve millions. A question has arisen whether the law authorizing the completion of unfinished contracts when the District commissioner succeeded the board of public works contemplated additional work on what is termed extensions of the old contracts. Pending a statement on the subject by the commissioner the board of audit has decided to discontinue the issue of the bonds.

The Philadelphia Scale and Testing Machine Works.

Notwithstanding the stoppage of railroad progress and the shutting down of so many iron works during the past year (which are the staple customers of the scale makers), the Messrs. Riehle Bros., proprietors of "The Philadelphia Scale and Testing Machine Works," have built and removed to new works on 9th st., above Master Phila., where they have considerably increased their facilities for the manufacture of their patent scales and testing machines. We admire the "pluck" and enterprise of these gentlemen against such strong opposition.

☞ Judge Bond, of the United States Circuit Court, at Richmond, has appointed Henry Tyson, of Baltimore, Receiver of the Chesapeake and Ohio Railroad, under the application of the creditors, for foreclosure of the first mortgage. Gen. W. C. Wykham, Vice President has issued an order to all the agents of the road, in conformity with the appointment.

☞ The York, Penn., Daily says the Peachbottom railway company has closed a contract with Messrs. Waterman & Beaver of Danville, Pa., for some four hundred tons of rails for the extension of their road, at forty eight dollars per ton, delivered in York.

Notice to Contractors.

THE COMPLETION OF THE FOURTH AVENUE Improvement gives us a large and valuable surplus of Stock, Machinery and Tools, which we propose to sell in the next twenty days at Panic Prices.

THE LIST INCLUDES:

Sixty Large Work Horses,
Sixty Broad Tire Dirt Carts,
Sixty Setts Cart Harness,
Twenty Setts Double Work Harness,
Fifteen Stone & Earth Wagons,
One City Furniture Truck,
One Hundred Side Dump Dirt Cars of three feet two inches gauge,
Five Burleigh Rock Drills,
Six full setts Blacksmith Tools,
Steam Boilers from six to sixteen Horse Power,
One Number Four Centrifugal Pump and Engine,
One Ryder Engine, eight Horse Power,
One Deck Hoisting Engine, with two seven and a half inch Cylinders,
One Number Four Clayton's Air Compresser,
Twenty Derricks full rigged with either Hand, Horse or Steam Power,
Two Tons, four and a half inch, by a half inch, Railroad Spikes,
And a large variety of miscellaneous smaller tools, common to Railroad Work.

DILLON, CLYDE & CO.,
68 East 49th Street, New York.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Hatch & Foote,

BANKERS,

No. 12 Wall Street, N. Y.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE. INTEREST ALLOWED ON DEPOSITS.

INVENTORS.

If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C. ☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

West Wisconsin Railway.

THE COMMITTEE APPOINTED AT THE GENeral meeting of the first mortgage seven per cent land grant bondholders, held at Cannon Street Hotel, London, on the 15th of September, give notice that a circular by the committee, explanatory of the position of the company's affairs and the course the committee recommend, may be obtained on application at the offices of Messrs. Naylor, Benzon & Co., No. 34 Old Broad street, London, E. C., or Messrs. Naylor & Co., 99 and 101 John street, New York, or it will be sent by post to such bondholders as furnish them with their addresses. By order of the committee.

J. F. TAFE.

Offices of Messrs. Naylor, Benzon & Co., 34 Old Broad street, London, E. C.; Messrs. Naylor & Co., 99 and 101 John street, New York.

PHILADELPHIA AND READING RAILROAD COMPANY,
OFFICE No. 227 SOUTH 4TH ST.,
PHILADELPHIA, Sept. 29, 1875.

DIVIDEND NOTICE.

THE TRANSFER BOOKS OF THIS COMPANY will be closed on TUESDAY, Oct. 5, and reopened on MONDAY, Oct. 18, 1875. A quarterly dividend of Two and a Half Per Cent. has been declared on the preferred and common stock, clear of all taxes, payable in cash on and after the 29th of October next to the holders thereof as they shall stand registered on the books of the company at the close of business on the 5th of October.

All dividends payable at this office, where blank powers of attorney can be obtained.

Stockholders from A to L will collect at Desk No. 1, and those from M to Z at Desk No. 2.

S. BRADFORD, Treasurer.

CENTRAL RAILROAD COMPANY OF NEW JERSEY,
119 LIBERTY STREET,
NEW YORK, Sept. 24, 1875.

A QUARTERLY DIVIDEND OF TWO AND A HALF PER CENT. is declared, payable on and after WEDNESDAY, October 20th.

The transfer books will be closed from THURSDAY, the 30th inst., to SATURDAY, the 23d prox.

SAMUEL KNOX, Treasurer.

☞ A tremendous steam hammer, capable of beating up a mass of steel weighing 100 tons, is to be constructed for Krupp's works at Essen in Prussia. It is to cost one million dollars, and will be the largest in the world.

Central Pacific Railroad.

From the movements going on among railroad surveyors between here and Shasta, it is evident that work will be commenced next spring, if not sooner, to extend the road above Reading toward a speedy completion to Klamath lake, there to form a junction with the proposed Portland and Winnemucca road. The object of the Central Pacific Railroad Company desiring to hurry up the building of this road via Klamath lake is not so much for the Oregon or Northern California business as to get a good winter route eastward, since they have so much difficulty in getting over the Sierra Nevada mountains in winter via Wadsworth and Reno in Nevada. The railroad company is now obliged to employ not less than 1 000 men every winter, in addition to building snow sheds, to get over the mountains by the Nevada route, while over the Winnemucca route the snow is never deep enough to prevent an easy clearing by the regular trains, and no need of snow sheds or men to shovel off the track. The easiest route yet discovered by the surveyors is to build on the established line passing along the east side of this town, and across Shasta river near the Little Shasta bridge, to Bell's ferry on the Klamath, thence following Klamath river to Big Klamath Lake, where a junction will be formed with the Winnemucca road, so as to form a connection for both northward and eastward communication. All the winter and fast summer travel will thus come through this county from the East, thereby saving the difficulty and loss of time in working over the high grades of the Sierra Nevadas, which are still more difficult in winter. The Sierra Nevadas run down to a level plain just below the northeastern corner of California, and we doubt whether snow has ever fallen over two feet deep on the route proposed, and hardly ever over eighteen inches. Should this road be built, as the prospects indicate, Siskiyou county will again resume its old time prosperity, and the lake section be built up at the junction, which country will also be a great market for our products, this being the nearest agricultural section, and make Klamath river in this county the nearest point for railroad connection with Rogue river valley in Southern Oregon, while Yreka will certainly be the nearest practical point for all the Scott valley, Salmon river, Scott river and Klamath river business.—*Yreka Journal, Sept.* 29.

Roseburg and Port Oxford Railroad.

The Roseburg and Port Oxford Railroad Company, of which Aaron Rose is President, and L F. Mosher, Secretary, whose office is in Roseburg, Oregon, has received from the Secretary of the Interior the information that their application for the benefit of the Act of March 3, 1875, was received and approved. Under this act the company is granted the right of way through the public lands of the United States to the extent of 100 feet on either side of the central line of their road; also, the right to take from the public lands adjacent to the same, material, earth, stone and timber necessary for its construction; also, ground for station buildings, etc., not to exceed twenty acres for each station of every ten miles. We learn that the company intend to put an engineer at work at once to locate the line and make the estimates.

☞ The Norfolk *Virginian* says that the demand for cars on the Seaboard road for the transportation of cotton is now unprecedented, continuous trains during the day and night requiring to be moved and sent forward.

☞ The New York, New Haven and Hartford Railroad is now out of debt except for current expenses, the Treasurer having recently paid the last $1,000,000 of the 1855 bonds.

Erie Railway.

On the 8th inst. Judge Donohue granted an order sanctioning the conclusions reached by English stock and bondholders of the Erie Railway sent over to confer with Receiver Jewett. These conclusions are that the bondholders whose interest is in arrears should have a voice in the expenditure of net earnings, and that foreign stock and bondholders should have some representation in the Board of Directors, and that the receivership should be terminated as soon as possible. The court authorized the receiver to take such measures on this basis as he deems advisable.

☞ In the Equity Court at Washington, on the 5th inst., Judge Olin delivered the opinion of the court in the case of the Washington City and Point Lookout Railroad Company and others against the Southern Maryland Railroad Company, dismissing the application for an injunction, discharging the receiver appointed under a decree made by Judge Wylie on the 23d day of August last, and ordering the receiver to exhibit to the court a bill of expenses incurred by him in the discharge of his duties under said decree, and that the receiver forthwith turn over to the officers of the Southern Maryland Railroad Company all the books, papers and other property of the said company in his possession.

☞ The annual meeting of the stockholders of the Portsmouth and Concord Railroad was held in Manchester, N. H., on the 7th inst., Stephen Kendrick presiding. The road is in a flourishing condition; 1,048 shares were represented, and the following directors were elected unanimously; Stephen Kendrick of Franklin, Samuel N. Bell of Manchester, Samuel P. Dow of Epping, Benjamin F. Martin of Manchester, Joseph B. Walker of Concord, Nathan Parker of Manchester and John J. Pickering of Portsmouth. At a subsequent meeting of the directors, Hon. Stephen Kendrick was re-elected President and William H. Hackett of Portsmouth Clerk.

☞ By the middle of next month trains will run on the Levis and Quebec Railway to St. Mary, a distance of thirty miles from Quebec, and before winter commences, to St. Joseph, a distance of forty-five miles.

☞ The directors of the Canada Southern Railway have decided to complete the road as far as Butler, Indiana, this season. The grading and bridging of these thirty-eight miles are already done.

Notice to Contractors.

SEALED PROPOSALS WILL BE RECEIVED by the undersigned, at Waverly Ohio, until 12 o'clock noon, of THURSDAY, OCTOBER 21st, for the construction of the Springfield, Jackson and Pomeroy Railroad, from Springfield, in Clarke county, to Jackson, in Jackson county, Ohio.

Bids will be received on the entire construction of the road, as embraced in the following divisions, viz: Graduation and masonry, bridge superstructure, cross-ties, iron, track laying and ballasting.

Profiles, specifications, etc., can be seen and general information given, at the Chief Engineer's Office, in Waverly, Pike county, Ohio.

The Company reserves the right to reject any or all the bids, or any portions thereof.

JAMES EMMITT, President.
W. C. AGNEW, Chief Engineer.

THE

UPHOLSTERERS'

ELASTIC SPONGE

COMPANY,

No. 42 LAWRENCE STREET, NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.

The Coal Trade.

The tonnage for the week ending on the 2d inst., as reported by the Miners' Journal, was 570,974 tons, and for the year 14,619,564 tons, against 14,978,180 tons to corresponding time last year, a decrease of 358,616 tons. The bituminous tonnage for the week was 96,929 tons, and for the year 2 983,057 tons, making a total of all kinds for the week of 666,903 tons, and for the year 17,552,621 tons, against 17,723,273 to corresponding date last year, a decrease of 170,752 tons. At Port Richmond for the week ending the 9th instant there were receipts of 75,000 tons of coal, shipments of 55,000 tons, leaving 180,000 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 102,806 tons, and for the year 3,143,376 tons, of which 575,045, was coal and 481,189 coke. This embraces all the coal carried both east and west. At Perth Amboy for the week ending on the 2d of October, the receipts of coal were 17,282 tons, making the total receipts to date 182,844 tons; the shipments for the week were 14,836 tons, and to date 164,405 tons, leaving on hand 20,879 tons.

☞ The annual meeting of the stockholders of the Louisville and Nashville railroad was held in Louisville, Ky., on the 6th inst. Thos. J. Martin and Albert Fink, respectively president and general superintendent, resigned their offices. Messrs. B. F. Guthrie and H. C. Murrell, of Louisville, and P. J. Potter, of Bowling Green, were elected directors. The following officers of the company were elected for the ensuing year: Hon. E. D. Standiford, of Louisville, president; H. Victor Newcomb, of Louisville, vice president; W. Ranney and A. M. Quarrier, of Louisville, secretaries. No superintendent was elected.

☞ The franchise of the Barclay street ferry to Hoboken has been awarded, by the Sinking Fund Commissioners, to the Hoboken Land Improvement Company for three years, at 2½ per cent. of the gross receipts of the ferry. The Chambers street ferry to Pavonia avenue to the Erie Company, for one year, on the same terms, together with $15,000 for the use of the wharf property.

☞ The Grand Rapids, Newaygo and Lake Shore Railroad has been extended more than ten miles, from Newaygo north to Morgan, on the Muskegan and Big Rapids Branch of the Chicago and Michigan Lake Shore Railroad. The road is now 47 miles long. The extension forms another route to Big Rapids. The road penetrates some of the best pine lands in Western Michigan.

☞ At a meeting of the stockholders of the Toledo, Wabash and Western Railway Company in Toledo, Ohio, on the 6th inst., the following gentlemen were elected directors; John W. Ellis, W. B. Isham, Ossian D. Ashley and Solon Humphreys, of New York, and C. F. Curtis, of Toledo.

☞ The contract for a duplex pumping engine for the Newton Water Works at Newton, Mass., has been awarded to H. R. Worthington of New York. The engine will have a capacity for raising 5,000,000 gallons of water 184 feet high into the distributing reservoir, about four miles distant.

Rockford, Rock Island and St. Louis R. R.

The following order has been entered by Judge Drummond in the suit of the Union Trust Company:

As a part of the order entered Sept. 30 last, it is further ordered that in making the necessary repairs specified in said order of Sept. 30, said receiver is authorized to purchaase and put down upon the track of said railroad such number of ties as may be indispensably necessary to make such road for the present reasonably safe for the transportation of persons and property—this order being subject to all the conditions, restrictions and limitations contained in said order of Sept. 30

☞ The temporary injunction against the Portland and Ogdensburg Railroad Company, restraining it from building its road through Carroll and Whitefield, to a connection with the Vermont Division at Dalton, has been dissolved, and all litigation withdrawn, and work resumed.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

P. McBrigham, KINGSTON, N. Y. J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

National Telegraph Co.

Alfred A. Cohen, Esq., President of the National Telegraph Co. of California, now on a visit to this city, makes the following statement in regard to the new company:

"The National Telegraph Company is organized for the purpose of building lines all over the United States, at least over all such portions as it shall be considered profitable to do so. The company was organized about July 1, 1875, the articles of incorporation being filed about that time, Senator Sharon, the millionaire Senator from Nevada, being one of the original incorporators. The capital stock is $25,000,000, divided into 250,000 shares at $100, of which sum $750,000 has already been paid in, or ten per cent. upon the stock subscribed. The purpose is to greatly lessen the present rates of telegraphing, and for this purpose the company has been negotiating for some time past for several patent rights which will enable them to do so with profit. Work will be begun early in the spring, and first class lines will be built, lines that can be operated at advantage at all times."

☞ The revenue of the Chesapeake and Ohio Canal for the month of September was: From tolls, $63,895 98; water and other rents, $3,263 75; interest on deposits, $516 88; total, $67,676 61. The coal tonnage for the month was 115,129 tons, an increase of 14,194 tons over September, 1874. The current expenses for operating and maintaining the canal, including pay of officers, &c., for the month, was $17,005 84; expenses of operating wharves at Cumberland, $1,143 34; extraordinary repairs, dredging and cost of material for winter use, $4,142 56; total expenses, $22,291 74. Net revenue for the month, $45,384 87.

☞ A special town meeting was held at Great Falls, N. H., on the 7th inst., to take action in regard to building a new bridge between Great Falls and Berwick. The matter was referred to a committee of three to get estimates for wood and iron bridges, to confer with the authorities at Berwick and report at another meeting to be held November 3.

☞ Narrow gauge railways are meeting with considerable favor in Switzerland. The longest road of this class now in course of construction is that from Geneva to Lausanne, along the Jura mountains. Its length is 55 miles. Narrow gauge tramways have been introduced in Zurich.

☞ Colonel W. R. Arthur has resigned the position of General Superintendent of the St. Louis, Kansas City and Northern railroad, and Major Jas. F. How, for a long time Secretary and Paymaster of the road has been appointed acting Superintendent.

☞ The Sioux City and Pembina Railroad Company have let contracts to have their road finished from Sioux City to Richland, Dak., thirty miles north, by January 1.

☞ Major G. W. Grice, of Portsmouth, Va., has been elected President of the Raleigh and Gaston and Richmond and Atlanta Air Line Railroad.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

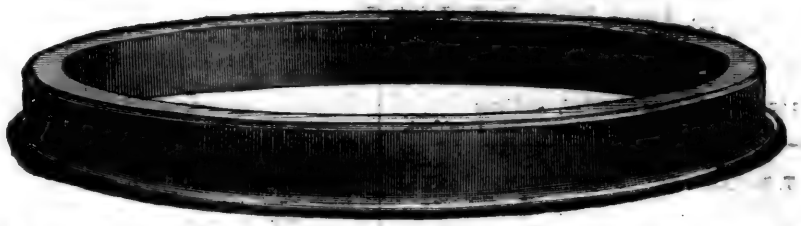
Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.



Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, October 23, 1875.

Forty-first Parallel Railroad of Indiana.

At the annual meeting of this company held on the 29th ult., the following gentlemen were elected directors: J. K. Hornish, Ia.; D. W. Kilbourn, N. Y.; J. B. Hymer, Ind.; J. A. McDorvill, Ill.; J. K. Prentiss, Fort Wayne, Ind.; Geo. W. Reynolds, Toledo, Ohio, and J. W. Williams, of Ind. The following resolution was carried unanimously:

That the Directors of the Forty-first Parallel Railroad Co., of Indiana, be authorized and instructed in their discretion, to consolidate the stock of said company with the Keithsburg and Eastern R. R. Co. of Ill., the 41st Parallel R. R. Co. of Iowa, the Toledo and Southwestern R. R. Co. of Ohio, and any other railroad companies now organized or to be organized, to construct a narrow gauge road across the States of Ohio, Pennsylvania, New York, or within any of them, so as to secure a through line of road from the Atlantic seaboard and from Lake Erie west to the Missouri River, at or near Council Bluffs.

The Board perfected their organization by the election of J. K. Hornish President, J. B. Hymer Vice President, J. B. Prentiss Treasurer, J. A. McDowell Chief Engineer, and Geo. W. Reynolds Secretary.

Nevada County Narrow Gauge Railroad.

The bodies of one passenger car, and of a smoking and baggage car combined, have arrived, but the narrow gauge trucks, on which they are to run, have not yet been received. The cars came out on the standard gauge trucks, and will be lifted on to their own running gear when the latter arrives. One more passenger car and one more combined smoking and baggage car are yet to arrive. These cars are all built by F. E. Canda & Co., Chicago. The cars have the Miller patent safety platforms, and the Westinghouse patent air brakes.

Turton & Knox have finished their contract for grading, and are now engaged exclusively in the work of track laying, and in "surfacing up" the track as far as it has been laid. They have sent 100 of their hands, heretofore employed in grading over to the Colfax end of the line, and these will be employed at "surfacing up the track."

Track laying from Colfax, this way, is going ahead steadily, and last night the track layers reached Bear river, a distance of about three miles. It is safe to predict that the track will be laid to Grass Valley depot by the 15th of next month, and soon after that time will be ready for business.—*Grass Valley Union, Oct. 9.*

Atlantic and Chicago Railroad.

The managers of the Erie Railway have established a new through line from New York to Chicago, by way of Cleveland, running from New York over the Erie Railway to Salamanca; from Salamanca to Cleveland over the Atlantic and Great Western Railroad; from Cleveland to Shelby Junction over the Cleveland, Columbus, Cincinnati and Indianapolis Railroad, and from Shelby Junction to Chicago over the Chicago division of the Baltimore and Ohio Railroad. The Chicago Tribune, in noticing the recent meeting in that city of the representatives of the Baltimore and Ohio and the other roads above named, gives the following as the result of their negotiations:

It was decided to call the new line the Atlantic and Chicago Railroad. Instead of running three through trains daily, as at first intended, it was thought more advisable to run but two trains a day, and increase to three if required. All the cars will run through, and each company furnishes a certain number of passenger and freight cars, and also locomotives. Each train will be provided with one of Pullman's hotel cars and sleepers, and the time will be the same as by any other route. The trains will for the present leave from the Exposition building, the morning train at 9 o'clock and the evening train at 5:15. As soon as possible a general manager and other general officers for the through line will be appointed, and it is the intention to make Chicago their headquarters.

Indianapolis, Bloomington and Western Railroad Extension.

A meeting of the bondholders of the Indianapolis, Bloomington and Western Railroad Extension was held at No. 20 Nassau St., on the 15th inst. Mr. Sumner R. Stone presided, and Mr. Frank Shepard acted as Secretary. The committee appointed at the last meeting made the following report:

Your committee regret that they have not been able to obtain a clear knowledge of the affairs of the company in regard to the earnings of the above road, inasmuch as the receipts of the Indianapolis, Bloomington and Western Railroad Company have not been divided and separated between the main line and extension, but all have been kept together. The only information in regard to amount of the separate earnings is taken from Gen. Wright, the Receiver's report from 1st December to 1st July, 1875, being for the period of seven months, viz:

Gross earnings	$82,987 21
Running expenses for above time	78,916 87
Net earnings	$4,064 34

It is admitted that the rates of freight of all the Western railways for the past year have been entirely too low, and there is no doubt that much larger earnings would have been received if the general depression in railway business had not existed, and the road been in a prosperous condition and not in a receiver's hands. For this reason the above small reported earnings are not considered as any criterion of what they may and probably will be hereafter under proper management. Your committee have endeavored to obtain all the information possible in regard to the general affairs of this property, and have had several interviews with the President and Vice President of the Indianapolis, Bloomington and Western Railway, and also with Mr. Rice, assistant to Receiver, who have manifested a desire to give any information in their power, and have given certain statistics of the earnings of the road, and its disbursements, which are presented with this report. In regard to the issue of the whole amount of bonds of five and a half millions, which was intended by the letter and spirit of the deed of trust to be kept for the purpose of completing the road to Keokuk, your committee can only say that little information can be obtained from the officers of the road beyond the fact that a very large portion of the issue has been used and pledged for the benefit of the main line, and that

the whole of this issue have been sold and hypothecated, and are a lien upon the extension which has been completed to Havana.

Your committee are of the opinion that the whole road, both main line and extension, is so involved in heavy funded and floating debt—the latter being, without question, at least $3,000,000—that a mutual spirit of conciliation must exist, and compromises of various interests must be made, before a satisfactory result can be obtained; and for that end your committee would recommend to the bondholders to appoint a committee of three of their number to meet and confer with the several other committees already appointed by the other bonded interests for the purpose of trying to arrange an amicable basis of settlement of all difficulties.

JOHN J. CRANE,
JOHN CASTREE,
FRANK SHEPARD.

The report was unanimously accepted, and the gentlemen above named were reappointed as a Committee of Conference with the committees of the other bondholders. The meeting then adjourned.

East Tennessee, Virginia and Georgia R. R.

The earnings of this road for the years ending June 30, 1874 and 1875, were as follows:

	1874.	1875.
From passengers	$328,812 24	$314,247 71
" freight	706,408 22	670,355 40
" express	7,508 32	18,268 34
" U. S. mail	57,457 50	56,371 93
" miscellaneous	10,997 74	5,742 27
	$1,111,184 02	$1,059,985 65
Expenses, viz:		
Motive power	$128,169 74	$129,357 01
Maintenance of cars	77,410 22	65,260 88
Fuel for locomotives	70,318 61	63,359 74
Transportation	122,066 94	135,605 59
Repairs of sleeping cars		5,018 94
Repairs of roadway	244,239 96	244,510 73
General expenses	55,203 02	74,409 94
	$697,408 49	$717,522 83
Net income	$413,775 53	$342,462 82
Applied as follows:		
Interest on bonded debt		$280,814 90
Dividend of 3 per cent on the capital stock, due April 1, 1875		58,899 75
Balance to credit of profit and loss account		2,748 17
Total, as above		$342,462 82

Compared with the preceding year the gross revenue shows a decrease of $51,198 37, with an increase in expenses of $20,114 34, making a decrease in net revenue of $71,312 71.

Besides the ordinary operating expenses, the following amounts have been expended in replacements, renewals and improvements:

62 box and flat cars rebuilt at a cost of	$22,300 00
4 passenger cars renewed	6,300 00
2 engines with new boilers	3,941 00
210⅔ tons of new iron purchased and laid on the track	14,219 57
1,028 tons of iron re-rolled	34,932 58
65,543 cross-ties purchased and put on the track	23,500 00
One iron bridge at Charleston, over the Hiwasse River, 389½ feet long, at a cost of	21,422 50
13 miles ballasted with crushed stone at a cost of	19,180 00
	$145,795 65

Two dividends of 3 per cent each have been paid during the fiscal year, the first in October last from the net income of the last half of the preceding year, and the other from excess of income over interest demands for the first half of the present year. The President in his report says:

The physical condition of the property has been preserved in equally as good, if not in a more efficient state, than it was at the beginning of the year. All improvements and replacements of the usual wear have been charged to expense account and, probably, including these there has been a larger sum expended than was actually necessary to maintain the property in the condition that it was a year ago, but we believe that if we err by charging items to expense account which properly belong to construction or improvement account, that it is better to err in this way than to fall into the habit which, we regret to say, is by far too common, of under-estimating and under-charging the actual expenses of wear and tear, and resort to an overcharge of construction account to make up the deficit.

A careful examination into the history of the road for the past ten years shows that the renewals of cross-ties and iron made during the past year approximate very closely to the annual requirements necessary to replace the wear of the same.

The financial condition is substantially unchanged. There has been no increase in the floating debt (which amounts practically to nothing) the cash and other available assets being more than equal to the small balances your company owes. The bonded debt has been reduced by the payment and cancellation of $3,000 of endorsed bonds on account of sinking fund.

Referring to the remarks contained in the last annual report of your board of directors, in regard to the legal impediments and obstructions existing to prevent the North Carolina Railroad Company from building the Western North Carolina Railroad to a junction with your Morristown branch at Paint Rock, which the former company was under contract obligations with your company to do; we have to state that the difficulties then existing have been continued and augmented by additional litigation at the hands of the stockholders and construction bondholders of that company to such an extent as to make it highly probable that it would never be permitted to carry out its contract.

Seeing this, the State of North Carolina, which was to have been a beneficiary in the purchase of the Western North Carolina Railroad, as owner of three-fourths of the capital stock in the North Carolina Railroad Company, acting through its legislature, passed a bill having for its object the purchase of the Western North Carolina Railroad, on account and in behalf of the State, at a maximum price of $850,000. The act provides that in case the creditors of the Western North Carolina Railroad declined to accept the amount, then it was made the duty of the State authorities to appeal from the decree of foreclosure which had been rendered by the Circuit Court of the United States in North Carolina, to the Supreme Court of the United States.

After carefully considering the delay that would have resulted from such a course of action, your board and the other creditors decided to accept the terms offered by the State, and the contract with the North Carolina Railroad Company was canceled, and a sale of all the interests made to the State of North Carolina.

The act referred to created a Commission, consisting of the Governor and Messrs. Armfield and Robertson, the latter two being the respective Speakers of the Senate and House of Representatives of that State.

It authorizes the creation of $850,000 of 7 per cent bonds running fifteen years, to be issued by said commissioners in the name of the Western North Carolina Railroad Company, and secured by a first mortgage lien on all the property and franchises of said road, (of which there is now completed and equipped 115 miles.) It requires one half of the net proceeds of the road to be placed in the Treasury of the State to meet the interest accruing on the bonds semi-annually, and directs the State Treasurer to supply any deficiency that may arise, out of the common fund, and further makes the coupons of said bonds receivable in payment for all taxes and other dues to the State. The other half of the net proceeds of the road is to be applied toward the extension of the road to Paint Rock. It furthermore appropriates the convict labor of the State to be used in the construction and extension of the line to Paint Rock. This labor is to be guarded, clothed and fed at the State's expense.

Under the contract made with the commissioners acting for the State of North Carolina, they are bound to proceed to construct and complete the road to Paint Rock as rapidly as may be practicable, and to commence operations as soon as a clear title is obtained by the foreclosure sale then pending under the decree. This sale has recently been consummated and the State is now in possession and promises to begin work at once. The bonds and mortgage with the usual foreclosure provisions are being prepared and will be ready probably within thirty days, when your company is to receive in payment for its interests about $233,000. These bonds should and we believe will be a first-class security, being less than $8,000 per mile on road now completed, and when the State fulfills its engagement, to extend the road to Paint Rock, will be only $4,500 per mile on completed road.

It is hoped that all difficulties in the way of the completion of the Western North Carolina Railroad to the Junction at the State line with your Morristown branch, have thus been removed, and that the work will now go forward to completion, and that your company will at last reap the great benefits to be derived from that long sought and most important connection.

It is proper to state, in this connection, that the Spartanburg and Asheville Railroad is being pushed forward toward Asheville, and will likely reach that place by the time the road is completed to Paint Rock, thus giving to your company the very great benefit of direct railroad connection with the railroad systems of the States of North and South Carolina, which will certainly be of very great value, not alone to your company, but to the people of those States and of Tennessee. Your company is obligated under the contract to extend the Morristown road from its present terminus at Wolf Creek, to Paint Rock, a distance of about four miles, by the time the State of North Carolina extends its end to that place, and we sincerely hope, the day may not be far distant when you will be called upon to do so. Under a provision of your charter the property of the company is exempted from taxation for twenty years from the date of the completion of the road; another provision exempted the capital stock of the company from taxation forever. The time of exemption on the western division of the road has nearly expired and will do so on the eastern in about three years. The second provision exempting the capital stock forever from taxation was claimed by many to embrace the corpus of the road, as the capital stock represented all the property of

the company, both real and personal. Whether such a construction would have been sustained or not by the courts, could not be correctly predicted, and at all events such an assumption on the part of the road would have been resisted by the State, and thus brought the company into a conflict with the State, which your board would have regretted. To avoid this and out of regard to a sense of duty, which the board felt, that all property receiving the protection of the law should bear its part in the burdens of taxation necessary to sustain the law, we accepted as an amendment to your company's charter, the eleventh section of the general law of the State which fixes the rate of taxation for ten years at 1½ per cent per annum on the gross earnings, which is to be in lieu of all other taxation, general, municipal, and local, of every kind and nature whatsoever.

It would have given your board much pleasure to have declared the usual semi-annual dividend of October next, but owing to the reduction of the net income we are not justified in doing so. It is believed to be sound financial policy to pursue a conservative course, and divide only what is actually earned over the demands upon the company for interest, renewals, etc., and guided by this rule, the earnings for the year are only sufficient to pay one dividend of 3 per cent, which was paid on the 1st of April last, and hence the board has passed the October dividend.

As to the causes that have operated to diminish the receipts of the company, it may be proper to remark, that the loss by the unprecedented rains of last spring, which broke the road in many places, and suspended the running of trains for eighteen days, in the midst of the spring business was considerable.

Losses, however, from similar causes are not likely to occur again, as such a rainfall never occurred before, and it is hoped will not do so again.

Another cause is to be found in the very low price at which the business of the country is transported, and also in the diminished value of business passing over the road. The continued reduction in the tariff of rates, and in the volume of business, operated to reduce the mileage earnings of trains run as compared with the previous year; on freight trains about 9 per cent, and on passenger about 5 per cent.

Cheap transportation is a most desirable thing, and when kept within reasonable bounds, no class of interests are more favorably affected by it than the railroad interests. It promotes, in a remarkable degree, the prosperity of the country, and thus increases the magnitude of the commerce and business which passes over the roads, and in this way benefits them. But when the tariff of rates becomes so much reduced as to deprive the roads of all sources of net income, great injury is done not alone to the roads but to the public also. It is a great mistake to suppose that so large and important an interest as the railroad interest of the United States can be destroyed without its being severely felt by all other branches of business. Perhaps no other cause has been so severely felt and contributed so much towards the general stagnation in business which has prevailed during the past two years, as has the great distress and depression that has prevailed among railroads. This is but another proof of the fact of the declarations your board has heretofore made, to the effect that the identity of interests subsisting between the welfare of railroads and of all other branches of business is so closely united as to make it inseparable, except at great loss to all.

Our friendly relations with connecting roads continue undisturbed, and we are glad to be able to report the continuation of the unified management subsisting in the case of your company and the Memphis and Charleston company, which has worked so beneficially to both.

The percentage of expenses to earnings in 1875 was 67.7 against 62.75 in 1874.

During the year 12¾ miles of new fish-bar iron were laid on the eastern division, and 29,115 cross ties put in the track; and on the western division, 7¼ miles of iron, and 36,428 cross-ties—a total of 20 miles of iron and 65,543 cross-ties. About 1,990 tons of rails were purchased and re-rolled during the year, sufficient to lay 21 miles of track The payment for the re-rolling of about 750 tons of this iron has been made since the close of the fiscal year ending June 30, 1875 The superintendent recommends the laying down of 20 miles of new iron during the present year, or as soon as it can be done, so as to keep the track in an improved condition.

In addition to the ordinary running repairs of passenger and freight cars, the company have refitted 4 passenger, 1 mail and baggage, 1 half-seat, and 3 postal cars; rebuilt 42 box and 20 flat and coal cars, and built 3 lever and crank, and 6 dump cars.

The equipment now consists of 40 locomotives, 13 first-class, 10 second-class and 10 half-seated passenger coaches; 3 U. S. postal, 4 mail and baggage, 1 pay, 1 wrecking, 321 box, 23 stock, 63 flat, 121 coal, 80 dump and 16 crank and lever cars.

The number of miles run by locomotives on passenger trains was 305,332; on freight trains, 390,216; on material trains, 48 751; switching, 9,545—total, 753,844.

Earnings of passenger trains per mile run, including receipts from mail and express, $1 25$\frac{6}{7}$ against $1 32$\frac{6}{11}$ in the preceding year. Earning of freight trains per mile run, including receipts from miscellaneous sources, $1 73¼, against $1 90$\frac{9}{10}$ in the preceding year. Pounds of freight carried in 1875, 373,650,768; in 1874, 384,646,186.

CONDENSED BALANCE SHEET, June 30, 1875.

Vice President.—CHARLES M. MCGHEE.

Directors.—R. T. Wilson, Joseph Jaques, S. D. Reynolds, Adrian Iselin, Jos. A. Earnest, R. H. Richards, W. T. Walters, Dr. Wm. R Sevier, Thos. G. Barrett, Wm. C. Kyle, R. C. Jackson, C. M. McGhee, Jos. R. Anderson, John Talbott, M. K. Jesup.

Secretary & Treasurer.—JAMES G. MITCHELL.

Auditor.—O. H. P. ROGAN.

"Saddleback" Elevated Railroad.

On Saturday last the Mayor's private secretary, in the absence of the Mayor, sent to the Park Commission a proposition of General Stone, representing the "saddleback" elevated railroad, with a request that they pass upon the application. The proposition of General Stone, who represents Clarke, Reeves & Co., of Phœnixville, Pa., is to construct, at the expense of the firm he represents, 500 feet of the road on the carriageway in front of the City Hall, from Park row to Broadway. General Stone promises that the firm will erect the road at night, when there will be no interruption to travel, and remove it in the same manner. It is his intention to have the road running for these 500 feet daily, free of charge. Colonel Harrison, Secretary of the Rapid Transit Commission, seems to be in favor of the privilege being granted to Clarke, Reeves & Co., and says there is nothing in the action of the Rapid Transit Commission to prevent the companies empowered to construct roads to build them after this plan.

Erie Southern Railway.

Articles of association of the Erie Southern Railway have been printed and will shortly be circulated in connection with a subscription list. The articles set forth that the company is to construct, maintain and operate a railway from Erie to Cambridge, and the Atlantic and Great Western Railway, twenty six miles distant. The capital stock is to be $260,000, divided into 5200 shares of $50 each, though the capital may be increased by a majority vote of the stockholders. The officers of the organization are as follows: President, Thomas H. Carroll; directors, John R. Cochran, William S. Brown, Orange Noble, Joseph Johnston, Jr., Wm. A. Galbraith, John W. Hammond, John Clemens, William Spencer, J. F. Downing, Asa M. Vorse, of McKean township; Isaac R Taylor, of Washington township, and A. B. Ross, of Cambridge. Five dollars per share are to be paid at the time the subscriptions are made, and not more than five dollars are to be called for in any period of thirty days.

Costa Rica Railway.

A report on the condition and progress of the Costa Rica Railway drawn up by the Director, William Nanne, in May, 1875, and presented to the Minister of Public Works of the Republic, is published in the *Official Gazette*. The report relates to the progress of the railroad, which, since May, 1874, has had devoted to it every effort tending to preserve what had been accomplished, and to carry out the obligations of the enterprise arising out of the contract with Mr. Keith. According to the statistics given, there were at that time, that is to say when it passed into the hands of the Supreme Government, 34½ miles finished over which trains were running, 14½ miles were ready to receive the rails, 24 were being graded, 5 were without any construction going on, and 64 miles were cleared of trees. At present there are on the east side of the line 22½ miles between Limon and Matina open to traffic, and on the west side from Alajuela to Cartago, 27 miles. The 13 miles to the west of Matina, and about 10 miles to the east of Cartago, are leveled and cleared. The existing camps on the line and the plant have naturally suffered from the work being suspended. Towards the Atlantic, on the coast lands, the line, on which a certain amount of traffic is carried on, as well as the bridge of Moin and the swamps, require some repairs, which can be effected without much cost, but which, unless done shortly, will cause a greater expense in the future. In eighteen months there have passed over the road from Alajuela to Cartago 157,757 persons, yielding an income of $126,610 for passengers and $10,433 for freights. In spite of the severe rainy seasons of Costa Rica, and the great number of animals which are continually traversing the road, it is satisfactory to know that as yet no accident has occurred, and is also a proof of the prudent management of the trains. Each locomotive in service has passed over monthly, on an average, a distance of 1,500 miles at a cost of about $500 for keeping up repairs. On the 1st of November, 1873, the time when the Government took charge of the road, there had been received on account of the old contract $5,916,125. Since that date the Government has advanced $962,928, amounting in all, with other incomes, to a total of $1,413,389, all of which have been dedicated to the work according to the statement given in the report. In the month of May last the Costa Rica railroad, for passages, freights, and telegrams, received $10,916, that for the month of April being $9,077. In the month of May, 1874, under the old tariff, 8,154 persons used the line, producing $8,374, while in the same month of 1875 there were 14,555 passengers.

Western Union Telegraph Co.

At the annual meeting of the stockholders of the Western Union Telegraph Company, held in this city on the 13th inst., the following gentlemen were elected directors for the ensuing year: William Orton, James H. Banker, Alonzo B. Cornell, Harrison Durkee, Norvin Green, Joseph Harker, Edwin D. Morgan, Augustus Schell, W. K. Thorn, C. Vanderbilt, Frank Work, Chester W. Chapin, Wilson G. Hunt, David Jones, C. Livingston, James Milliken, John Duff, Levi P. Morton, O. H. Palmer, George M. Pullman, E. S. Sanford, John Steward, Moses Taylor, Daniel Torrance, W. H. Vanderbilt, W. R. Vermilye, E. B. Wesley, D. O. Mills, E. D. Worcester. The report of the company for the fiscal year ending June 30, 1875, was submitted by the President, and is as follows:

The gross receipts for the year from all sources, except proceeds of bonds, were $9,564,574 60; the gross expenses were $6,335,414 77, the difference, $3,229,159 83, being net profit. Compared with the preceding fiscal year there was an increase in the gross receipts of $301,920 62, a decrease in the expenses of $420,319 06, and an increase in the net profit of $722,239 68. There were in operation at the end of the year 72,833 miles of line, 179,294 miles of wire and 6,565 offices. The number of messages transmitted during the year was 17,153,710, being an increase of 824,454 over the preceding year. The capital stock of the Company is $41,073,410, of which the company owns and now has in the Treasury $7,285,935. The difference, $33,787,475, is the amount of the capital stock outstanding, which has been increased $1,800 during the year by the issue of eighteen shares in exchange for the stock of companies leased to the Western Union, and which have small amounts of capital outstanding on which interest is paid as rental. The bonded debt of the company, July 1, 1874, was $5,946,900, of which $1,498,000 is the seven per cent gold building bonds, and $4,448,900 seven per cent currency bonds, which mature November 1, 1875.

To provide for the redemption of the bonds falling due in November, 1875, it was decided in January last to issue sterling bonds bearing six per cent interest in gold, to an amount which would produce about $5,000,000 in currency and arrangements were made for the sale of these bonds at 95, which, it was confidently expected, would result in disposing of the entire loan in Europe. But after purchasing these bonds, amounting to $1,001,160, the parties with whom the arrangements had been made availed themselves of an option in the agreement to cancel it. Subsequently, it was decided to offer the remainder of the issue in seven per cent currency bonds at 95, and the whole amount was subscribed for within a few days.

The entire issue of new bonds will amount to $5,001,160, and the product to $4,751,102 in currency, of which sum $4,448,900 will be applied, so far as it has not been done already, to the redemption of the bonds, amounting to that sum, which mature November 1, next, and the balance, $302,202, will go to income account to restore a portion of the disbursements on that account for the new building in excess of the loan. As the bonds maturing on the 1st of November are now in process of redemption and the subscriptions to the new bonds payable at the option of the subscriber at any time before November 1, it is difficult to state the exact present condition of the bonded debt account; but when the pending transactions are completed the whole bonded debt will stand as follows:

Seven per cent gold (dollars) building bonds, due May 1, 1902		$1,498,000 00
Six per cent sterling bonds, due March 1, 1900		1,001,160 00
Seven per cent currency bonds, due May 1, 1900		4,000,000 00
		$6,499,160 00
Less amount of sinking fund held by the Union Trust Company, trustee		87,800 00
Total funded debt		$6,411,360 00

The net profit of the year $3,229,159 83
has been applied as follows:

For four quarterly dividends of 2 per cent each on capital st'k outstanding (exclusive of that payable July 15, 1875)	$2,702,354 00	
For interest on bonds	424,334 18	
		3,126,688 18
Leaving a surplus for the year of...		$102,471 65

From which an additional appropriation of $30,000 has been made to the Union Trust Company as trustees for account of the Sinking Fund.

The following statements show the profits and disbursements of the company for nine years, from the date of consolidation:

The surplus of income account July 1, 1866, was		$275,357 24
The net profits for nine years, from July 1, 1866, to June 30, 1875, were		26,068,698 79
Making an aggregate June 30, 1875, of		$26,344,056 03
During which period there was disbursed:		
For dividends to stockholders (including dividend payable July 15, 1875)	$8,235,167 34	
For interest on the company's bonds	3,159,831 18	
Total		$11,394,998 52
The balance		$14,949,057 51
is represented as follows:		
Construction of new lines, erection of additional wires, &c		$5,373,143 45
Purchase of telegraph lines and of the stock of companies controlled by the Western Union Company, on which interest or dividends are paid as rental		1,334,185 85
Western Union stock (72,859 shs)		4,054,483 07
Gold and Stock Telegraph Company's stock (47,710 shares)		1,173,509 00
International Ocean Telegraph Company's stock (10,384 shares)		961,556 42
Anglo-American Telegraph Company's stock (£1,808)		10,000 00
Central District and Printing Telegraph Company's stock (200 shs)		10,006 00
Western Electric Manufacturing Company's stock (500 shares)		89,000 00
Western Union bonds (redeemed and canceled)		1,072,345 00

THE INTERNATIONAL OCEAN TELEGRAPH COMPANY.

The capital stock of this company is $1,500,000, represented by 6,500 shares of preferred stock, entitled to dividends at the rate of 15 per cent per annum, and 8,500 shares of common stock. The Western Union Company own $499,900 of the preferred stock, and $248,500 of the common stock. Total, $978,400. The International Ocean Telegraph Company also has the following liabilities outstanding:

Bonds of 1878, issued July 1, 1873, 5 years' interest, 7 per cent gold, due semi-annually	$184,000
Bonds of 1879, issued April 1, 1869, interest, 7 per cent gold, payable November 1 and April 1	73,900
No. 1 scrip dividend to common stockholders, issued May 1, 1869, interest, 7 per cent gold per annum, payable April 1 and October 1, redeemable at 30 days' notice. (Notice issued August 27)	56,000
No. 2 scrip dividend to common stockholders, issued April 13, 1870, interest, 7 per cent currency, payable yearly, October 1; redeemable Oct. 1, 1879	68,000

The operations of the International Ocean Tele-

graph Company for the year ended June 30, 1875, have been as follows:

Receipts		$298,932 83
Ordinary expenses	$81,918 07	
Reconstruction of cables	53,150 43	
		135,068 50
Net profit		$163,864 33

which has been appropriated as follows:

Balance of loan from Western Union Telegraph Co. repaid	$50,000 00	
Interest on debt	27,831 78	
Bonds purchased for sinking fund	9,400 00	
Construction of new lines	4,642 40	
Concession for cable from Cuba and Porto Rico to the Bahama and Bermuda Islands	1,000 00	
Expenditures on steamship Prof. Morse	7,019 76	
Payments on account of new cable between Key West and Punta Rosa	27,921 84	
		127,815 78
Total		$36,048 55

The balance, together with the surplus of the previous year, is on hand in the treasury of the Company.

In the last annual report reference was made to the possible necessity of paying down a new cable between Key West and Punta Rosa. That necessity became so pressing that in March last Mr. Orton proceeded to London mainly for the purpose of contracting for the construction and shipment of a cable.

A satisfactory contract for its manufacture was made with the India Rubber Gutta Percha and Telegraph Works Company of Silvertown, according to specifications prepared by Sir Samuel Canning, under whose supervision the work was carried on, and in June last the completed cable was put on board the International Ocean Telegraph Company's steamer Professor Morse, which had been ordered to London for the purpose of receiving it. The steamer sailed direct for Key West, but during her voyage the yellow fever broke out at that and other gulf ports, and, believing it unsafe to permit the vessel to go to Key West at that time, she was met on her arrival at the outer bar by an agent of the company, with instructions to proceed to Port Royal, where she remained until a few days ago.

The Punta Rosa cable which had been interrupted several times during the summer, gave out entirely a few weeks ago, but while this is being written information has been received that the Morse has successfully laid the new cable, which is working perfectly, and that the telegraphic communication with Key West and Havana has been restored. A fault, however, has been discovered in the cable of 1869 between Key West and Havana.

The number of telegraphic money orders received during the year was 34,853. The amount transferred thereby was $1,963,247 06, and the revenue accruing to the company was $87,219 40, being an increase over the revenue received during the preceding year of $6,889 54, or about eight and a half per cent.

From 1867 to 1875 the extent of line has increased from 46,270 to 72,833 miles, and the wires from 85,290 to 179,294 miles, being an increase of 57 per cent of line and 110 per cent of wire. The number of offices and stations has increased from 2,565 to 6,565, equal to 156 per cent. During the same time the number of messages transmitted has increased 192 per cent, the rate of tolls has decreased 51 per cent and the gross receipts has increased 46 per cent. The average cost per message, during the same time, has been reduced from 67 to 37 cents, or about 45 per cent. The increase of 192 per cent in the number of messages transmitted annually, while the mileage of wire has increased but 110 per cent, is explained by the fact that the number of messages transmitted per mile of wire has been increased 41 per cent.

No general change has been made in message rates during the year. In February last, pursuant to previous public announcement, the rates on the lines of the Atlantic and Pacific Telegraph Company between Boston, Albany and Washington and intermediate stations were reduced to a uniform rate of twenty five cents. A corresponding reduction was made by this company, which took effect the same day. These rates were finally abandoned.

The fact that at the end of nine years, during which time the number of messages has increased 192 per cent, and the average cost per message has been reduced forty five per cent, it now costs this company an average of thirty seven cents per message for more than 17,000,000 messages, must be accepted as conclusive proof that a company possessing small facilities compared with ours cannot realize profit from transmitting messages at the rate of twenty five cents each.

During the year covered by this report the United States Direct Cable Company has continued its efforts to establish telegraphic communication by an independent line between Great Britain and the United States, and although these efforts were not successful until after the close of the fiscal year the completion of the new line had been accomplished before the preparation of this report commenced. In May last the Anglo American Telegraph Company, owning three cables between Valencia, Ireland, and Sidney, N. S., via Newfoundland, and one between Falmouth, England, via Brest, France, and the Island of St. Pierre and Duxbury, Mass., reduced the rate for transatlantic messages from four shillings to two shilling sterling per word. When the United States Direct Company's cable was opened for business in September last the rate was fixed by both companies at one shilling (twenty five cents coin) per word.

During the period of about four months, while the two shilling rate was in force, the number of cable messages increased about thirty five per cent over the number transmitted during the corresponding period of the preceding year. The shilling rate had been in operation less than a month when the new cable failed; thereupon the Anglo American Company restored the four shilling rate, in force prior to the reduction which it had made in May last. As the Western Union Company has been severely censured on account of the advance in cable rates, justice seems to require this statement of the facts. This company has no more power to fix the rate for a cable message to Europe than we have to fix the rate for passage by steamer across the Atlantic.

As the assertion has been frequently published that this company does not control the patents for the quadruplex apparatus, it is proper to state here that the process known by that name was developed by Thomas A. Edison, assisted by George B. Prescott, the electrician of the company, while Edison was fulfilling an agreement made with me to perfect improvements upon the Stearn's duplex apparatus, owned by this company; and that, subsequently, a written contract for the sale of the quadruplex patents, to this company was executed by both inventors, and the sum of $10,000 paid thereon. It is true that in the face of these facts one of the parties deliberately undertook to deprive the company of that which he had sold to it, by giving subsequently a pretended title to another party; but the right of this company to own and control exclusively that which it has purchased in good faith and partly paid for will not, we think, be seriously disputed to the extent of a legal trial. On account of the conflicting claims which have been set up no patents covering the quadruplex apparatus have yet been issued in this country; but it is believed that such issue must take place during the coming season and the control by this company of the quadruplex method be thereby made complete.

☞ The Palo Alto Iron Mills at Pottsville, Pa., idle over a year, have resumed work with over three hundred men at a reduction in wages of twenty five per cent.

Chesapeake and Ohio Railroad.

It has already been announced that Judge Bond, of the United States Circuit Court, sitting in chambers, at Richmond, Va., has appointed Mr. Henry Tyson, of Baltimore, Md., Receiver of the Chesapeake and Ohio Railroad. The following is a copy of the order—the parties being Albert F. Richards et al., the Chesapeake and Ohio Railroad Company, William B. Duncan, P. C. Calhoun and W. K. Kitchen:

Upon the reading and filing of the petition of the complainants herein filed setting forth that judgments have been obtained and are now outstanding, and executions have been issued against the Chesapeake and Ohio Railroad, and that portions of the property have been seized and are about to be sold, and that certain claims of priority to the first mortgage securing complainants' bonds have been instituted and action has been taken and is in danger of being again taken to sell certain portions of the complainants' mortgage estate thereunder, and that the existence of any such claim of prior liens or of any such superior mortgage is not contained in the mortgage for the use of complainants, and in all the papers and proceedings herein, and on motion of Edward L. Andrews, complainants' solicitor—

It is ordered that Henry Tyson, of the city of Baltimore, be appointed receiver of the tolls, income, franchises, and all the property of the Chesapeake and Ohio Railroad Company, with the usual powers. And the said Henry Tyson is directed to enter upon immediate possession of the road, after giving bond for $50,000 for the faithful performance of his duties.

The defendants in the suit, as well as the officers, clerks, agents, lessees, &c., are ordered to surrender immediate possession of the road, its property, assets, &c., to the said Henry Tyson, his agents, &c., and the said receiver is ordered to hold and maintain the road in operation until further orders of the court. The receiver is ordered to file every two weeks a report of receipts and disbursements of the receivership, and of the condition of the property of the road.

It is further ordered that the proceeds arising from the operation of the road shall be deposited in bank, and shall not be drawn upon except for the purposes of the road.

It is likewise ordered that the receiver shall have power, according to the practice of courts of equity, to apply to the court from time to time for such modifications of this order as may be deemed necessary for the more prompt and efficient operations of the railroad.

Immediately after this order was issued Mr. Tyson filed his bond in the sum of $50,000 with James E. Tyson, George Small, Jr., and Washington Booth, of Baltimore, as sureties, and was formally and immediately placed in possession of the road. Gen. Wickham telegraphed to division superintendents, giving notice of the legal condition of affairs. Simultaneously an order to the same effect as that given was issued by Judge Bond at Parkersburg, West Va.

☞ President Wright, of the Northern Pacific Railroad, has made the following appointments: Minnesota and Dakota Division—Charles W. Mead, of St. Paul, General Manager; R. W. Newport, of Brainard, Assistant Treasurer; James B. Power, of Brainard, Agent Land Department. Pacific Division—J. W. Sprague, of Kalama, W. T., General Superintendent and Assistant Land Commissioner.

☞ George H. Watrous, Esq., of New Haven, has been elected a director of the New York, New Haven and Hartford Railroad Company to fill the vacancy caused by the death of Ezra C. Reed.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*), occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, October 23, 1875.

Financial and Commercial Affairs.

Money has been in fairly active request for speculative and mercantile use during the week, with call loans ruling steady within the range of 2@4, and very choice to prime discounts at 5@7 per cent per annum. The demand for aid in most instances has been quite readily met on the basis of current rates, both at bank and through private channels. The movement of currency to the interior has been liberal, as required by the increased volume of produce—Cotton, Breadstuffs, and Provisions—being forwarded to the seaboard. The Cotton trade is particularly animated; and the exports from the shipping ports are also extensive. The City banks have been further losers of reserve. The U. S. Sub Treasury reported a decrease in its currency balance, with a further handsome gain in that of coin. The City Banks reduced their reserve of legal tender notes $3,861,400, and their deposit item $1,457,300, and their specie average $312,200. They report an increase of $2,356,100 in the loans and discounts, and a decrease of $39,600 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $54,273,071 against $55,280,171, the preceding week; and a coin hoard of $40 144,275, against $37,898,420, on the previous return. The City bank exchanges in currency during the week were $415,965,826, or a daily average of $69,327,637. The customs revenue of the port, during the week, was $2,097,000. The City banks reported their average of gold last week at $6,389,200, and their greenback average

at $56,495,400. Their deposits stood at $228,698,800. The loan item was $284,529,700. The circulation was $17,852,400.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of only $5,709,900.

The aggregate of the outstanding U. S. currency, of all denominations, October 1, was $415,274,897. The outstanding amount of legal tender notes is $373,941 124. The National bank circulation is now $346,813,776, including $2,640,000 of national gold bank notes.

The specie shipments from San Francisco, January 1, to October 7th, were $33,846,116, against $22,187,823 same time in 1874.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $6,940,000; special deposit of legal tenders for the redemption of certificates of deposit, $62,660,000; Coin, $69,250,000; Coin certificates $12,780,000.

The week's import entries of Foreign Merchandise at New York, were $6,293,220, and included of dry goods $1,917,028.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 35 millions; and from Customs, 52½ millions.

The Gold speculation has been somewhat stronger and more animated. The customs call has been fair. The export movement has been moderate. The extremes of the price during the week have been 116¼@117⅛, closing on Wednesday at 116½ as against 116, on Wednesday of the preceding week. The specie outflow last week was $608,796 against $453,900 the previous week. The imports of specie at this port since Jan. 1, have been $10,227,296, against $5,161,791 same time last year. The customs demand for Gold last week averaged $349,500 per day. Foreign Exchange has been moderately dealt in at irregular rates, closing weak. Bankers' sixty day bills on London closed on Wednesday at $4 76 @$4 77; sight bills on London at $4 80@$4 82½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,460,834. The week's imports of Dry Goods and general merchandise were to the specie value of $6,293,220, against $6,602,070 same week last year.

Government bonds have been of ready sale at the ruling prices. The demand from investment sources has been good. Some inquiry has also been noted for bonds for shipment. The offerings have been light, in most instances. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation is $368,857,212.

U. S sixes of 1881 closed on Wednesday of this week at 123@123¼; U. S. Five-Twenties of 1864, at 119@119¼; U. S. Five-Twenties of 1865 119¾@120; U. S. Five-Twenties of 1865, consolidated, 119⅛@119¼; U. S. Five-Twenties of 1867, 120⅛@120⅜; U. S. Five-Twenties of 1868, 121⅛@121⅜; U. S. Ten-forties at 117@117¼; U. S. Fives of 1881, (Funding Loan) 117⅜@117⅝; Six per cent. currency Sixes, 123⅞@124⅛.

State and Railway bonds have been moderately sought after, with the more substantial loans quoted steadier toward the close. Some investment purchases of considerable magnitude have been reported. And in the line of Railway and Miscellaneous share property, there has been rather more movement with a generally stronger range of values quoted toward the close.

General business has been quite brisk in the line of the principal kinds of domestic produce, prices of which, however, closed less firmly, under more liberal offering, particularly in the instances of Cotton and Breadstuffs. Foreign merchandise has been moderately sought after, but at variable figures. The Metal trade has been comparatively slow and unsatisfactory. Eglinton Pig Iron quoted here at $29@$30; Glengarnock,$32@$33; Coltness, $33; No. 1 American Pig at $25@$26; No. 2 do. at $23@$24 50; Forge, $20@$22 50; English Rails at $47 50@$50, gold; American Rails, at works, $46@$50; Old Rails, $25@$26. Wrought Scrap, $30@$32 50. Ocean freights have been more active with room on berth and charter for Grain, Cotton and Petroleum quoted steadier toward the close.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Chesapeake and Ohio Railroad.

At Richmond, Va., on the 16th inst., counsel representing $23,000,000 of the securities of the Chesapeake and Ohio Railroad applied to Judge Bond for the removal of Mr. Tyson and the appointment of Gen. Wickham as receiver, Judge Bond delivered an opinion, in which he said if the court were to acquiesce in the petition of the creditors before it, and, construing it to ask for the appointment of a temporary receiver merely, were to appoint Mr. Wickham, as they do not represent all the mortgage creditors nor a majority of them, there is no certainty that other creditors for a large amount might not to-morrow ask for the few remaining days that some person of their choice might hold the position of temporary receiver. In the meantime the court had no hesitation in saying to the petitioners that Mr. Wickham was not at all objectionable to the court, but on the contrary is, so far as the court could judge, both from the present proceedings and from personal acquaintance, a very proper person to be put in charge of the road, and that if the case stands at the hearing on the 22d as it is presented to the court now, it will give the court pleasure to comply with the request of the creditors for his appointment as receiver.

Great Feat in Steel Rail Making.

The Milwaukee *Wisconsin* says that the remarkable feat of making 1,010 steel rails in 24 hours was recently accomplished in the steel rail mill of the North Chicago Rolling Mill Company, and then adds:

Rolling began on the afternoon of Friday, the 8th inst., at 3:35, and at 4:07 Saturday morning being ten hours and thirty two minutes, 504 rails had been rolled. The day turn began at 5:07 Saturday morning, and finished its work of 506 rails at 3.23 Saturday afternoon, being ten hours and six minutes. From this time is to be deducted thirty four minutes during which the engine and rolls were stopped for oiling, leaving twenty hours and four minutes for the rolling of 1,010 rails, being an average of one minute and twelve seconds on each rail. The rails rolled weighed sixty pounds to the yard, standard length thirty feet, and were for the Chicago, Rock Island and Pacific Railroad. The total weight of product being 268 1900 2240 tons. The percentage of second class rails was one half of one per cent. The work was done by eight furnaces and twenty inch train of fifteen pass rolls, and is the best work ever made "west of the Allegheny," or anywhere else. The Bessemer works of the company have also achieved some remarkable results. From 5:56 A. M. on Friday, the 8th, to 5:11 A. M. on Saturday, the 9th, sixty two heats of steel were blown yielding 324 gross tons of ingott. For the week ending Saturday, the 9th, these works made 253 heats, the product being 1,317 gross tons of steel ingots.

☞ The Baltimore and Ohio Railroad company have declared a dividend of five per cent on the capital stock of the main line, payable November 1. No dividend was declared on the stock of the Washington Branch.

☞ The workmen in the locomotive department of the Mason Machine Works at Taunton, Mass., recently discharged, have been recalled, orders having been received to fill which was required a full force throughout the works.

Notice to Contractors.

THE COMPLETION OF THE FOURTH AVENUE Improvement gives us a large and valuable surplus of Stock, Machinery and Tools, which we propose to sell in the next twenty days at Panic Prices.

THE LIST INCLUDES:

Sixty Large Work Horses,
Sixty Broad Tire Dirt Carts,
Sixty Setts Cart Harness,
Twenty Setts Double Work Harness,
Fifteen Stone & Earth Wagons,
One City Furniture Truck,
One Hundred Side Dump Dirt Cars of three feet two inches gauge,
Five Burleigh Rock Drills,
Six full setts Blacksmith Tools,
Steam Boilers from six to sixteen Horse Power,
One Number Four Centrifugal Pump and Engine,
One Ryder Engine, eight Horse Power,
One Deck Hoisting Engine, with two seven and a half inch Cylinders,
One Number Four Clayton's Air Compresser,
Twenty Derricks full rigged with either Hand, Horse or Steam Power,
Two Tons, four and a half inch, by a half inch, Railroad Spikes,
And a large variety of miscellaneous smaller tools, common to Railroad Work.

DILLON, CLYDE & CO.,
68 East 49th Street, New York.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Hatch & Foote,

BANKERS,

No. 12 Wall Street, N. Y.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE. INTEREST ALLOWED ON DEPOSITS.

INVENTORS. If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C. ☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

West Wisconsin Railway.

THE COMMITTEE APPOINTED AT THE GENeral meeting of the first mortgage seven per cent land grant bondholders, held at Cannon Street Hotel, London, on the 15th of September, give notice that a circular by the committee, explanatory of the position of the company's affairs and the course the committee recommend, may be obtained on application at the offices of Messrs. Naylor, Benzon & Co., No. 34 Old Broad street, London, E. C., or Messrs. Naylor & Co., 99 and 101 John street, New York, or it will be sent by post to such bondholders as furnish them with their addresses. By order of the committee.

J. F. TAFE.

Offices of Messrs. Naylor, Benzon & Co., 34 Old Broad street, London, E. C.; Messrs. Naylor & Co., 99 and 101 John street, New York.

PHILADELPHIA AND READING RAILROAD COMPANY,
OFFICE No. 227 SOUTH 4TH ST.,
PHILADELPHIA, Sept. 29, 1875.

DIVIDEND NOTICE.

THE TRANSFER BOOKS OF THIS COMPANY will be closed on TUESDAY, Oct. 5, and reopened on MONDAY, Oct. 18, 1875. A quarterly dividend of Two and a Half Per Cent. has been declared on the preferred and common stock, clear of all taxes, payable in cash on and after the 29th of October next to the holders thereof as they shall stand registered on the books of the company at the close of business on the 5th of October.

All dividends payable at this office, where blank powers of attorney can be obtained.

Stockholders from A to L will collect at Desk No. 1, and those from M to Z at Desk No. 2.

S. BRADFORD, Treasurer.

☞ The Fitchburg Railroad Company has determined that the present line through Ashburnham is not favorable for doing a first class through business, and has decided to adopt the route which swings off from the present track about a mile and a half below Ashburnham Junction, and enters Gardner by an easy curve, thus making a direct line and avoiding the reverse.

☞ The great railway in Egypt, from Cairo to Khartoum, is progressing rapidly, and it is proposed to extend it westward to Darfur. Plans have been prepared for a line from Khartoum to the frontier of Abyssinia.

☞ The law known as the Plimsoll act, which was passed in the last session of the English Parliament, went into effect on the 1st of this month. It will be interesting to shippers of produce to Europe to know that this law provides that no cargo, of which more than one third consists of any kind of grain, corn, rice, paddy, pulse, seeds, nuts or nut kernels, shall be carried on board any British ship unless it is contained in bags, sacks or barrels, or secured from shifting by boards, bulkheads or otherwise. Captains who permit the violation of the law in this regard are liable to a fine of £200.

Erie Railway.

Mr. Hugh J. Jewett, the Receiver of the Erie Railway Company, filed on the 18th inst., in the County Clerk's office, a report of the receipts and expenditures of the road for the months of July and August last. The following are the totals:

Receipts	$4,942,516 11
Disbursements	4,508,023 28
Balance	$434,492 83

The following are the principal items in the statement:

DEBITS.

H. J. Jewett, Receiver	$373,592 43
Traffic balances, passengers, (old account)	171,104 99
Car key account	35 00
Gas light	4,223 07
General office expenses	2,317 23

Sale of securities	1,546 07
Transportation receipts, telegraph (old account)	2,934 90
Transportation receipts	2,926 03
Total	$7,181,760 96

The Coal Trade.

The total tonnage for the week ending on the 9th inst., as reported by the Miners' Journal, is 586,663 tons, being an increase of 15,689 on the tonnage of the previous week. The anthracite tonnage for the year to the 9th instant is 15,204,415 tons, against 15,499,728 tons to corresponding date last year, a decrease of 295,313 tons. The bituminous tonnage for the week was 90,826 tons, and for the year 3,023,892 tons, making a total of all kinds for the week of 677,489 tons, and for the year 18,228,307 tons, against 18,333,517 to corresponding date last year, a decrease of 105,210 tons. At Port Richmond for the week ending the 16th instant there were receipts of 70,000 tons of coal, shipments of 75,000 tons, leaving 175,000 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the last two days of September was 58,430 tons, and for the year 3,201,806 tons, of which 2,608,541 was coal, and 508,073 coke. This embraces all the coal carried both east and west. At Perth Amboy for the week ending on the 9th of October, the receipts of coal were 19,965 tons, making the total receipts to date 202,810 tons; the shipments for the week were 15,936 tons, and for the year 180,341 tons, leaving on hand 25,158 tons.

☞ Charles A. Allen of Worcester has been appointed by the Directors of the Norwich and Worcester Railroad to take charge of the erection of a new iron bridge, 250 feet long, for them in Norwich; also to superintend the construction of a tunnel for the road just across the river in the same city.

☞ The Los Angeles and Independence Railroad was to have been opened, though not formally, to the public about the 17th instant; that is, the section between Los Angeles and the seaport of Santa Monica.

☞ The Allentown Rolling Mills, at Allentown, Pa., resumed operations on the 11th inst., the Company's proposition for a reduction of wages having been accepted by the hands. The works have been idle for some time.

☞ The surveying party on the proposed new railroad from Lewiston to Augusta, Maine, have reached a point nine miles out of Lewiston and are working toward Augusta. The route is found to be an easy one over which to build.

THE

UPHOLSTERERS'

ELASTIC SPONGE

COMPANY,

No. 42 LAWRENCE STREET,
NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.

Rockford, Rock Island and St. Louis R. R.

A special from Davenport gives the particulars of a conference between H. Osterberg, who recently bought the Rockford, Rock Island and St. Louis Railroad for the German bondholders, and prominent capitalists of the Davenport, Rock Island and Missouri line, in regard to the formation of a local company to run the road. Articles of incorporation have been drawn up and over 1,000 shares taken. It is expected that the full amount of the stock of $1,000,000 will be taken there. The company will be formed with a capital of $3,000 000, ten per cent payable at once. This amount to go toward paying the bondholders for purchasing the road at the foreclosure sale; five per cent more to be paid on the first day of each of the months of March, July and November, 1876, and thereafter five per cent semi-annually until May 1, 1884.

Boston and New York Air Line Railroad.

Five hundred $1 000 first mortgage bonds of the Boston and New York Air Line Railroad Company have been added to the Stock Exchange list. The bonds were issued August 1, 1875, in accordance with a resolution of the stockholders, passed July 23, 1875, at a special meeting called for that purpose. They bear interest at the rate of seven per cent, payable Aug. 1 and Feb. 1, and the principal Aug. 1, 1895, in New York, coupons, and numbered from 1 to 500 inclusive. Under the mortgage, the company may redeem the bonds at any time by giving six months' notice and paying a premium of five per cent. The bonds will be known as Boston and New York Air Line first mortgage bonds. The company is the outcome of a reorganization of the New Haven, Middletown and Willimantic Railroad Company, and the length of the road is fifty-two miles. The other securities of the company are $3,000,000 preferred and $1,000 000 common stock.

☞ Messrs. James Hogan & Co., of Ashland, Mass., have entered into a contract with the directors of the Western or Vermont division of the Portland and Ogdensburg Railroad for the completion of the road from Johnson, Vt., to Lake Champlain, a distance of over 40 miles. Work under this contract will be commenced immediately, and the road ready for the rolling stock by the 1st of July, 1876.

☞ The stockholders of the Cumberland and Pennsylvania Railroad have elected the following directors: Allan Campbell, William Whitewright, William H. Neilson, Adam Norrie and Lloyd Aspinwall.

HUDSON RIVER

CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

M. Brigham, KINGSTON, N. Y. **J. H. Butts, Ag't,** 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER

CEMENT COMPANY,

MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.

W. G. JAMES, Treasurer.

The foreign imports at New York for the month of September, 1875, are officially stated as follows:

	1874.	1875.
Entered for consumpt'n.	$16,461,723	$11,962 598
Do. for warehousing	6,537,649	5,251,758
Free goods	7,343,719	6,059,501
Specie and bullion	1,027,992	1,286,182
Total entered at port...	$31,371,083	$24,510,040
Withdrawn fr. wareh'use	10,969,413	10,347,320

The foreign imports at New York for nine months from January 1, were:

	1874.	1875.
Entered for consumpt'n	$138,116,499	$118,511,584
Do. for warehousing...	89,983,542	77,048,936
Free goods	83,056,936	69,897,922
Specie and bullion.....	5,037,889	9,957,618
Total entered at port..	$316,194,866	$275,416,060
Withdrawn fr. wareh'se.	84,840,254	77,078,890

The following is a classification of imports for nine months ending September 30:

	1874.	1875.
Dry goods..	$89,492,332	$85,349,404
General merchandise..	221,664,645	180,109,038
Specie	5,037,889	9,957,618
Total	$316,194,866	$275,416,060

The duties received at New York for nine months ending September 30, were:

	1874.	1875.
January.....	$10,042,084 05	$8 072,846 12
February.....	10,186,365 68	11,811,046 95
March	10 793,792 81	10,323,619 78
April	9,596,770 71	9,603,087 82
May	8,369,597 45	7 474,171 61
June.....	7,899,243 17	6,656,462 06
July	9,654,569 49	9 273,546 61
August	11 802,693 20	11,417,505 51
September	11,400,273 11	10,163,829 28
Total....	$89,745,289 07	$84,796,115 74

The exports from New York to foreign ports in the month of September, were:

	1874.	1875.
Domestic produce	$21,203,301	$18,974,565
Foreign free goods.....	123,540	43,502
Do. dutiable.....	363,873	445,027
Specie and bullion.....	2,222,533	1,295,904
Total exports.....	$23,913,247	$20,758,998
Do. exclusive of specie.	21,690,714	19,463,094

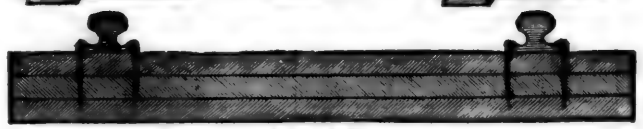
The exports from New York to foreign ports for nine months from January 1, were:

	1874.	1875.
Domestic produce.....	$209,263,000	$179,560,771
Foreign free goods.....	1,622,654	1,545,298
Do. dutiable	5,275,906	4,575,411
Specie and bullion.....	42,661,234	61,586,204
Total exports	$258,822 794	$247,267,684
Do. exclusive of specie.	216,161,560	185,681,480

☞ The contract between the Dominion government and Mr. McGrevy, for building the North Shore Railway, provides that the contractor receives $27,000 cash per mile. The former company is dissolved. Steel rails are to be laid, and the road to be in running order in two years. It is stipulated that $200,000 will be paid at once for work.

RAILROAD IRON.

THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails,** and of any required weight and pattern.



PERKINS, LIVINGSTON, POST & Co.,
59 Liberty Street,
NEW YORK.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

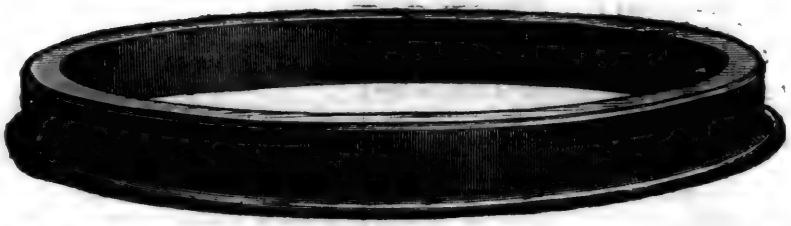
Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.



Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, October 30, 1875.

Pacific Railroad of Missouri.

At a meeting of the stockholders of the Pacific Railroad Company (of Missouri), held at the office of the Atlantic and Pacific Railroad Company on the 26th inst., the report of the committee appointed at a previous meeting to report upon the affairs of the company, was presented, from which we learn that the total earnings of the road from June 29, 1872, (the date of its lease to the Atlantic and Pacific Railroad Company,) to September 30, 1875, have been $11,454,141 96, the operating expenses $7,854,866 21, and the net earnings $4,099,275 75. During the same time the disbursements for interest on funded debt, rentals and dividends, (not including a quarterly dividend last declared) have been $4,573,987 88, showing a deficit of $474,712 16 on the obligations contemplated by its lease, besides some $200,000 taxes due and not provided for. The committee add:

Upon an examination of the books your committee find that the following amounts are required on or before February 1, 1876, to meet obligations as they mature to that date on funded debt, rentals and supply bills, without allowing anything for principal of floating debt or the interest which would be required to extend the same or to provide for the coupons upon the hypothecated third mortgage bonds in the hands of the floating debt creditors:—

November 1, 4 per cent on $800,000 real estate mortgage bonds	$32,000
November 1, 3½ per cent on $2,146,000 third mortgage, which includes incomes	75,110
December 1, 5 per cent on $500,000 equipment bonds	25,000
December 1, 8 per cent, gold, on $900,000 Lexington and St. Louis bonds	27,000
January 1, 3½ per cent on $2,741,000 Missouri Pacific second mortgage	95,935
February 1, 8 per cent, gold, on $7,000,000 first mortgage Missouri Pacific bonds	210,000
Premium on gold at 15 per cent	35 550
Interest due St. Louis county	32,000
Maturing supply bills	180,000
Rentals, sub-leases, &c	40,000
Taxes due and unpaid	200,000
Total	$952,595

Mr. Pierce, the President, estimates the net earnings on the Missouri Pacific division and branches applicable to the above (to and including February 1, 1876,) to be $350,000, which leaves a deficiency to be provided for from future earnings of $602,595, and this without any provision for floating debt creditors, principal or interest. The floating debt creditors are not peremptory in their demands at the present time, yet they intimate very strongly that some action is expected at an early day, and your committee cannot urge too strongly upon the stockholders the necessity of immediate action, as the floating debt is past due, or fast maturing, and the collaterals thereto are liable to be sacrificed, if there is delay. The depreciation of their shares at the Exchange has utterly destroyed their credit, and, with their large floating debt, the directors have been compelled to use all their net resources for maturing bond interest and rentals. In conclusion, we would suggest that if the stockholders would come forward and take the $1,854'000 third mortgage bonds at 75 per cent, then the floating debt could be retired, and by the stockholders foregoing their rental for a few years we have no doubt that with proper management, the future growth of business on the road will in time make their stock of value; otherwise, the third mortgage bondholders (the most of whom are floating debt creditors) may ask for their rights, and in that case take the property. In any event we would recommend that, if the leases of the several branches, except ing perhaps the Carondelet, cannot be cancelled, that they be so modified as not to prove a loss to the company in operating them.

Ohio and Mississippi Railroad.

At the annual meeting of this company held in Cincinnati on the 14th inst. the following gentlemen were elected directors to fill the vacancies caused by the resignations of J. D. Prince and F. Schuchardt, and the death of S. U. F. Odell, and in place of the Directors retiring by rotation: D. Torrance, J. Pierpont Morgan, Robert Garrett, Frank W. Tracey, Theodore G. Meier and Charles L. Beecher. A. N. Chrystie resigned his office of Vice President and General Superintendent, and E. H. Waldron, of Lafayette, Ind., was appointed General Superintendent. The Finance Committee in New York consists of D. Torrance, John King, Jr., J. Pierpont Morgan, Sir A. T. Galt and Robert Garrett. The purchase of the Springfield and Illinois Southeastern Railroad was unanimously ratified. The annual report of the president was read, from which the following items are extracted:

We have obtained in net earnings $863,510 48, out of which the interest on the whole mortgage and bonded debt of the company has been paid, viz: $770,273 29, as well as the purchases and redemption of bonds for the several sinking funds, amounting to $75,198 75, and leaving a surplus of $18,038 44.

The net earnings of the half year ended December 31, 1874, were $604,483 45, or considerable more than the total expenses and charges incidental to those six months, including coupon interest and preferred stock dividend. Consequently we anticipated the payment of the preferred stock scrip dividend of December 1, 1873, due March 1, 1875, $139,589, and in the remaining six months would yield the usual average result. We paid a further dividend on the preferred stock, March 1, 1875, $140,854.

The president deplores the railroad competition, for which, he claims, no responsibility can attach to them, and states that it, together with the severe winter, frustrated the expectations of the company, and augmented current liabilities and decreased floating assets $196,717 92. The total length of the road, including branches, is 700 miles, and the total assets—railroad and branches, including equipment, real estate, depot building, machine shops, cash and accounts receivable—$35,224,029 51; the two later amounting to $418,-

778 59. The gross earnings of the whole line from Cincinnati to St. Louis for 1873-4 are $8,478,074 10: for 1874-5 $3,527,774 10.

Western Maryland Railroad.

The annual meeting of the stockholders of this company was held in Baltimore on the 20th inst. J. Henry Hoppe, of Carroll county, was appointed chairman, and John S. Harden secretary. The report of the president and directors was read and adopted, and reports of the treasurer, auditor and master mechanic were presented and ordered to be printed.

Five directors on the part of the stockholders were unanimously re-elected for the ensuing year, as follows: John K. Longwell, of Carroll county; Joshua Biggs, of Frederick county; John Welty, George W. Harris and Isaac Motter, of Washington county. The re-elected directors on the part of the city of Baltimore are as follows: Alexander Rieman, E. G. Hipsley, Daniel J. Foley, John A. Griffith, S. H. Adams, Wm. A. Boyd, Jr., Wm. Seemuller and George M. Bokee.

The report of the president and general manager, J. M. Hood, and directors shows that the gross earnings for the year ending September 30, 1875, were as follows: from passengers, $139,864 85; freight and express, $130,510 81; milk and marketing, $16,208 95; mails, $6,167 90; miscellaneous sources, $965 53—total, $293,718 04.

The total expenses were $194,420, leaving the net earnings $99,298 04, which, compared with 1874, is an increase of earnings of $15,925, while the expenses decreased $22. As compared with 1873 there is an increase in revenue of $75,333 76, and a decrease in expenses of $8,053 29, making a net increase of $83,387 05.

In August, 1874, the company moved 59,994 passengers, with its terminus at Fulton, while in August, 1875, the number was only 54,378, notwithstanding the company had three other points in the city for receiving passengers; while in September, 1875, with the improved facilities and favorable weather there was an increase in revenue over September, 1874, of $7,112 20, and an increase of 14,385 passengers.

During the year 309,245 passengers were moved, and 106,798 tons of freight, making an increase over 1874, of 53,853 passengers and 15,968 tons of freight.

For necessary improvements, the expenditures, besides ordinary operating expenses, were $64,866, including new main track and sidings, new depots, platforms, turn-tables, water tanks, cattle chutes, coal bins, ballasting old road, corporation work at Hagerstown, the construction of new coal cars, and the application of the Loughridge air-brake to four engines and twenty-seven passenger and baggage cars, at a cost of $3,250.

Operating the road has cost 66 per cent of the gross revenue; and this on a line with a light traffic, and one-half of its length covered by grades ranging from 75 to 100 feet per mile is considered a very favorable result.

The report embodies statements and details in regard to arrangements made for tunnel and other "trackage" and depot accommodations with the Northern Central and Baltimore and Potomac Companies; also in regard to the new depot site, bounded by Hillen, Exeter, High and Front streets, and the triangular block bounded by Bureu and Falls streets and Liberty alley, for turn table and engine house purposes.

In regard to the city aid in these central depot facilities the president remarks:

The plan of applying to the city for aid, though not remarkable with the company for novelty, nor the last to suggest itself, was acted upon and the ordinance was passed by the city council authorizing the commissioners of finance to purchase and improve the property and lease it to the railroad company, thereby not only making a first-class investment of surplus funds, but such a one as will materially strengthen the city's security for larger sums already expended in the construction of the road.

Messrs. S. H. & J. F. Adams, contractors, are progressing so rapidly with the depot building as to leave little doubt of its completion by the stipulated time, February 1st, 1876.

The Emmittsburg Railroad from Rocky Ridge station to Emmittsburg, seven miles, will be open for business within the next thirty days. The light rails of the Western Maryland road, between Hagerstown and Williamsport, were sold to the Emmittsburg road. New heavy rails were laid between Westminster and Owings' Mills, where the work is heaviest, and the half-worn rails taken up there were placed between Williamsport and Hagerstown. When completed the Emmittsburg road will be operated by the Western Maryland Company.

The report advocates a branch road to the town of Waynesboro', Pa., which is six miles north of the proposed junction at the west foot of the Blue Ridge. This, it is stated, is now recognized by enterprising citizens of Waynesboro' as a business necessity, and there can be no doubt that with a little of their well-known energy turned to the accomplishment of this purpose they will soon be on the high road to prosperity, under the influence of first-class faculties, without which their manufacturing and agricultural interests have long labored under serious disadvantages.

The report advocates more extended hotel and boarding-house accommodation for summer travel on the line, and says: "Increased hotel accommodations at Westminster and on the Blue Ridge, at the summit, or at Waynesboro', will no doubt come at an early day and contribute greatly to the business of the road. There is no apparent reason why in the near future Westminster should not occupy as important relations to Baltimore as Westchester does to Philadelphia." One or more first-class hotels on the Blue Ridge summit, sixty-six miles from Baltimore, it is thought, would be greatly advantageous to the road.

Satisfaction is expressed with the plan adopted to meet the wants of traffic in hiring coaches from the United States Rolling Stock Company. The coal trade from the canal at Williamsport is increasing so rapidly that steps are urged for securing the immediate use of coal cars from some company to accommodate the trade. In conclusion the report says:

Instead of making a spasmodic or premature attempt at paying interest, with the certainty of being compelled to stop, after one or two efforts, with the road in a worn out and crippled condition, it has been the policy of the company to place it in a safe and satisfactory condition, with every reasonable auxiliary that was calculated to attract business and tend to the prosperity of the section it was serving, believing that the payment of interest, then judiciously begun, could be proceeded with uninterruptedly.

While we would not recommend to the city of Baltimore a further outlay of capital on the road, yet the material interests and prosperity of the city are so intimately allied with and dependent upon the vast mineral and other fruitful regions, that could be served with much economy of time and expense by the extended Western Maryland Railroad, we think every citizen should fully understand and appreciate the important bearings of an auxiliary so necessary to the full enjoyment by the city of its great geographical advantages. It is therefore hoped, that by a willingness on the part of the city to dispose of its interest on favorable terms, some of the numerous inquiring capitalists may be induced to take the matter up, with a satisfactory guarantee of an early prosecution and completion of the road to Johnstown, some of the advantages of which are set forth in a communication published with this report.

The equipment of the road consists of 12 locomotives, 13 passenger, 5 excursion, 5 baggage and mail, 8 express, 74 box, 10 stock, 74 gondolas, 1 coal, 8 stone hoppers, 1 wreck, 11 ballast, 21 hand, 25 truck and 10 construction cars.

The report of the treasurer, John S. Harden, shows the receipts of the company from passengers, freight, mail, etc., to be $288,337 45. The expenses of trains, repairs of road, engines, cars, bridges, salaries, office rent, insurance, etc., is $171,245 39; interest on accounts and on funded coupons, $13,287 48—leaving $103,804 58, of which amount $80,202 94 has been expended on new track and equipment, in fitting up Greenwood Excursion Park, and in the payment of old unsettled judgments and accounts.

In the month of October last a committee was appointed by the board of directors to investigate all old claims against the company, and upon their recommendations nearly all have been settled, amounting to over $25,000, the principal ones having been standing for years. The funded coupon debt to date is $171,131. The sinking fund of this company, held by the finance commissioners of the city, is now $149,165 59.

Vermont and Canada Railroad.

At the annual meeting of the stockholders of this company, held at Bellows Falls, Vt., on the 21st inst., the President, James R. Nichols, Esq., presented the following report:

In presenting a brief report of the events of the past year, as connected with your property, it is not deemed necessary to extend the retrospect beyond the meeting of the company at Bellows Falls, April 16, when action was taken upon the matter of the sale of the road to the Central Vermont, and when you were fully informed of the condition of your affairs.

At that meeting, and for several weeks prior, evidence was afforded that a difference of views prevailed in your Board of Directors. There was not unanimity respecting the transfer of the road by sale to the Vermont Central; some of the conditions being strenuously opposed by a minority of the Board.

You decided, however, by a vote of nearly two to one in favor of the sale upon the terms and conditions as recommended, and your President was empowered to execute the papers as soon as practicable. Six months have elapsed since this action was taken, and the paper remains unexecuted. Why this delay? In the answer to this inquiry is contained about all that is important to present in this report.

The hindrances to the fulfillment of your wishes were present at the meeting where they were made known. On the instant that it adjourned service was made upon your President and Directors requiring them to appear before the Supreme Court

of Vermont to show cause why they should not be enjoined from executing a portion of the papers. Motion was made before Judge Barrett at Woodstock on May, 12, F. A. Brooks, Esq., one of your Directors, appearing and arguing the case in behalf of the petitioners, and Hon. C. W. Willard of Montpelier, counsel for your road, appeared to oppose the injunction. Judge Barrett, after the hearing at the close of a very able review of the case, refused the injunction, thus furnishing a gratifying instance of a decision apparently favorable to your interests in the courts of Vermont.

This temporary injunction was sought on the petition of parties opposed to the sale of your road, and the contest was one waged by this minority against the majority of the stockholders. Although the proceeding was not abandoned, we were advised that the refusal to grant the temporary injunction left your President at liberty to carry out the wishes of the majority, but other obstacles almost immediately arose which have not been removed.

Another bill seeking an injunction was filed in Chancellor Royce's Court at St. Albans by Messrs. Codman and Johnson of Boston, attorneys for certain parties holding bonds alleged to be guaranteed by the Vermont and Canada Road. The injunction, which was granted and is still in force, restrains us from distributing any bonds we might receive from the Central Vermont in carrying out the sale. It has not been deemed necessary as yet to have a formal hearing on this bill.

Still other complications and difficulties have arisen which in themselves were sufficient to postpone or entirely defeat the sale of your property. The annual meeting of the Central Vermont Company was held at St. Albans on the 19th of May last. At that meeting a stormy scene occurred, occasioned by the attempt of John B. Page, Esq., President of the Rutland Road, and others, to obtain control of the Vermont Central. By a skillful manœuvre on the part of Gov. Smith, which it is unnecessary here to detail, he succeeded in holding control of the meeting, and the list of directors headed by him was declared elected by the inspectors.

The legality of this election Gov. Page and his supporters deny, and claim that the holding of the Central Vermont, by Gov. Smith, is a usupation and a fraud. It is unnecessary to express opinions as to the rights, or the legality of the actions of either of the parties to this new contest. It concerns us only so far as it affects the interest of the Vermont and Canada Road. It is clear that it would be unwise to enter into important business contracts with either of the contending parties so long as it is uncertain which is competent to sign papers possessing legal force.

The questions at issue between the contestants have been taken to the courts for final adjudication, and when a decision will be reached it is hazardous to predict.

The scheme of consolidation of the Rutland and Central with your road, which was contemplated when the negotiations for its sale were completed, has apparently failed.

The Rutland road has commenced legal proceedings for the cancellation of their lease and the restoration of their road, on the ground of failure to receive their rent. It has been expected that some conclusion as to their rights would have been reached before this meeting, but various delays have occurred, and the preliminary hearing stands adjourned to Nov. 16th. It is very desirable that the Rutland lease should be terminated, as the enormous sums paid by the Vermont Central for rent have been mostly lost to the receivers, and have diverted money to useless purposes which ought to have been applied to paying the rent of the Vermont and Canada.

In the present unexpected and extraordinary complication of affairs in which your road is indirectly or directly involved it is impossible to form any definite plan of action to be submitted to you. Your Directors have carefully watched the progress of the many law suits and personal conflicts which have arisen, and which have so effectually interfered with the consummation of plans which promised a restoration of your road, and they have taken such actions to protect your property as eminent legal counsel could suggest. While unable to foresee with any satisfactory approach to certainty what events or complications may take place out of the multiplicity of legal contests the clashing of individual and corporate interests now going on in Vermont, the expectation is entertained that you will ultimately obtain possession of your property, and that dividends will be resumed through some channel. We have been, and doubtless future directors will be, forced to rely largely on legal advice, and the stockholders are to be congratulated on the fact that they have the assistance in all such matters of the Hon. C. W. Willard, an able, learned and independent lawyer, who has the full confidence of the board.

An election for directors resulted in the choice of the following gentlemen by a nearly two thirds vote: Edward Bangs, Bradley Barlow, John Curtis, J. N. A. Griswold, W. Mixter, J. R. Nichols, Samuel Willis.

New Jersey Midland Railroad.

An adjourned meeting of the first mortgage bondholders of this road was held at No. 87 Liberty Street, on the 21st inst. Mr. D. B. Halstead presided. The Chairman stated that the object of the meeting was to consider the various plans for the reorganization of the company.

Mr. McDowell offered a very elaborate plan, which was placed on file with the others.

Mr. A. J. Taylor moved that the trustees of the road be urged to press the proceedings for the foreclosure of the first mortgage. Adopted. It was also resolved to present to the trustees a written request, asking them to go on with the foreclosure proceedings, regardless of any plan.

Mr. J. Wyman Jones moved that thirty days' notice be given to the other bondolders before the adoption of any definite plan.

The result was that the plan proposed by Mr Joseph N. Balestier was adopted with certain amendments, agreed upon by the meeting. The following is a brief outline of the amended plan as finally adopted:

1. After foreclosure the new company shall contract a first mortgage debt of $500,000 for putting the road in complete running order and for paying its prior liens, and the same may be increased to not exceeding $1,000,000 for improving its terminal facilities. No bond to be sold below ninety five per cent, and the directors may provide for their payment by a new bond.

2. Now seven per cent bonds, running for thirty years, payable in gold, shall be issued to the first mortgage bondholders. They shall bear date February 1, 1876, and the first six coupons shall be exchanged for stock.

3. The past due coupons, with interest, and those six coupons with the gold premium on February 1, 1876, shall be exchanged for the capital stock.

4. Income bonds shall be issued to the holders of the second mortgage bonds for the amount of their bonds and unpaid coupons. Whenever the net earnings shall exceed the interest upon the two classes of bonds and seven per cent upon the capital stock the income bonds shall be entitled to a dividend not exceeding seven per cent per annum. Such scrip may be redeemable at par in instalments of not less than ten per cent.

5. Scrip No. 1 is to be issued for the liquidated principal of the third mortgage bonds and for the common debts of the company. Whenever the net earnings exceed the interest upon both classes of bonds, and seven per cent upon the capital stock and income bonds, scrip No. 1 shall be subject to the same regulations and advantages as income bonds.

6. Scrip No. 2 shall be issued to the capital stockholders at forty per cent in exchange for their stock certificates. Whenever the net earnings exceed the interest upon the two classes of bonds, and seven per cent upon the capital stock and upon income bonds and scrip No. 1, then scrip No. 2 shall be entitled to the same advantages.

7. All first mortgage bondholders shall deposit their bonds with the Central Trust Company before December 1, with one fourth of one per cent of their value in cash for defraying the costs of foreclosure. The holders of the second mortgage bonds who desire to avail themselves of this plan shall pursue the same course.

The plan was adopted by a large majority, and the Chairman, Mr. D. B. Halstead, was empowered to appoint the permanent committee, of which he shall be one.

Attleboro' and Providence Railroad.

A correspondent of the Providence Journal, writing from Attleboro,' Mass., thus describes a new railroad enterprise in that State:

Surveys have been made and a map drawn for the route of the projected new railroad between Attleboro' and Providence designed to strike the Providence and Worcester road at a point north of Pawtucket. This line requires but fifteen and one half miles of new road to connect the termination of the Boston, Clinton and Fitchburg at Attleboro' with Providence. The route is nearly an air line, passing through South Attleboro' with scarcely a curve, and no grades of more than forty feet to the mile. The projected line lies wholly within Massachusetts, and the engineer estimates its cost not to exceed $25,000 a mile exclusive of equipment.

The feasibility of the undertaking lies in the fact that it reduces the distance between Attleboro' and Providence by one mile, offering connection to the Boston, Clinton and Fitchburg and to the New Bedford roads with Providence, over a shorter route, affording to Attleboro' increased advantages and the promise of additional growth. The new line is projected primarily for the benefit of Attleboro,' while its success will be enhanced by the through connections. Gentlemen of capital and enterprise are engaged in the undertaking and have completed preliminaries for the formation of an incorporated company under the consolidated railroad laws of 1874.

☞ According to the report of Moses Kelly, treasurer of the sinking fund commissioners, the funded debt of the District of Columbia is $5,514,700, that of the late corporation of Washington, $3,562,974 22, and that of Georgetown $260,189 21—making a total of $9,137,863 43. Some $500,000 is to be taken from this sum for bonds included but not disposed of, making the amount outstanding $8,600,163 48. Ten million five hundred and ninety four thousand five hundred and fifty dollars of 3-65 District bonds have been issued.

☞ In the suit of Oak Ames, et. al., executors, against the Lake Superior and Mississippi Railroad Company, the Supreme Court of Minnesota has reversed its former ruling, and now holds the charter of the road, as amended by the act of March 8, 1861, to be constitutional and valid.

☞ The survey of the Winona and Southwestern Narrow Gauge Railway, from Winona, Minn., to the Iowa State line, was commenced on the 20th inst., and will be completed by the middle of November.

☞ C. M. Smith has been elected President and Wm. B. Corneau Secretary of the Hannibal and Naples Railroad Company.

District of Columbia 3-65 Bonds.

The following is the opinion, in full, of the Attorney General upon the question regarding the pledge of the General Government for the payment of the interest and principal of the 3 65-100 District bonds :

DEPARTMENT OF JUSTICE,
WASHINGTON, D. C., Oct. 22, 1875.

To the President of the United States :

Sir—The question submitted by the President to the Attorney General is, whether "The faith of the United States is pledged to provide for the payment of the interest and principal of the 3 65-100 District bonds." That the faith of the United States is so pledged I have no doubt whatever, and I respectfully suggest that the contrary opinions, which have been given by some eminently respectable lawyers, have resulted from a hasty and superficial examination of the question. The true relation which the District of Columbia bears to the federal government seems to have been entirely overlooked.

Under article 1, section 8, clause 17 of the constitution Congress has power to exercise exclusive legislation in all cases whatsoever over such district (not exceeding ten miles square) as may, by cession of particular States and the acceptance of Congress, become the seat of the government of the United States, and to exercise like authority over all places purchased by the consent of the Legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dockyards and other needful buildings. Section 179 of the Revised Statutes of the United States provides that "All that part of the territory of the United States included within the present limits of the District of Columbia shall be the permanent seat of the government of the United States."

Thus Congress has supreme legislative power over the District of Columbia, a power which has never been delegated to any local municipality. Congress exercises direct, exclusive and absolute legislative authority over the District; Congress fixes the rate of taxation, declares what property shall be subject to or exempt from taxes in the District and prescribes the mode of assessment and the enforcement of collection of the taxes imposed. (See the act of Congress, approved March 3, 1875, entitled "An act for the support of the government of the District of Columbia, for the fiscal year ending June 30, 1876, and for other purposes.")

The Treasury of the United States is, by law, the sole depository of the taxes and revenues of the District. The debt for which Congress authorized the issue of bonds was made by officers of the United States, whom the President had appointed and whom the Senate had confirmed, and the debt was contracted chiefly for improving the streets, avenues and sewers of the District, which are the exclusive property of the United States (Van Ness vs. City of Washington, 4 Peters, 232.) Had there been no specific pledge on the part of the government it would have been bound upon every principle of law, good faith and common honesty to pay the interest and principal of these bonds. The debt was incurred by its own officers. The money borrowed was expended for the improvement of its own property under its own direction. Upon the 30th of June, 1874, Congress passed an act which provides in the seventh section for the issue of the "District Three-sixty-five bonds," and to leave no doubt about the liability of the government the act of February 20, 1875, was passed, entitled "An act to amend an act entitled an act for the government of the District of Columbia and for other purposes, approved June 20, 1874."

Sec. 7. That the Sinking Fund Commissioners of said District are hereby continued, and it shall be the duty of said Sinking Fund Commissioners to cause bonds of the District of Columbia to be prepared in sums of $50 and $500, bearing date August 1, 1874, payable fifty years after date, bearing interest at the rate of 3 65-100 per cent per annum payable semi-annually, to be signed by the Secretary and the Treasurer of said Sinking Fund Commissioners and countersigned by the Comptroller of said District and sealed as the board may direct, which bonds shall be exempt from taxation by federal, State or municipal authority, engraved and printed at the expense of the District of Columbia, and in form not inconsistent herewith, and the faith of the United States is hereby pledged that the United States will by proper proportion of appropriations as contemplated in this act, and by causing to be levied upon the property within said District such taxes as will do so, provide the revenues necessary to pay the interest on said bonds as the same may become due and payable, and create a sinking fund for the payment of the principal thereof at maturity. Said bonds shall be numbered consecutively and registered in the office of the Comptroller of said District, and shall also be registered in the office of the Register of the Treasury of the United States, for which last named registration the Secretary of the Treasury shall make such provision as may be necessary; and said Commissioners shall use all necessary means for the prosecution of any unauthorized or fraudulent issue of any such bonds; and the said Sinking Fund Commissioners are hereby authorized to exchange said bonds, at par, for like sums of any class of indebtedness in the preceding section of this act named, including sewer taxes or assessments paid, evidenced by certificates of the Auditory Board provided for in this act."

The act still further provides that the interest of all said bonds shall be payable at the Treasury of the United States. Section seven reads: "And the faith of the United States is hereby pledged that the United States will * * * provide the revenues necessary to pay the interest on said bonds as the same may become due and payable, and create a sinking fund for the payment of the principal thereof at maturity."

The fact that the act points out the means over which the United States has the absolute power to provide the revenues to meet those obligations only strengthens the pledge of faith which the government gives. It was never yet imagined that the obligation of the government was relaxed or its faith less securely pledged when it obtained loans in 1842, and subsequently, and pledged the proceeds of public lands and the customs revenues to secure the payment of those loans, because of the mention of those resources of the nation. The faith of the United States is clearly pledged to the payment of the interest on these 3 65-100 District bonds, as the same fall due, and to the payment of the principal of the bonds when the same mature.

There is no way short of a shameless violation of the clearest principles of settled law and honest dealing that the government can escape from the full payment of these bonds.

1st. The United States themselves contracted the debt for which the bonds were given.

2d. The United States used the money or labor for which these bonds were given to improve their own property.

3d. The United States themselves authorized the issue of these bonds to secure their own debt.

4th. The United States, by specific act of Congress, pledged the faith of the nation for the full payment of these bonds, and thus induced innocent holders to take the same and part with value.

5th. The United States, to give additional credit to these bonds, pointed out the very ways and means by which they would securely provide the revenues to meet the interest and principal, the government having absolute control over the ways and means suggested.

6th. The United States still further added to its pledged and strengthened confidence in its plighted faith by providing, in the same act of February 20, 1875, that "the interest of all said bonds shall be payable at the Treasury of the United States."

If the faith of the United States is not pledged to the payment of both principal and interest of these bonds as the same mature, then the United States have never pledged their faith for any debt. It is entirely clear that if any individual stood in the same relation toward the bondholders which the United States now hold, he could be forced in any court of law to pay the honest holders of these bonds.

It is not of the smallest consequence whether you treat the United States as guaranteers that revenues shall be raised in a particular way to meet the bonds, or as directly responsible to the holders. If the United States are considered as guaranteers of the revenues, it comes to the same thing. They agree that certain means, under their absolute control, shall be employed to raise the necessary revenues, and thus pledge that the revenues shall be raised; the force of the obligation is thereby increased.

I have the honor to remain, your very obedient servant,

EDWARD S. PIERREPONT,
Attorney General.

Railway Brakes.

At a meeting of the Society of Engineers held on Monday evening, October 4th, in the Society's Hall, Westminster Chambers, Victoria street, Mr. J. H. Adams, president, in the chair, a paper on the Government Brake Trials was read by Mr. Thomas Maude. The author first referred to the object of the trials, and the general mode of conducting them. He then proceeded to give an account of the experiments carried out, noticing first of all the five experiments in which the continuous brakes were more particularly engaged, and giving tables with the results of those experiments worked out. From these it appeared that the three best brakes were, Clark and Webb's Chain, Smith's Vacuum, and the Westinghouse Automatic. The Westinghouse Automatic it was decided did the best work in the trials, but the author urged that on account of its complication and the difficulty to be experienced in keeping it in working order, it was not likely to be very generally used in this country. In America where the old Westinghouse brake is largely used, the opinion of the Committee of the American Railway Master Mechanics' Association, as quoted by the author, was that the Westinghouse Automatic Brake was not likely to supersede the old Westinghouse because of "the cost of its maintenance in perfect order." The next brake considered was Clark and Webb's Chain Brake, and the author pointed out that the working of that brake was not satisfactory, as the brake did not act as smoothly as it should in order to be generally used, although it was possible to obtain a powerful train stopper on that principle. The author next referred to Smith's Vacuum Brake, which, although it was never first in any of the experiments, always did good work, and was never far behind. The author then described the construction and working of this brake, which the Great Northern Railway Company are applying to their stock.—*Herapath.*

Driving Away Our Best Customers.

The railroad combination which has put up the passenger rates of transportation between the Eastern cities and the agricultural regions of the West, and expects to put up the rates of both passenger and freight transportation on the first of November, need not of course fear any competition from other roads running East and West from this or other Atlantic seaboard cities. They have no competitors, and it is not likely they will have any. Railroads communicating with this city have nothing to fear from railroads communicating with Philadelphia or Baltimore, or even Boston; for they have all formed a coalition to prevent a possibility of unfriendly opposition. It is a much more momentous question, however, to inquire whether or not the present and proposed policy of increasing freight and passenger charges westward on railroads terminating at the large and important cities of the Eastern coast will not gradually divert trade from the lines on which these charges are now higher and will eventually be even still more advanced, and direct it into channels that will possess natural advantages of transportation with which no Eastern railroad combination will

be ab'e to successfully compete. Is it not, therefore, a ruinous policy in however small a degree to drive Western commerce into other channels, which will undoubtedly be the result of the system of high rates that has already been adopted between the East and West, and that will be still higher, after the first of November? The people of the West, South and Northwest have been for years unremittingly occupied in endeavoring to find a cheap and safe outlet at the mouth of the Mississippi for their products, and have been ceaselessly projecting overland methods of reaching the South Atlantic coast by railroads which will ultimately be established; and whenever Captain Eads shall have succeeded in deepening the channel of the Mississippi River at its mouth so as to float craft of the largest size, which the progress of his work already indicates he will be able to accomplish within a shorter period than our Eastern railroad coalition imagines, and when thriving seaports on the Southern Atlantic coast begin to tap the corn, and hemp and tobacco fields of the West and sugar plantations of the South by their own railroads, there will be a universal regret entertained that such a policy of high rates of transportation as that just inaugurated between the Northeastern cities and the Western agricultural States should have ever been instituted. But it will then be too late. Western trade will have found new and cheaper channels that a wiser and more liberal railroad policy might have preserved to New York and its sister cities of the upper Atlantic coast.—*Daily News.*

Important Decision.

In the United Circuit Court, at Philadelphia, on the 25th inst., Judge McKennan delivered an opinion in the suit in equity of Adams Express Company vs. The Philadelphia and Reading Railroad Company. This suit was brought in the name of President Dinsmore, and of the Express Company as well, the bill averring that it is a joint stock association composed of more than seven shareholders, formed July 1st, 1854, in the State of New York, by certain written articles, duly executed by the parties thereto, under the laws of the State of New York, and the court was asked to restrain the Railroad Company from engaging in or carrying on the independent express business or collecting, transporting and delivering express matter beyond the termini, and to and from the stations of the road.

The bill was demurred to, on the ground that it neither averred that the joint stock company or association styled the Adams Express Company was a co-poration, nor that the members were citizens of the State of New York or of some other State than Pennsylvania, and on the first of these reasons the Court sustained the demurrer, and dismissed the complainant's bill. The matter has been pending in the Circuit Court since the 2d of October, 1872, and has been several times, in one shape or another, under consideration.

☞ Track laying on the Woodland and Tehema, Cal., railroad has been commenced. It appears that the railroad company intend to relay their whole road with steel rails as the present rails are worn out.

☞ The first trip over the Los Angeles and Independence Railroad from Santa Monica to Cienga, the first station from Los Angeles, was made on the 17th inst.

☞ About half the distance (six miles) of the railroad from Dumbarton Point to Alviso, Cal., has been graded.

The Coal Trade.

The total tonnage for the week ending on the 16th instant, as reported by the Miners' Journal, is 567,481 tons, being a decrease of 21,382 on the tonnage of the previous week. The anthracite tonnage for the year to the 16th instant is 15,722,456 tons, against 16,026,488 tons to corresponding date last year, a decrease of 304,032 tons. The bituminous tonnage for the week was 91,298 tons, and for the year 3,115,738 tons, making a total of all kinds for the week of 658,779 tons, and for the year 18,838,104 tons, against 18,929,730 to corresponding date last year, a decrease of 91,536 tons. At Port Richmond for the week ending the 23d instant there were receipts of 70,000 tons of coal, shipments of 65,000 tons, leaving 180,000 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the last week was 95,483 tons, and for the year 3,297,289 tons, of which 2,689,156 was coal, and 580,941 coke. This embraces all the coal carried both east and west. It is understood that there will be no advance in the prices of coal during the month of November. The representatives of the several companies in the combination, it is stated, have agreed to this. The Philadelphia and Reading Coal and Iron Company announces the following as the November prices for coal delivered on board of vessels at Port Richmond: Lump and Chestnut sizes, $4 55; steamboat, $4 65; broken, $4 75; egg, $5 15; store, $5 60. Some special qualities of coal are quoted higher than the foregoing figures.

Redemption of National Bank Notes.

It is understood that among the prominent features of the forthcoming report of the Treasurer of the United States the following recommendations affecting the redemption of National Bank notes will be made:

First—That the National Bank Redemption Agency be made a separate bureau in the office of the Secretary of the Treasury, under the charge of a superintendent, who shall give a bond for the faithful discharge of the duties.

Second—That the Five Per Cent. Redemption Fund shall be kept in the Treasury, but subject to the checks of the Superintendent, and that they be payable in currency or drafts in New York, Boston, Chicago, St. Louis or other sub treasuries.

Third—That banks or others sending National bank notes for redemption shall be required to prepay the express charge to Washington, and that for all other expenses of this agency the National banks shall be allowed from their next semi-annual return of tax upon circulation the amount of any assessment that may be made, as also in their assessments heretofore made.

☞ The work of building the connecting line of railroad from Albert Lea, Minn., to Norwood, Iowa, is fast being pushed to completion. Col. A. DeGraff, of St. Paul, Minn., has the contract for the entire work. Trains are expected to be running by the 1st of December.

☞ The total area of Washington Territory is 44,796,160 acres, of which 11,700,952 acres have been surveyed. During the two years ending June 30, 1875, there have been surveyed 3,218,141 acres of public lands and 264,144 acres of Indian reservations.

☞ The McIntire Street Railway company, of Zanesville, Ohio, has been incorporated by Joseph F. Gorsuch and others.

Seattle and Walla Walla Railroad.

The Seattle (W. T.) Intelligencer says that a proposition has been made to the company to build and equip the twenty mile section of the Seattle and Walla Walla Railroad, and the parties offering so to do agreeing to take their pay in stock in the whole road. The proposition comes from a reliable quarter, and has been accepted by the Trustees upon condition of a bond in the sum of $250,000 being given for the faithful performance of the contract, and there is but little doubt in regard to this most advantageous scheme being carried out—and when it is, the final completion of the whole road will speedily follow. The entire length of the first section is 20 8-10 miles, with very light grading, and can be constructed ready for operation for a trifle less than $200,000. This amount the parties, who are represented by the person making the above proposition, can readily advance.

Erie Railway.

In the Supreme Court, Chambers, on the 25th inst., in the matter of the Receiver's report in the suit of the Farmers' Loan and Trust Company vs. the Erie Railway Company, Judge Lawrence gave the following decision:

Upon examination of the report of the Referee in this case, I find that a question was submitted by the Referee, to which no allusion whatever was made at the time the papers were submitted to me. If the order to be entered is upon consent of all the parties, I want the written consent before me. If not, I desire to hear counsel on the point left open by the Referee.

It is understood that the point referred to is as to whether the Receiver of the Erie Railway must personally examine all the vouchers connected with the transactions embodied in his report. Until this question is decided his report will not be confirmed.

Stockton and Ione Railroad.

The Stockton (Cal.) Independent of October 5, says that an agreement has been entered into between the President and Directors of the Stockton and Ione Railroad Company and the contractor, by which the President has signed the bonds of the company. According to the terms of the agreement, the bonds are to be deposited with the First National Gold Bank and Trust Company of San Francisco, and are not to be negotiated for less than seventy five cents on the dollar of their par value. The money received to be retained in said bank, and only to be drawn by order of the Treasurer of the Stockton and Ione Railroad Company, countersigned by the contractor, and only to be used for the purpose of constructing the road.

☞ Col. Thomas McKissock, late General Superintendent of the St. Louis, Iron Mountain and Southern Railroad, has been appointed General Superintendent of the St. Louis, Kansas City and Northern Railroad in place of Col. W. R. Arthur, who recently resigned that position.

☞ W. C. Rowland has been appointed "General Superintendent of the Transportation Department" of the Louisville and Nashville Railroad, in the place of A. Fink, resigned.

☞ A contract has been entered into for the completion of the Little Rock and Fort Smith railroad, a distance of 45 miles, between the present terminus and Fort Smith.

American Railroad Journal.

Saturday, October 30, 1875.

Financial and Commercial Affairs.

The Money market has been without very decided alteration as to demand for aid, or rates on call and discount accommodation. Business at the Stock and Gold Boards has been quite active, and in Produce and Merchandise lines has been also comparatively brisk. The inquiry from borrowers has consequently been animated, but lenders have been prompt in responding to the wants of responsible parties at comparatively steady figures—call loans having been quoted at from 3 @5, and best mercantile credits rated at 5@7 per cent per annum. The City banks have suffered a further loss through remittances of currency to the South and West to aid in the forwarding of produce to the Seaboard, which movement is now in vigorous progress, and is likely so to continue to the close of inland navigation. The U. S. Sub Treasury likewise reduced its cash balances, both coin and currency, to a moderate extent, as the result of the week's operations. The City Banks reduced their reserve of legal tender notes $1,792,500, and their deposit item $5,227,100, while augmenting their specie average $17,400. They report a decrease of $3,945,000 in the loans and discounts, and an increase of $3,400 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $53,977,928, against $54,273,928 the preceding week; and a coin hoard of $39,684,937, against $40,144,275 on the previous return. The City bank exchanges in currency reached a daily average of $68,250,000. The customs revenue of the port,

during the week, was $2,141,000. The City banks reported their average of gold last week at $6,406,600, and their greenback average, at $54,702,900. Their deposits stood at $223,471,700. The loan item was $280,584,700. The circulation was $17,816,200.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of only $5,241,575.

The aggregate of the outstanding U. S. currency, of all denominations, October 1, was $415,274,897. The outstanding amount of legal tender notes is $373,941 124. The National bank circulation is now $346,813,776, including $2,610,000 of national gold bank notes.

The London advices report continued losses of bullion by the Bank of England and firmer rates for discounts. On Thursday of last week the Directors of the bank advanced the rate from 3½ to 4 per cent., the bank having lost £945,237 sterling during the week. Since that action a further net loss of bullion has been reported.

The specie shipments from San Francisco, January 1, to October 14th, were $35,175,343, against $22,589,329 same time in 1874.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $7,878,862; special deposit of legal tenders for the redemption of certificates of deposit, $63,975,000; Coin, $69,189,878; Coin certificates $12,631,900.

The week's import entries of Foreign Merchandise at New York were $3,876,055.

The income of the Government from internal revennes in the current fiscal year, commencing with July 1, 1875, has been about 37½ millions; and from Customs, 55¼ millions.

Gold has fluctuated widely under speculative manipu'ations, on a rather more active business at the Gold Board, especially toward the close. The customs call has been fair. The export drain light. The extremes of the price during the week have been 114⅝@116½, closing on Wednesday at 115⅝ as against 116½, on Wednesday of the preceding week. The specie outflow last week was $226,550 against $608,796 the previous week. The imports of specie at this port since Jan. 1, have been $10,227,296, against $5,161,791 same time last year. The customs demand for Gold last week averaged $356,833 per day. Foreign Exchange has been in fair request, but at irregular rates. Bankers' sixty day bills on London closed on Wednesday at $4 79@$4 79½; sight bills on London at $4 83@$4 84 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $3,983,536. The week's imports of Dry Goods and general merchandise were to the specie value of $3,876,055.

Government Securities have been fairly active at, however, variable prices, quotations having fluctuated more or less uniformly with Gold. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $368,857,212.

U. S sixes of 1881 closed on Wednesday of this week at 123@123¼; U. S. Five-Twenties of 1864, at 118¾@119¼; U. S. Five-Twenties of 1865 119½@119¾; U. S. Five-Twenties of 1865, consolidated, 118¾@119; U. S. Five Twenties of 1867, 120⅜@120⅝; U. S. Five-Twenties of 1868, 121@121¼; U. S. Ten-forties at 116⅞@117⅛; U. S. Fives of 1881, (Funding Loan) 117@117¼; Six per cent. currency Sixes, 123⅜@123⅞.

State and Railway bonds have been in rather less request but quoted generally steady. And in the line of Railway and Miscellaneous share property, a livlier business has been reported on stronger though unsettled market.

The movements in domestic produce have been on a comparatively liberal scale, but at variable prices, especially in the instances of Breadstuffs, Cotton and Provisions, which closed weak. Foreign merchandise has been moderately sought after at generally steady rates. Metals have been rather more freely dealt in, especially Ingot Copper and American Pig Iron, the latter at reduced quotations. Eglinton Pig Iron quoted here at $29@$30; Glengarnock, $32@$33; Coltness, $33; No. 1 American Pig at $24@$25; No. 2 do. at $22 50@$23 50; Forge, $20@$22 50; English Rails at $47 50@$50, gold; American Rails, at works, $46@$50; Old Rails, $25@$26. Wrought Scrap, $30@$32 50. Ocean freights have been fairly active and quoted generally firm.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The gross earnings of the Philadelphia and Erie Railroad in September, 1875, were $344,047, the expenses $195,898, and the net proceeds $148,149. The net proceeds for the first nine months of 1875 were $775,366, against $677,387 for the first nine months of 1874—an increase of $97,979.

☞ The Gold coupons due November 1st on the Bonds of the Denver and Rio Grande Railway and Central Colorado Improvement Companies, will be paid on and after that date on presentation at the office of Rutten & Bonn, No. 52 Exchange Place, New York.

☞ A book of subscription to the capital stock of the "Manhattan Railway Company" will be opened at 10 o'clock A. M., on Friday, October 29, 1875, at the Corn Exchange Bank, No. 13 William St., New York.

☞ The grading on the Woodland and Tehama Branch Railroad has been finished a distance of about fourteen miles. It is one of the finest grades in California, says the Yolo Mail, and there seems to be no trouble on the route through Yolo county. The rails have not yet arrived, but are expected in a few days.

☞ Sections one and two on the tunnel line at Greenfield have been re-let—N. C. Munson, who has sections three and four, getting section two and immediately sub-letting it to James H. Edwards & Brother from Worcester.

☞ On the first day of November, or a few days thereafter, the narrow gauge railroad from Watsonville to Santa Cruz will be completed and in operation. This road is about twenty-two miles long. It is said to be well built, and will be well stocked.

☞ The United States Rolling Stock Company has contracted with the Urbana (Ohio) Machine works for one hundred tons of castings, to be used in repairing cars.

☞ Efforts are making to extend the Louisville, Harrod's Creek and Westport Narrow Gauge Railroad to Madison, Ind., and thence to Cincinnati, Ohio.

☞ The Taunton (Mass.) Horse Railroad earned between $500 and $400 above its expenses the past year, which is better than was anticipated.

☞ The Worcester County (Md.) Railroad has been extended to Stockton, nine miles below Snow Hill, near Chincoteague bay, and freight has already been carried over the extension.

☞ The Supreme Court of Iowa has affirmed the constitutionality of the law, providing that railroad companies shall be responsible for fires caused by sparks from their engines.

☞ The Directors of the Springfield, Jackson and Pomeroy Narrow Gauge railway, have awarded the contract for constructing the entire road to Prescott & Co., of Cincinnati, Ohio.

Notice to Contractors.

THE COMPLETION OF THE FOURTH AVENUE Improvement gives us a large and valuable surplus of Stock, Machinery and Tools, which we propose to sell in the next twenty days at Panic Prices.

THE LIST INCLUDES:

Sixty Large Work Horses,
Sixty Broad Tire Dirt Carts,
Sixty Setts Cart Harness,
Twenty Setts Double Work Harness,
Fifteen Stone & Earth Wagons,
One City Furniture Truck,
One Hundred Side Dump Dirt Cars of three feet two inches gauge,
Five Burleigh Rock Drills,
Six full setts Blacksmith Tools,
Steam Boilers from six to sixteen Horse Power,
One Number Four Centrifugal Pump and Engine,
One Ryder Engine, eight Horse Power,
One Deck Hoisting Engine, with two seven and a half inch Cylinders,
One Number Four Clayton's Air Compresser,
Twenty Derricks full rigged with either Hand, Horse or Steam Power,
Two Tons, four and a half inch, by a half inch, Railroad Spikes,
And a large variety of miscellaneous smaller tools, common to Railroad Work.

MISSOURI PACIFIC RAILROAD.

OFFICE OF THE ATLANTIC AND PACIFIC RAILROAD COMPANY,
No. 3 BROAD ST., NEW YORK, Oct. 28, 1875.

IN ACCORDANCE WITH THE SUGGESTIONS of the Committee of Missouri Pacific Stockholders, in their report made on the 26th inst., the Directors of the Atlantic and Pacific Railroad Company instruct me to offer to the stockholders of the Missouri Pacific Railroad $1,854,000 Third Mortgage Bonds of said Pacific Railroad at 75 per cent., stockholders to have the preference to purchase said bonds at that rate, until and including Nov. 10, 1875. The proceeds of said sales to be used only in liquidating the floating debt of said Pacific Railroad. An early response from the stockholders is requested.

ANDREW PIERCE, President.

OFFICE OF THE
BOARD OF COMMISSIONERS OF RAPID TRANSIT,
NEW YORK, Oct. 23, 1875.

BY DIRECTION OF THE BOARD OF COMMISsioners heretofore appointed by the Mayor of the City of New York, under and pursuant to the provisions of chapter 606, laws of 1875, public notice is hereby given that the said Commissioners will cause a suitable book of subscription to the capital stock of the company to be incorporated and organized under the provisions of said act, and to be known as the "Manhattan Railway Company," to be opened at 10 o'clock A. M., on FRIDAY, the 29th day of October, 1875, at the Corn Exchange Bank, No. 13 William st., in the City and County of New York. The amount of said capital stock is fixed at two millions ($2,000,000) of dollars, divided into twenty thousand (20,000) shares, subject to the right to increase the capital stock from time to time, as is by said act provided. The shares will be of the par value of one hundred ($100) dollars each. The whole capital stock is to be subscribed by not less than twenty-five persons; and, on subscribing, each subscriber is required to pay, in cash, five per centum of the par value of the number of shares subscribed by him.

By order of the board.

BURTON N. HARRISON,
Acting Secretary.

THE GOLD COUPONS DUE NOVEMBER 1st on the Bonds of the Denver and Rio Grande Railway and Central Colorado Improvement Companies, will be paid on and after that date on presentation at our office, 52 Exchange Place, New York.

RUTTEN & BONN.

INVENTORS. If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C. ☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

The Duty on Wood Screws.

The following letter, of interest to importers, has been made public by the Secretary of the Treasury:

TREASURY DEPARTMENT,
WASHINGTON, Oct. 12, 1875.

C. A. Arthur, Esq., Collector of Customs, New York City:

Sir—Referring to your reports of August 17 and 26 and Sept. 23, 1875, upon the question presented by the appeal 4885 of G. W. Bruce on an importation of wood screws, manufactured from so-called Bessemer steel, and classified as wood screws subject to a specific duty per pound according to length, I have to state that after a careful consideration of the subject I have arrived at the conclusion hereinafter stated.

The article commercially known as wood screws has heretofore, it appears, been generally manufactured from iron. The question now presented is whether wood screws of Bessemer steel are to be treated as within the provisions for "screws of any other metal than iron," contained in the clause in schedule "E" of the tariff, Revised Statutes, page 496, authorizing the admission of screws, not embraced by the preceding clause, at 35 per cent ad valorem.

The appeal is based substantially on two grounds, viz:

First. That the article in question is, as a matter of fact, composed of a metal other than iron.

Second. That the provision relating to screws other than those of iron confines the specific duty on wood screws to those made of iron only.

The two provisions of the tariff to which reference is here made are in the following words:

"Screws, commonly called wood screws, two inches or over in length, eight cents per pound; less than two inches in length, eleven cents per pound."

"Screws of any other metal than iron, and all other screws of iron, except wood screws, 35 per centum ad valorem."

The clause first cited relates wholly to wood screws so called. This it appears is a descriptive designation based upon the objects or uses of the article, and not upon the material of which it is composed, no reference to which is made by the statutes. The phraseology of the next succeeding clause is claimed by the appellant to mean that iron wood screws only are excepted from the ad valorem rate, and that a wood screw made of steel being composed of a metal other than iron, is consequently subject not to the specific but to the ad valorem rate.

The position is in the judgment of the department unsound, for the reason that the statute having in the first place imposed a specific rate of duty on wood screws, *eo nomine*, without reference to the material of which they are composed, the intent thus clearly expressed should not be defeated by a construction of the general provision inconsistent therewith.

The propriety of this view is further illustrated by reference to the specific provision for bed screws in the same schedule, viz: "two and one half cents per pound." If the words in the general provision, "all other screws of iron except wood screws," were meant to except only iron wood screws, then iron bed screws would seem to be provided with two different rates of duty, one specific, the other ad valorem. The department, however, has uniformly recognized the specific rate as applicable to the article known as bed screws without regard to the material of which it is composed. The same rule is applicable to wood screws, and you will be governed accordingly.

I am very respectfully,
B. H. BRISTOW, Secretary.

☞ The Green Mountain (Vt.) Narrow Gauge Railroad has been surveyed through Plymouth. The route lies along Woodward's reservoir and Black river, and it is said that no very serious difficulty lies in the way of its construction.

Tax on Subsidy Land.

The Commissioner of Internal Revenue has had under consideration a question growing out of the donation of public lands to the Illinois Central Railroad Co. The Company sold certain of these lands and took notes therefor; these notes were not, however, in the usual form—i. e. for certain sums with interest thereon, but were for certain round sums, payable at a certain fixed time in the future, without any interest clause. It is not denied, however, that these notes were made for sums larger than the cash price of said lands at the time of sale, or that they were so made on account of the length of time they were to run.

The company included in their dividends moneys collected from time to time on said notes. They now claim that so much of their dividends as arose from money received upon said notes is not subject to taxation; that such money did not constitute earnings, profit, income or gains within the meaning of those words as employed in the statute. The Commissioner rules that a sum equal to the value of those notes at the time they were given, i. e., their then present worth, is not liable to dividend tax: but, that so much of the amount received on said notes over and above said value as is referable to the years in which dividends were taxable, should be treated as interest, and constitutes a part of the profits, income and gains of the company and is liable to tax.

Southern Iron.

There has been a steady development in this industry since the war, and the great mineral State of the South, Alabama, now freely boasts of being the chief seat in the Southern States of the manufacture of hot blast charcoal iron, her furnaces being situated on the Selma, Rome and Dalton Railroad, from which point shipments to England have been made and sold at £7@£8 per ton. Specimens from other mines, which have been sent forward, are classed by the prominent English manufacturers as "Best best," while the highest grade of iron is only "Best best best." This iron trade is furnishing steady employment to many hundred native whites and blacks, and a good many English, Scotch and Swedes, who are building up the South, increasing the mining of hard coal and using annually millions of bushels of charcoal burnt in the forests near the mines. Charcoal costing 6c.@7c. and coke 9c.@10c., the South must furnish a very considerable part of the 3,000,000 tons of iron made in the United States. This is indicated by the number of furnaces now in blast, and projected, in South Carolina, North Carolina, Georgia, Tennessee and Alabama.—*Charleston News.*

☞ The corporators of the Rumford Falls and Buckfield, (Me.) Railroad have accepted the act of incorporation, and organized by electing Hon. E. S. Barlow President. The road is to be built from Auburn to Rumford Falls, and a portion of the way is to be located over the old Oxford Central road bed.

☞ Albert Fink, late Superintendent of the Louisville and Nashville Railroad, has accepted the position of umpire of the southern roads, with headquarters at Atlanta. The duties of the umpire are to decide and settle all disputes that may be caused by rivalry and cutting rates.

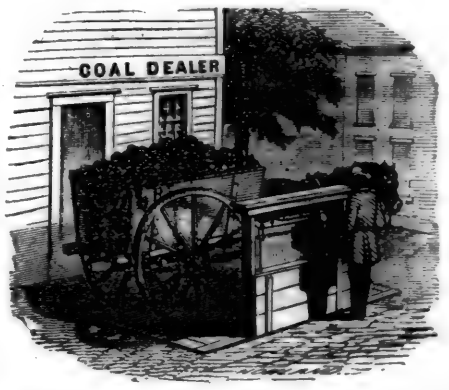
☞ The directors of the Annapolis and Elk ridge Railroad Company, recently elected, are: D. R. Magruder, James A. Bruce, Wm. H. Beans, Andrew B. Banks, Henry E. Loane and Benjamin King.

THE

UPHOLSTERERS'

ELASTIC SPONGE

COMPANY,



No. 42 LAWRENCE STREET,
NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.

For sale by leading Hardware Dealers.

Official List of Patents Issued by the United States Patent-Office.

FOR THE WEEK ENDING OCTOBER 22, 1875.]

MECHANICAL AND RAILROAD.

168,337. Mechanical movements, J. McCloskey, New York.

168,350. Transmitting motion, J. Sigwalt, Chicago, Ills.

168,359. Valves for air brakes, Geo. Westinghouse, Pittsburg, Penn.

168,394. Feed water apparatus for steam boilers, W. H. Jenkins, Philadelphia, Penn.

168,399. Car couplings, J. H. Johnson, Brooklyn, Mich.

168,406. Ratchet wrenches, F. S. Ober, Washington, D. C.

168,408. Annealing boxes, C. H. Onions, Pittsburg, Penn.

168,412. Cranes, F. A. Pratt, Hartford, Conn.

168,415. Pitman connections, A. Rea, Lancaster, Penn.

168,426. Warming and ventilating railroad cars, J. Story, Washington, D. C.

168,439. Steam hammers, S. D. Wilson, Des Moines, Iowa.

168,440. Furnaces for smelting lead, J. V. Woodhouse, Bunker Hill, Ill.

168,450. Metal bending machine, A. H. Campbell, Philadelphia, Penn.

168,476. Railroad cars, G. Galloway, Buffalo, N. Y.

168,480. Railway rail joints, S. W. Griffith, Union City, Penn.

168,483. Nut locks, F. C. Hamilton, Brooklyn, N. Y.

168,495. Tube rolling machine, J. Hoskin, Phila., Penn.

168,502. Steam boiler furnaces, E. Kasselowsky, Berlin, Prussia.

168,504. Rolling mills, N. King, Etna, Penn.

168,513. Annealing furnaces, W. S. McKenna, Pittsburg, Penn.

168,539. Gas apparatus, H. J. Surmon, Belvedere, England.

MINING.

168,416. Ore separators, C. W. Reily, Cincinnati, Ohio.

168,440. Furnaces for smelting lead, J. V. Woodhouse, Bunker Hill, Ill.

168,454. Earth augers, W. E. Coman, Oak Park, Ill.

168,522. Clips for rope tramways, E. Olsen, Jacob City, Utah.

SHEET METAL.

168,450. Metal bending machine, A. H. Campbell, Philadelphia, Penn.

168,463. Sheet metal attachments for gas burners, M. B. Dyott, Philadelphia, Penn.

168,495. Tube rolling machine, J. Hoskin, Phila., Penn.

☞ That portion of the Smyrna and Delaware Bay (better known as the Bombay Hook) Railroad, in New Castle county, Del., being one and one-half miles in length, was recently sold at public sale, with all its chartered privileges and appurtenances, by Sheriff Lambson. Samuel M. Mills, of New York, was the purchaser at $2,500

☞ D. H. Conklin, formerly Superintendent of the Gilman, Clinton and Springfield Railroad, has been appointed Superintendent of the Springfield Division of the Ohio and Mississippi Railroad.

Hungarian State Railways.

On Dec. 31st, 1874, the Hungarian State railways had attained a length of 140.5 miles, and had cost 98,600,000 fls. During 1874, the gross receipts had been 5,702,597 fls., or 43,048 fls. per mile; the expenses had been 4,780,779 fls., or 36,089 fls. per mile, equal to 83.83 per cent of the gross receipts; the net receipts had been 921,818 fls., or 6,959 fls. per mile. The Northern system was 95.55 miles long, and had yielded a net return of 1,103,148 fls.; the Southern system was 36.37 miles in length, and showed a deficit of 133,068 fls. in its net receipts; the secondary lines and the industrial lines of Goemoer showed a net receipt of 48,000 fls.

☞ Col. Dole, Receiver of the Illinois Midland Railroad, has appointed R. G. Hervey (President of the Company) Superintendent.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

E. M. Brigham, KINGSTON, N. Y. J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

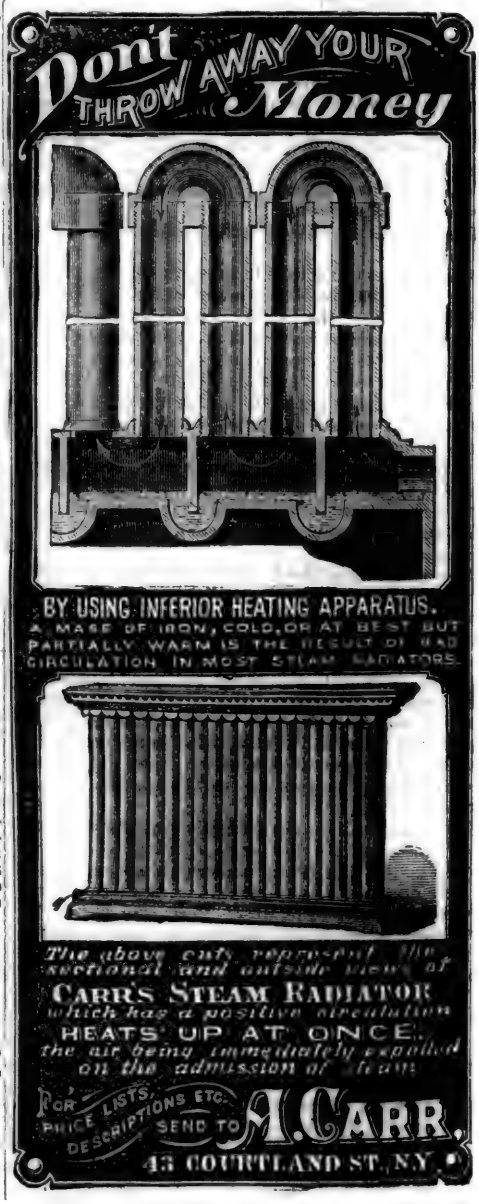
WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT**, (equal to any) put up in new barrels made by themselves, and well papered, and average **300 lbs.** Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.



LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,
96 Wall Street, New York.

Bessemer Steel Rails.

The Springfield Republican, commenting upon the revolution wrought in the iron industry of the world by the invention of Henry Bessemer, presents some figures showing the extraordinary growth of the Bessemer process in this country. In 1867 it was 3,000 tons, in 1869 12,000. in 1872 110,000, in 1873 157,000, and in 1874 176,500, a growth of sixty fold in seven years! Last year, of 850,000 tons of new rolled rails produced in this country, 145,000 were of Bessemer steel. Of the imported rails, which have fallen off from 530,000 tons in 1872 to 108,000 in 1874, 100,000 in the latter year were Bessemer steel. There were eight Bessemer mills producing in this country in 1874; one was opened on the 1st of September and two more are in process of erection, giving us eleven by the close of this year. The average price at which the steel rails have been sold in this country was $160 a ton in 1867, $132 in 1369, $102 in 1871, $112 in 1872, $120 in 1873, $94 in 1874, and $75 thus far in 1875.

☞ Articles of incorporation were filed on the 6th inst. of the Golden Gate Park and Seal Rock Railroad Company; organized for the construction of a railroad from Market and McAllister streets, San Francisco, to the Pacific Ocean, a distance of six miles. Capital, $350,000, in shares of $100 each. Directors—C. W. Stevens, W. T. Garratt, H. J. Booth, J. A. Bauer and George L. Smith. The principal place of business will be in San Francisco.

☞ The formal opening of the Santa Cruz and Felton Narrow gauge Railway from Santa Cruz to Felton, a distance of 8½ miles, took place on the 13th inst. Santa Cruz is about 50 miles from San Francisco, which is its ultimate objective point. Charles Silent is president of the company, and B. F. Williams superintendent.

Phœnixville Bridge Works

Clarke, Reeves & Co.,

The attention of the officers of Railroad Companies is called to a new Album of Designs, showing the various styles of Iron Railway Bridges, Viaducts, etc., that we have constructed and are prepared to construct, which we will send by mail on application to

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, November 6, 1875.

The Manhattan Railway.

Pursuant to a circular issued by the Commissioners of Rapid Transit and in accordance with the law, a book of subscription to the capital stock of the Manhattan Railway Company was opened at the Corn Exchange Bank on the 29th ult. The capital stock is placed at $2,000,000, in shares of $100 each, to be subscribed for by not less than twenty five persons. The books were only opened for half an hour, as during that time the whole of the stock was taken up by twenty six persons, one above the number required by law. Each of the subscribers signed a document that read as follows:

Each of us, the undersigned, hereby subscribes (subject to the distribution to be made to him) to the capital stock of the Manhattan Railway Company, which is to be incorporated and organized under the provisions of chapter 606, Laws of 1875, with and according to articles of association heretofore prepared, in compliance with the requirements of said act, by the Board of Commissioners appointed by the Mayor of the city of New York, pursuant to the provisions thereof. Each of us hereby promises, covenants and agrees—to and with each other subscriber hereto, each for and in consideration of the promise, covenant and agreement of such other—and to and with the Board of Commissioners heretofore appointed by the Mayor of the city of New York and organized pursuant to the provisions and requirements of chapter 606, Laws of 1875, each for and in consideration of such distribution of shares as may to him by said Board of Commissioners, in the discretion of the Board, be made, to take and pay for the number of shares hereinbelow by him written opposite to his name of the capital stock of said company, or such, if any, other number of such shares, not exceeding the number hereinbelow by him written opposite to his name, as may be by said Board of Commissioners, in the discretion of said Board, allotted to him. It is understood, and hereby by each of us for himself agreed, that said Board of Commissioners shall have and exercise the right and discretion to accept only such of the subscribers to said stock as may by said Commissioners, or a majority of them, be considered most responsible and most favorable to the accomplishment of the purposes provided for by said act; and that said Board of Commissioners shall have and exercise the right and discretion to distribute to any subscriber who may be so accepted only so many of the shares by him written opposite to his name as said Commissioners, or a majority of them, may determine. Each of us now pays in cash, on subscribing for such shares, five per centum of the par value of the number of shares by him hereinbelow written opposite to his name, and each of us hereby, for and upon said considerations, agrees that the remainder of the amount of the par value of such, if any, number of shares as may, in the discretion of the Board of Commissioners, be allotted to him, shall be paid promptly and upon demand, in instalments, as and whenever the Board of Directors of the company shall from time to time, assess and call for the same. And each of us who shall become a stockholder in said corporation for himself agrees in consideration of the premises, to be bound by the articles of association prepared, as aforesaid, for the company by said Board of Commissioners; and each of us hereby authorizes and empowers the persons, or any one or more of them who shall, pursuant to said act, be elected to be the directors for the first year of said corporation, in his behalf, to subscribe said articles of association.

New York, Oct. 29, 1875.

The Secretary stated that the heaviest buyers were John F. Tracy, David Dows, Jose F. Navarro, William S. Scott, Francis H. Tows, Mr. Soto Longo and Milton Courtright, President of the Greenwich Street Elevated Railroad. Five per cent of the subscriptions was paid up and $100,000 deposited in the hands of the Treasurer, Mr. C. J. Canda. The Secretary states that the work on the road will be commenced at once.

Hotel Coaches on the Erie Railway.

A new and important feature in railroad traveling has been introduced by the Erie Railway Company, and a great want has thus been supplied which has long been needed by the traveling public, viz: Hotel Coaches, with Drawing Room and Sleeping Cars attached. These trains commenced running between this city and Chicago on the 1st inst., and will run daily, leaving the foot of Chambers street at 7 o'clock P. M., arriving at Chicago at 8:30 the next morning but one. On these hotel cars passengers will find all the comforts of a first-class hotel supplied at very moderate prices, so that there will be no occasion to leave the train at any station for refreshments; neither will there be any change of cars, as the hotel coaches will go through to Chicago, a distance of 978 miles, without change. The trains are equipped with the latest improved Pullman wide drawing-room sleeping-coaches, and new and elegant day coaches accompany each train through to Chicago. Besides the hotel train in the evening, a morning express will leave the foot of Chambers street each day at 9 o'clock. All of these cars, morning and evening, instead of going the northern route by way of the Great Western Railway of Canada and the Michigan Central Railroad, will go a more direct route, by way of the Baltimore and Ohio Railroad, with which company all the necessary arrangements have been made. Passengers, however, who may desire to go to Chicago by the northern route can be accommodated as usual. There is a special agreement between the managers of the railroads that all trains, in either direction, are to be run through without interruption.

☞ The Whitaker Iron Company, whose place of business is to be at Wheeling, West Va., has been incorporated, for the purpose of smelting iron ores and manufacturing rails and spikes for railroads, rails, sheet iron, hoop, rod and bar iron, galvanized iron, and the manufacture of rolled iron generally. The capital, $125,000, which has been fully paid up, is divided into shares of $100 each.

Public Libraries of the United States.

Appleton's American Cyclopædia, states that there are in the United States more than seventy public libraries which contain over 25,000 volumes each. Of these, nine possess more than 100,000 volumes, seven more than 50,000 and less than 100,000, and seventeen more than 35,000 and less than 50,000. The largest collection is in the Library of Congress, which has 261,000 volumes. The Public Library of Boston contains nearly the same number, and increases at the rate of 15,000 volumes a year. Harvard College has 200,000, the Astor and the Mercantile of New York 148,000 each, the Mercantile and the Library Company of Philadelphia 105,000 and 101,000 respectively, the Athenæum of Boston 103,000, and Yale College 100,000. The New York State Library, at Albany, has 67,500 volumes, not including the Law Library, which has 25,000. The New York Society Library possesses 64,000 volumes, the Public of Cincinnati 62,000, the Peabody Institute of Baltimore 56,000, the Antiquarian Society of Worcester 55,000, and the Apprentices' of New York, and Dartmouth College, 50,000 each. Those which contain more than 35,000 are as follows: The Mercantile of Brooklyn, Watkinson of Hartford, Mercantile of St. Louis, Cornell University, Historical Society of New York, State of Maryland, State of Michigan, Public of Chicago, State of Ohio, Mercantile of San Francisco, Surgeon General's Office at Washington, University of Virginia, City of Springfield, State of Massachusetts, Public School of St. Louis, Bowdoin College and the Mercantile of Cincinnati.

Grand Trunk Railway of Canada.

The report for the half year ended June 30th, 1875, states:

The gross receipts upon the whole undertaking, including Buffalo and Champlain lines, have been.....	£909,075
Which are reduced by the discount on American currency.....	15,927
To	£893,148
Deduct working expenses (being at the rate of 78.54 per cent, against 78.23 for the corresponding half of last year	701,460
Leaving a sum of.....	£191,688
From this, however, has to be deducted the postal and military revenue due for the half year to the bondholders..	16,283
Which leaves	£175,405
Applicable for the payment of interest, etc., on lands, ditto on mortgage to Bank of Upper Canada, etc.....	£22,350
Atlantic and St. Lawrence lease (in full)	52,538
Lewiston and Auburn Railway rent.....	1,541
Detroit line lease (in full)	11,250
Montreal and Champlain bond interest.	12,081
Buffalo and Lake Huron rent.....	33,000
1st Equipment Bond interest.....	15,000
2d " " "	15,000
5 per cent Perpetual Debenture stock..	12,500
Leaving a balance of.....	144
	£175,404

There has therefore been for the past half year no balance available for dividend on the preference stocks, and the above sum of £143 10s., added to the balance from the last account of £1,180 1s. 1d., makes a total amount to be carried forward to the next account of £1,323 11s. 1d.

The operations of the company for the past six months, have been carried on under circumstances of the greatest difficulty and anxiety, brought about by causes which all must see to have been entirely beyond the control of the directors, or the Executive in Canada. They have resulted in a decrease of the gross receipts (after deduction of loss on American currency) of £106,898 or 10.64 per cent as compared with the corresponding half year in 1874, although there has been at the same time an actual increase in the work done. These causes have been mainly:—1. The great depression in trade and depreciation in freight rates, common to the whole of the United States and Canada, but principally affecting the lines of communication conveying the produce of the West to the seaboard. 2. The unprecedently severe and unfavorable weather during the first three months of 1875; and 3. Increased competition, arising principally from the extension of the Baltimore and Ohio Line to Chicago, the construction of the Canada Southern parallel to the Great Western Line, and the unfortunate competition by the latter company carried on against the Grand Trunk with great determination and energy during the early part of the half year. The first of these causes has been generally ascribed to reaction following upon the extraordinary commercial activity developed after the close of the great civil war in the United States; and its effect has been intensified by a reduction of 20 per cent during the past year in the value of the cereal productions of the West. With respect to the second cause, exceptional as the weather was in its severity, it was accompanied by unusual conditions, which greatly increased the difficulties of working large sections of the line, and which are thus referred to in a report from the General Manager: "The winter, which commenced in November, continued with great severity in April. An unusual feature of the weather was the prevalence of high winds. There was not, as is generally the case, a thaw in the month of January, and the consequence was the surface of the snow did not become caked and hardened so as to resist the action of the wind, and many times when no snow was falling the line was blocked by showers of snow driven across the plains by the high winds, filling up the railway wherever the bed of it lay below the level of the surrounding country. This sort of obstruction in many cases baffled all the efforts of the staff, because the snow, which packed hard like small particles of granite, was no sooner removed by the snow-ploughs, or other means, than the same cuttings were again filled by the action of the wind." As regards the third cause—increased competition—the extension of the Baltimore and Ohio Railroad to Chicago, adding another powerful competitor at a time when business was declining, had a marked effect in reducing the rates. On this subject Mr. Joy, the able President of the Michigan Central Railroad, in his report for the year ending May, 1875, (addressed to the stockholders of that company, who are nearly all residents in the country, and therefore well acquainted with the circumstances), points out that had they only received for that year the rates of the preceding one, their earnings from freight would have been increased by $446,490, or over 10 per cent, and says: "The opening of the Baltimore and Ohio to Chicago, its desire to advertise its line by cheap rates, and by the notoriety which a contest with another great line would give it, have disturbed and unduly depressed them for a time, and some reaction will come as soon as business revives. The present effect has been very great, the whole reduction in the earnings of this company during the past year has been since the opening of that road, and wholly by reason of reduced rates." The competition in Western Canada was somewhat modified by an arrangement entered into between the Great Western and Grand Trunk Companies, which, however, only took effect from the 1st April last. The injurious consequences of such a struggle have evinced the necessity of a fair and business-like understanding between all concerned. The general results arising from these causes are shown in the traffic receipts for the whole half year, but it is necessary to examine separately the operations of the two quarters to distinguish the effect upon each. During the first quarter the company carried nearly 18,000 tons less traffic, and earned £50,000 less money, whilst the train mileage was increased by 267,000 miles, or 15 per cent, and the engine mileage by 314,000 miles, or more than 12 per cent. Although the line east of Montreal had been supplied, on the change of gauge in September, 1874, with new and more powerful engines, the severity of the weather not only neutralized this additional power, but also lessened the average hauling capacity of the engines over the whole line by 7 per cent as compared with the corresponding three months in 1874. The obstruction thus offered to the movement of traffic diminished its volume, and in one week, that of 13th February last, there was an actual loss of traffic receipts of over £14,000, caused almost entirely by the impossibility for a time of keeping certain portions of the line clear of snow. Coupled with these circumstances, which were reducing the earnings and increasing the expenses, there was at the same time the additional loss arising from the competition in Western Canada. In the beginning of the second quarter of the half year, when the severity of the weather was mitigated and a better understanding existed with the Great Western Company, the efforts made to recover the losses of the first quarter were met by increased stagnation in the trade of the country, which had reached a point admittedly unequaled since 1857, and which, although resulting only in a slight reduction of the amount of business, led, owing to the general fall in the rates, to a great decrease in the traffic earnings. The executive were, however, enabled to make a reduction in the engine mileage, of 173,000 miles, and a large reduction also in the staff, as well as other important economies, which will be referred to when the expenditure is dealt with.

Comparing this half year with the corresponding period of 1874, the passenger receipts show a decrease of £3,228, or 1.03 per cent, and the freight receipts of £99,068, or 14.41 per cent. The total number of passengers carried was 887,176 against 903,425; and the quantity of freight was 880,221 against 908,750 tons. The average receipt per passenger was 6s. 1½d. against 6s. 1d., and per ton of freight 13s. 4d. against 15s. 1½d. The loss of receipts on the freight traffic has arisen almost entirely from the lowness of the rates, because, although the number of tons carried was less by 28,000, the whole of the traffic was conveyed an average distance of 25 miles further than in 1874, which was equivalent to carrying 956,000 tons for the average distance (290 miles) of the corresponding half year in 1874; and as compared with that half year there was an addition of 5½ per cent to the work done. The following is a comparative statement, showing the average distance each ton has been carried, and the average rate per ton per mile received since 1872, viz:

Half year to	Tons of Freight.	Average distance carried. Miles.	Average rate per ton per mile. Cents.
30th June, 1875...	880,221	315	1.07
" 1874...	908,750	290	1.31
" 1873...	772,572	262	1.49
" 1872...	737,361	286	1.42

The remuneration, therefore, for doing the same work—that is—for moving a ton of freight a mile, was, in 1874, 12 per cent less than in 1873; and in 1875, 28 per cent less than in 1873, and 18 per cent less than in 1874. Comparing the average rates ruling in the past half year with those received in the corresponding half years of 1874 and 1873, it will be found that, if the same rate per ton per mile had been obtained as in those years, the gross receipts would have been increased by £135,000 and £240,000 respectively, the greater portion of which would have been available as net revenue. This unforeseen depreciation in the rates, which has so seriously affected the prosperity of the company for the last two years, is not exceptional in its operation, but has affected, and even more adversely, many of the other lines carrying similar traffic. A comparison of the average rates per ton per mile received by the Michigan Central, and the Lake Shore and Michi-

gan Southern Railroads shows equally unfavorable results. The directors of the Michigan Central Company in their report for the twelve months ended on the 31st May, 1875, say: "The rate per ton per mile of all freight carried shows the earnings from every ton of freight for every mile it is carried, and the reduction of this rate is the measure of the reduced earnings in each year. This rate for earnings in each ton carried one mile, averaging all the business was in—

	Cents.
1875	1.16
1874	1.20
1872	1.56
1870	1.98
1867	2.09
1866	2.60
1865	3.06

The report of the directors of the Lake Shore and Michigan Southern Company for the year ended on 31st December, 1874, shows the following results:

	Receipts per ton per mile. Cents.
1874	1.180
1873	1.335
1872	1.374
1871	1.391
1870	1.504

During the past half year the decrease in the gross receipts of the following railways, as published, has been—

Lake Shore and Michigan Southern	20 per cent.
Great Western of Canada	20 "
Northern of Canada	18 "
Michigan Central	15 "
Whilst the decrease on the Grand Trunk has been	10.64 "

The working expenses for the half year amounted to £701,460 or 78.54 per cent. of the gross receipts, against £782,002, or 78.23 per cent., for the corresponding half year of 1874, showing a decrease in expenditures of £80,542, and an increase in the per centage of expenses to receipts of 0.31 per cent. As the loss of gross revenue was £106,393 the result of the half year shows a decrease in net revenue of £25,851. In making a comparison it must be remembered, however, that there has been an increase in the amount of work done, as explained in Section 11, of 5½ per cent., and a decrease in the scale of remuneration of 18 per cent. compared with the June half of 1874, so that there has been an important diminution in the cost of transportation, although, owing to the disastrous effect of the weather upon the traffic receipts during the first quarter of the year no reduction in the principal items of expenditure was possible during these months. It is obvious that with a loss of gross receipts in one week of £14,000, and in another of £10,000, mainly arising from the obstruction of the line by snow, no corresponding reduction could be made in the expenditure. Men cannot be dismissed from and taken into the service again in the space of a week: and even if it had been otherwise practicable, the circumstances required that the energies of the whole staff should be devoted to keeping the line clear and the stations open. In the second quarter of the year reductions of the staff were made in every department, and the total number of men employed on the line was reduced from 10,200 in 1874, to 8,753 in 1875, being a reduction of 1,447, or nearly a seventh of the whole staff. The accounts show that there has been a diminution of expenditure under every head, excepting those of "miscellaneous expenses" and "rent of rolling stock," which have been slightly increased. The details under each department are hereafter referred to. The total expenditure for maintenance of way and stations, and for renewals was £140,699. Of this amount £74,709 has been charged against the balance of £113,000 remaining out of the sum formerly set aside to provide, out of capital, a portion of the cost of relaying the line with steel rails, leaving a charge for the half year of £65,990 against revenue account. The expenditure in this department is always much less in the first than in the second half of the year, owing to the shorter period during which renewals of road and repairs of structures can be carried on. Every reduction compatible with safety has been and will be made in this, as in every department, while the present extraordinary depression of business exists; but it must be remembered that these reductions have only been rendered possible by the large and well directed expenditure on maintenance and renewals during the past five years. From 1870 to 1874 inclusive, the amount expended in this department, borne entirely out of revenue, reached nearly 21 per cent., or fully one fifth or the whole gross receipts of the undertaking from all sources. The amount thus actually expended during these five years in maintaining and renewing the road way and structures was not less than £1,850,000, or an annual average of £370,000, whilst an additional large sum has been contributed out of capital for the extension of sidings, wharves, and stations, for ballasting, and towards the cost of relaying the line with steel rails. The larger proportion of expenditure in this department is necessarily upon those sections of the line over which the great volume of traffic is carried, and there are portions of the undertaking, such as the Riviere du Loup and Arthabaska Branches, nearly 160 miles in length, where the traffic is so light and the consequent injury to the structure so inconsiderable that the expenditure required is comparatively very slight. The following comparison of the expenditure for maintenance of way and renewals during the five years from 1870 to 1874 inclusive, shows the proportion of gross revenue expended by this Company to have exceeded that of its immediate neighbors, viz:—

	Per centage of gross receipts.
Grand Trunk Railway, including all leased lines and the Riviere du Loup and Arthabaska Branches	20¼
Great Western Main Line, not including leased lines	18¼
Lake Shore and Michigan Southern	18¼
Michigan Central	11½

The improved physical condition of the line, the direct result of this large expenditure, would appear to warrant the anticipations held out by the Engineer in his report, that "future maintenance will show the economy of the outlay, commencing with the laying of steel rails in 1870." In the locomotive department the expenses were £278,171. or 31.14 per cent. of the gross receipts, against £286,064 or 28.62 per cent. in 1874, showing a decrease in expenditure of £7,893. In the Car Department the expenditure has been £80,105 or 8.97 per cent. of the gross receipts against £85,824 or 8.59 per cent. in 1874, resulting in a decrease in the expenditure of £5,719. The cost of repairing and renewing cars was .681 cents against .753 cents per car mile, and 10.04 cents against 11.30 cents per train mile in 1874. The traffic expenses were £221,157, or 24.76 per cent. of the gross receipts, against £235,845 or 23.60 per cent in the corresponding half year in 1874, showing a decrease of £14,687 or 6.23 per cent. in traffic expenses, against a decrease in the gross receipts of 10.64 per cent. There has been a decrease in every item except in that of cattle "killed." Any reduction in the item of "Wages" during the first quarter of the year was found as impossible in this department as in the others. Trains were reduced in length, and more had consequently to be run, to do the required work, and this involved the employment of an increased number of hands, and in many instances extra staff at stations. It is satisfactory to be able to report that the reduction in wages which reached to £1,600 in the last month of the half year has been since carried to £3,000 in the month of July, and to £5,000 in the month of August. The expenditure under the head of "General Charges" was £19,916, against £20,560 in 1874, showing a decrease of £644. The "Miscellaneous Expenses" have been principally increased by an addition to the municipal taxes paid by the Company of £354, and to the premiums paid on insurance of £462. The former is an ever increasing item in Canada, and the latter necessarily bears a proportion to the value of the Company's property. The "Rent of rolling stock" shows an increase of £548 over the corresponding period of 1874, a result pointed out in former reports as likely to arise. In the "Tolls paid" there has been a reduction of £3,068, which includes the rent formerly paid for the Toronto Station, now owned by the Company, and the reduction in the interest paid on the International Bridge capital through the operation of the sinking fund. The receipts in the United States currency were 3,817,977 dols., against 3,029,352 dols., of which 722,348 dols. was converted into gold, against 496,682 dols. in 1874, entailing a loss of £15,926 against £9,019, being an increase of £6,907. For the past half year the loss on this currency has been deducted from the total amount of gross revenue. Gold fluctuated during the half year from 114¼ on the 1st April to 117¼ on the 22nd June. The average being about 116 against an average on the corresponding period of 1874 of 112. The total charge to Capital Account during the half year was £299,973. Of this amount £111,120 was for discount on the issue of new Capital, Exchange, and Bankers' Commission; £74,709 was the contribution from Capital towards the cost of laying Steel Rails; £24,000 was applied in redemption of 6 per cent. International Bridge Bonds, and the remaining amount of £90,134 on Land purchases, new Works and Stock, and completing the new Ferry Boat at Sarnia. The balances chargeable against Capital, in respect of Steel Rails, is £38,300, which will be charged in the December half of the current year, after which no further amount will be expended out of Capital for Steel Rails. During the half year £600,000 of Perpetual 5 per cent. Debenture Stock was issued, the proceeds of one half being specially set aside for the purchase of certain Cars, and the Union Station at Toronto, in accordance with the objects of the "Debenture Stock Act, 1874." The Ferry Boat at Sarnia has been completed, which will secure the Company from the possibility of a serious interruption to its connections there, and the elevator at Portland, which will shortly be ready for use, will add greatly to the means of shipping grain at that port by the Company. The destruction by fire of the General Offices of the company at Montreal on the 9th March last, referred to in the Report of the Directors for December, 1874, has resulted in a loss (over and above the amount received for insurance) of between £7,000 and £8,000, which will be charged against the Revenue Account: but this includes a considerable amount expended in fitting up new offices, and the employment of extra staff to replace papers, returns, and documents lost. In this Report the Directors have endeavored to enable the proprietors to understand fully the causes which have interfered to prevent as yet the realization of more favorable anticipations. The main sources from which results must arise in an undertaking such as the Grand Trunk are traffic, and rates, and economy in working. On the questions of traffic and rates, the officers of the Company, and those of some of the principal railroads in the United States, are of opinion that some improvement will now take place, and that, as Mr. Joy states in his report already referred to, "it is now hardly possible the worst has not been reached." As to economy in working, continued exertions are being made by the Executive in Canada in this direction, and the effect of the reduction of the staff and other arrangements, carried out in the latter part of the past half year, will, it is believed, tell more favorably in the future. In conclusion, the Board desire to express their hearty appreciation of the energy and devotion shown by the General Manager, the Traffic Manager, and the whole staff of the Company, in coping with the difficulties of the past half year, which have taxed to the utmost their skill and patience.

Lamp-Post Boxes.

The following opinion of the Assistant Attorney General of the Post Office Department, as to whether the deposit of legal notices in ordinary lamp-post boxes is equivalent to a deposit in the Post Office, will be read with interest by lawyers and others:

OFFICE OF ASSISTANT ATTORNEY GENERAL OF THE POST OFFICE DEPARTMENT, WASHINGTON, Sept. 1, 1875.

SIR: This department could not give an authoritative decision of the question addressed to you, in the letter of Mr. Marvin Ingraham of the 30th ult., (which you have referred to me,) "whether in cases where it is declared by statute that legal notices must be deposited in the post offices when they are mailed, it is sufficient that they be deposited in ordinary lamp-post boxes."

The only reply that could probably be made by this department to the letter of Mr. Ingraham would be a statement of the character and purpose of those boxes, under the law authorizing them to be established.

The "lamp-post boxes," as they are ordinarily called, are established by the Postmaster General under express authority of law, where letter carriers are employed, and in other places where, in his judgment, the public convenience requires them as receiving boxes for the deposit of mail matter, and from which the matter deposited therein is collected and mailed as often as public convenience may require (See section 3,868, Revised Statutes of the United States;) and they are protected as other receptacles established by the Postmaster General for the safe deposit of matter for the mail or for delivery. (Section 3,869, Revised Statutes.) They are considered by the department as postal facilities provided by law, attached to a post office for the purpose of expediting or making more convenient the mailing and delivery of mailable matter; and to the extent of the use to which they are adapted, and for which they are provided, may aptly be assimilated to another postal facility—branch post offices—established for a like, but larger use. I am very respectfully,

(Signed,) T. A. SPENCE,
Assistant Attorney General for the Post Office Department.

To Hon. MARSHALL JEWELL, Postmaster General.

The Coal Trade.

The total tonnage for the week ending on the 23d ultimo, as reported by the Miners' Journal, was 582,669 tons, against 567,481 tons the week previous, an increase of 15,188 tons. The tonnage for the week ending on the 30th ultimo, will be still larger, and probably the largest of the year. The Reading Railroad, it is expected, will report over 200,000 for that week. The anthracite tonnage for the year up to the 23d ultimo, was 16,308,081 tons, against 16,567,787 tons to corresponding time last year, a decrease of 259,706 tons. The bituminous tonnage for the week was 89,961 tons, and for the year 3,204,699 tons, making a total of all kinds for the week of 672,630 tons, and for the year 19,512,780 tons, against 19,550,305 to corresponding date last year, a decrease of 37,525 tons. At Port Richmond for the week ending the 30th ultimo there were receipts of 80,000 tons of coal, shipments of 60,000 tons, leaving 200,000 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the last week was 108,866 tons, and for the year 3,403,157 tons, of which 2,776,271 was coal, and 539,692 coke. This embraces all the coal carried both east and west. The shipments of coal over the Lehigh Valley branch road from Easton to Perth Amboy is gradually growing in importance, and its managers give to it close supervision, neglecting nothing that will increase its business. For the week ending on the 23d ultimo there were received at Amboy 19,111 tons, making the total received to that date 239,858 tons. The shipments for the week were 20,343 tons, making the total shipments to that date 220,439 tons, and leaving on hand 22,990 tons. The Philadelphia *Ledger*, from which the above is obtained, says:

It is believed that the total tonnage of coal for the month of October will be the largest of the year, though not so large as in October last year, which, if we remember rightly, was then nearly 900,000 tons. A slacking off in production henceforth to the end of the year is probable, unless there shall be an unexpected revival in the iron trade. While it is not denied that the iron interest everywhere has been greatly depressed for the past two years, thus aggravating the depression in anthracite coal, we are gratified in being able to state that there are now some evidences of improvement at the furnaces and mills in the eastern part of this State. Within two months nearly all the iron works in this section of the State were almost entirely without orders. This is now changed for the better. One largely in the business, and connected with two or three works, now informs us that his mill is fully supplied with orders for all the rails it can make for the remainder of this year. This is encouraging, though the trade is still much depressed, and especially so at Pittsburg and the West generally. There is no interest, probably, more nearly at the bottom, nor any in which those engaged in it are more pinched for ready means to keep afloat, than those engaged in the manufacture and working of iron. The future outlook, however, is a little more encouraging, and if what is felt to be the crisis of the trade can be carried over, a slow and permanent revival to the survivors may be reasonably calculated upon.

District of Columbia Funded Debt.

Below is given an exhibit of the funded indebtedness of the District of Columbia, and of the late Corporations of Washington and Georgetown, October 1st, 1875, furnished by the Treasurer of the Sinking Fund Commissioners, Mr. Moses Kelly:

Of the District of Columbia:		
Permanent improvement coupon bonds, issued under an act of Assembly, approved July 10, 1871, 6 per cent gold interest	$4,000,000 00	
Permanent improvement coupon bonds, issued under an act of Assembly approved June 23, 1873, 7 per cent currency interest	147,800 00	
Permanent improvement coupon bonds, issued under an act of Assembly approved June 25, 1873, 7 per cent currency interest	530,000 00	
Market stock coupon bonds, issued under an act of Assembly approved August 23, 1871, 7 per cent currency interest	152,400 00	
Water stock coupon bonds, issued under an act of Assembly approved July 20, 1871, 7 per cent currency interest	450,000 00	
Water stock coupon bonds, issued under an act of Assembly approved June 26, 1873, 7 per cent currency interest	26,000 00	
County school coupon bonds, issued under an act of Assembly approved June 26, 1873, 7 per cent currency interest	9,000 00	
Making	$5,314,700 00	

($3,400 of the county school coupon bonds have been retired since July 2, 1875.)

Of the late Corporation of Washington:		
Funding loan bonds issued under an act of Congress approved May 8, 1872, 6 per cent gold interest	$1,150,000 00	
Funding loan bonds, issued under the act of Assembly approved June 20, 1872, 6 per cent gold interest	1,200,000 00	
Ten-year (Bowen) coupon bonds, issued under an act of Congress approved July 27, 1868, 6 per cent currency interest	292,200 00	
Three-year (Emery) coupon bonds, issued under an act of Congress approved July 7, 1870, 7 3-10 per cent currency interest	1,050 00	
Five-year (Emery) coupon bonds, issued under an act of Congress approved July 7, 1870, 7 3-10 per cent currency interest	180,000 00	
Registered stock, act August 19, 1828, 5 per cent currency interest	54,807 00	
Registered stock, act October 25, 1843, 6 per cent currency interest	658,517 22	
Registered canal stock, act April 14, 1847, 6 per cent currency interest	48,800 00	
Registered water stock, act June 2, 1859, 6 per cent currency interest	600 00	
Making	$3,562,974 22	

($67,550 of the above bonds have been retired since July 15, 1875.)

Of the late Corporation of Georgetown:		
Registered general stock, 6 per cent currency interest	$180,885 00	
Registered general stock, 8 per cent currency interest	20,000 00	
Registered bounty stock, 6 per cent currency interest	20,000 00	
Registered market stock, 6 per cent currency interest	30,804 21	
Steam force-pump coupon bonds, issued under an act of Assembly approved June 26, 1873, 7 3-10 per cent currency interest	8,500 00	
Making	$260,189 21	

RECAPITULATION.

Of the District of Columbia	$5,314,700 00
Of the late corporation of Washington	3,562,974 22
Of the late corporation of Georgetown	260,189 21
Total	$9,137,863 43
Less funding loan bonds, act June 20, 1872, not disposed of by the Commissioners of the Sinking Fund	537,700 00
Actual amount outstanding	$8,600,163 43

The Commissioners of the Sinking Fund hold the following assets, which, if disposed of, would still further reduce this amount, as follows:

Chesapeake and Ohio canal bonds, now selling at 116, par value	$75,000 00
Washington and Alexandria railroad bonds, now in litigation, par value	59,000 00

THE 3-65 BONDS.

Amount of 50-year 3-65 bonds, issued under an act of Congress approved June 20, 1874	$10,594 550 00

☞ A dispatch to the Toronto *Globe* from London, England, says the report of the Great Western Railway of Canada for the half year announces that there will be no dividend. The deficiency is £141,000.

☞ Arrangements have been made for the building of the Seattle and Walla Walla (W. T.) Railroad from Seattle to the coal mine on Cedar river, a distance of some twenty miles.

To Railroad Companies.

The undersigned, a committee appointed by the Governing Committee of the New York Stock Exchange, beg to call your attention to a matter concerning which much interest is now felt, not only by members of the Exchange but by the public generally—viz., the regular and frequent publication of earnings and expenses by the corporations represented at the Exchange. While we are aware that there may be, in some cases, valid objections to such publicity, we believe that much more powerful reasons exist in its favor.

We base our request, in the first place, on the ground of expediency. Although some companies may advance the theory that frequent and complete reports would expose them to undue taxation, as well as to persecution from lobbyists and corrupt legislative bodies, it must be remembered that none of the organizations in the securities of which we deal are close corporations, and that the public is entitled to, and, sooner or later, will have, full knowledge of their financial condition. Moreover, efforts to conceal the truth naturally stimulate curiosity and give rise to questions and rumors which often do more harm than publicity would. Suspicions are more easily roused now from the fact that many railroads which formerly published their earnings regularly ceased to do so only when their receipts showed a marked decrease; but we think it will hardly be denied that such a policy has proved to be a mistaken one. In no case has the credit of a company been preserved, and in many instances its loss has been hastened by the doubts and fears to which concealment has given rise. And now, that the worst is known about the most of those companies which have had anything to conceal, it would seem to be a good time to inaugurate a new and better policy.

But our strongest claim is the fact that the New York Stock Exchange represents, through its members and their constituents, the great majority of the stockholders of the many corporations on its list. Who is entitled to prompt and trustworthy information if we are not? How can we deal intelligently without such information? It is an incontestable fact that thousands of speculators and investors have ceased to trade through us simply because we could not give them reliable data concerning the securities in which they wished to deal. We presume no one will be bold enough to claim that a favored few are entitled to this knowledge to the prejudice of the many; but the fact remains that the few officers and their friends do get it while the many stockholders must be content to wait and receive it at such times and in such manner as it may be doled out to them. This unjustifiable action has done more than anything else to bring railroads, especially, into disrepute. "Speculating Directors" have become so odious that we feel that honest officers owe it to themselves, as well as to the public, to correct this evil state of affairs, and we appeal to you in the earnest and confident hope that you will give us the aid of your influence. We are already sure of the cordial co operation of many prominent men connected with railroads and other organization, and we believe that the desired result will be secured without great delay.

Please inform us whether you will consent to furnish us with an official monthly statement of the earnings and expenses of the company under your control? In case you have objections we will consider it a favor if you will state them to us.

All communications should be addressed to the chairman of this committee, at No. 4 Broad street.

BRAYTON IVES, Chairman.
SALEM T. RUSSELL,
DONALD MACKAY.

☞ At a recent meeting of the friends of the Pittsburgh, Wheeling and Kentucky Railroad, at Wellsburg, Va., Mr. Hubbard, President of the road, was introduced and gave a very satisfactory statement of its condition, showing beyond a doubt that the enterprise is in a fair way to completion.

Manhattan Railway.

The stockholders of the Manhattan Railway Company expect to hold a meeting on Monday, the 8th inst., for the purpose of electing nine Directors and to organize in compliance with the requirements of their charter. Most, if not all, of the holders of stock in the Manhattan Railway Company are stock owners in the Greenwich Street Elevated Line, and also of what is known as the Gilbert right of way through the City. These gentlemen, chief among whom are Milton Court right, David Dows, Alexander E. Orr, John F. Tracy, and Jose Navarro, are inclined to the opinion that they will perhaps not have to avail themselves of the privileges granted by the Manhattan Company's charter. They are of the belief that the charters heretofore held by them, that is to say, the Greenwich Street Railway and the Gilbert plan, are sufficient authority under which to build elevated railroads through certain streets in this City. But in order to prevent any possible mistake it is deemed expedient to organize under the new charter, as, should they fail in one, the other will secure them their rights in the premises. Something has been said of the next Assembly interfering with rapid transit, but of this the stockholders of the Manhattan Company have no fear. They recognize the right of the Assembly to repeal a law at any time, but they do not expect anything of the kind to occur so far as their charters are concerned. The Board of Rapid Transit is still in existence, but the Commissioners have nothing to do except to care for the $100,000 paid up of the $2,000,000 capital stock of the Manhattan Company. This sum will remain in their hands until the stockholders organize, as above mentioned, when it will be transferred to the Directors, and then the board will pass out of existence. The Greenwich Street Railway Company in the interim is doing all it can to make itself popular with the public. Its line will be completed as far north as Central Park within thirty days, and a new turnout is being constructed at Thirty fourth street. The company is preparing in other ways for the Winter travel.

☞ At the annual meeting of the New York, Providence and Boston R. R. Co held at Providence R. I., on the 27th ult., the following directors were elected: Samuel D. Babcock, Henry Morgan, Wm. F. Cary, Jr., J. Boorman Johnston, D. S. Babcock, and George M. Miller of New York; Henry Howard of Coventry, R. I.; Charles M. Salisbury of Providence; Nathan F. Dixon of Westerly; John A. Burnham of Boston; A. S. Mathews of Stonington. The receipts for the year ending Aug. 31, 1875, were $968,170; expenditures $559,629; net earnings $408,541.

☞ At the annual meeting of the Danbury and Norwalk Railroad Company, held at Danbury, Conn., on the 28th ult., the following officers were elected for the ensuing year: President, Roswell P. Flower, of New York; Vice President, James W. Hyatt, of Norwalk, Conn.; Secretary and Treasurer, Harvey Williams, of Danbury, Conn.; Superintendent, John W. Bacon, of Danbury, Conn.

☞ R. E. Robbins has been elected President and Thomas Tinker Secretary and Treasurer of the Waltham and Newton (Mass.) Horse Railroad company.

Eureka and Palisade Railroad.

The completion of the Eureka and Palisade Narrow Gauge Railroad to Eureka, Nevada, was formally celebrated at the latter place on the 22d of October. The road is about ninety miles in length, and is owned principally by Edgar and D. O. Mills, of California. The construction of the road has involved an outlay of about $1,000,000, all of which has been borne by the above gentlemen without asking any aid or subsidies from the counties through which it traverses. The completion of the road is looked upon as one of the most auspicious occasions occurring in the history of the young commonwealth, and Eureka now extends to the world its cordial invitation to come and visit her mines and view the wealth of the great East.

☞ Articles of incorporation of the Mendocino Railroad Company have been filed with the Secretary of State of California: organized for the purpose of constructing and maintaining a railroad in Mendocino county, five and a half miles in length. Capital, $150,000, in shares of $100 each. Directors, James McKinley, Charles Athearn, West Evans, A. W. Hall and George C. Perkins. The principal place of business will be in San Francisco.

☞ The comptroller and treasurer of the State of Maryland give notice that on or before the 1st of January next they will redeem, at the comptroller's office in Annapolis, all that portion of the "defense loan" of the State issued under the act of 1864, chapter 15, and that interest on the same will cease on that day.

☞ The town of Packwaukee, Marquette Co., Wis., voted $6,000 to the Wisconsin Central Railroad Co., to aid in the extension of that road from Portage City to Stevens Point, and E. McCaffrey, chairman of the Board of Supervisors, has delivered the bonds in trust to the National Exchange bank of Milwaukee.

☞ The business of the Sault Ste. Marie Canal for 1875 shows quite an increase over the preceding year, notwithstanding the dullness in the iron trade. In 1874 the passages through the canal were 1,734, this year they are 2,033; last year's tonnage was 1,070,857; this year's is 1,259,583; the tolls of 1874 were $37,764; for 1875 they are $41,199.

☞ On Monday, Nov. 1, Wagner's Drawing Room and Sleeping Cars commenced running through from Boston to Chicago without change on trains leaving Boston at 5 P. M. daily, via Boston and Albany, New York Central, Lake Shore and Michigan Southern; also via Great Western and Michigan Central Railroads.

☞ A general meeting of the stockholders of the Baltimore and Ohio Railroad Company will be held at the office of the company in Baltimore on the 15th inst., for the purpose of electing twelve directors for the ensuing year.

☞ The Milwaukee *Wisconsin* says that all the stock has been taken in the narrow gauge railroad at Burlington, and the company now advertises for bids to build the road, the work to commence at once, to be finished this year.

☞ The Wilmington, Delaware, car-building industries are reviving.

American Railroad Journal.

Saturday, November 6, 1875.

Financial and Commercial Affairs.

Money has been quite actively sought after through the week, in good part for legitimate business purposes, and in part, too, to provide for the 1st of November interest and dividend disbursements of which very liberal estimates have been current. Speculation at the Stock and Gold Boards has been comparatively brisk and, as a rule, buoyant, which served to afford more lucrative employment for the accumulations of capital at this point. Call loans have been quoted generally firm at 3@5, and the best discounts at 6@7 per cent per annum. On this basis lenders have met with promptness the requirements of the leading borrowers. While the City Banks gained largely in the specie line, through the U. S. Sub Treasury operations, and the arrivals from Europe, as well as California, they reported a further loss of legal tender reserve, and a falling off of deposits. They reduced their loans and discounts quite heavily; and also reported a slight contraction of circulation. Election Day here, and Bank Holiday in England tended to interrupt free movements in the financial and commercial lines. The City Banks reduced their reserve of legal tender notes $1,247,500, and their deposit item $2,395,500, while augmenting their specie average $3,514,300. They report a decrease of $4,669,800 in the loans and discounts, and of $181,500 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $58,976,012, against $53,977,928 the preceding week; and a coin hoard of $42,872,421 against $39,684,989,

on the previous return. The City bank exchanges in currency reached $448,669,059, or a daily average of $74,778,176. The customs revenue of the port, during the week, was $1,922,000. The City banks reported their average of gold last week at $9,920,900, and their greenback average, at $53,455,400. Their deposits stood at $221,076,290. The loan item was $275,914,900. The circulation was $17,997,700.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $8,107,250.

The aggregate of the outstanding U. S. currency, of all denominations, November 1st was $414,455,666. The outstanding amount of legal tender notes is $373,305,952. The National bank circulation is now $346,805,616, including $2,610,000 of national gold bank notes.

The specie shipments from San Francisco, January 1, to October 21st, were $37,779,306, against $23,681 734 same time in 1874.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $9,736,671; special deposit of legal tenders for the redemption of certificates of deposit, $60,880,000; Coin, $73,783,439; Coin certificates $15,645,100.

The week's import entries of Foreign Merchandise at New York were $5,781,876 including $1,349,656 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 39½ millions; and from Customs, 57½ millions.

Gold has been in active speculative demand at higher, though variable, prices. The announcement that only two millions of Government Gold would be offered for sale in November tended to stimulate the upward movement. The reports of the destructive fire in the Nevada mining capital also worked in the same line. The export drain was limited, and the customs inquiry moderate. The extremes of the price during theweek have been 115@116⅝, closing on Wednesday at 115⅛, as against 115⅝ on Wednesday of the preceding week. The specie outflow last week was $498,859 against $226,550 the previous week. The imports of specie at this port since Jan. 1, have been $10,876,571, against $5,822,555 same time last year. The customs demand for Gold last week averaged $320,333 per day. Foreign Exchange has been moderately active at irregular prices, leaving off at lower figures. Bankers' sixty day bills on London closed on Wednesday at $4 78@$4 79; sight bills on London at $4 83@$4 84 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,893,917. The week's imports of Dry Goods and general merchandise were to the specie value of $5,781,876.

The Public Debt Statement for Nov. 1st shows a further liquidation of $4,069,016 during October, and of $10,291,514 since the close of the last fiscal year, June 30, 1875.

The U. S. Sub Treasury receipts from all sources, in October, were $76,579,177 including $8,658,615 from customs; payments, $70,839,147 including $2 021,082 of coin interest.

Government will sell two million of Gold, during the current month of November—half a million on each Thursday of the month.

Government disbursed in October $12,537,432, exclusive of payments on account of interest and principal of the public debt.

Government Securities have been in much better demand at advanced prices, on very moderate offerings of nearly all issues. Another call for Five Twenties for redemption—this one for ten millions, half coupon, half registered—has been issued by the Secretary of the Treasury. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $367,799,312.

U. S sixes of 1881 closed on Wednesday of this week at 123@123¼; U. S. Five-Twenties of 1864, at 115¾@116; U. S. Five-Twenties of 1865 116¾@117; U. S. Five-Twenties of 1865, consolidated, 119½@119¾; U. S. Five-Twenties of 1867, 121¼@121½; U. S. Five-Twenties of 1868, 121¾@122; U. S. Ten-forties at 117½@117¾; U. S. Fives of 1881, (Funding Loan) 116¼@116½; Six per cent. currency Sixes, 123½@124.

State and Railway bonds have been in moderate request and generally held with more firmness. And in the line of Railway and Miscellaneous share property, business has been quite animated on generally stronger market, though fluctuations were of frequent occurrence.

General business, though checked, to some extent by the political excitement, which culminated on Election Day, has been comparatively good in most lines. The speculative cornering operations in Cotton, Pork and Lard, were against free movements in these commodities. Prices of Produce and Merchandise were unsettled also, under the Gold fluctuations. Hardware, Dry Goods, and Boots and Shoes were in less request. Metals have been in moderate demand at about former quotations. Eglinton Pig Iron quoted here at $29@$30; Glengarnock,$32@$33; Coltness, $33; No. 1 American Pig at $24@$25; No. 2 do. at $22 50@$23 50; Forge, $20@$22 50; English Rails at $47 50@$50, gold; American Rails, at works, $46@$50; Old Rails, $25@$26. Wrought Scrap, $30@$32 50. Ocean freights have been less active but quoted generally firm.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The New York Mining Exchange is rapidly becoming an accomplished fact. The promoters of the organization are men of the right stamp, and will make the Board permanent. We understand that in addition to Mining Stocks, Miscellaneous Securities and Insurance Stocks will be called. The Exchange will be located at 24 Pine Street.

Brooks Locomotive Works.

The Brooks Locomotive Works, of Dunkirk, N. Y., have received an order for eight additional locomotives for the Erie Railway. This, with the contracts now on hand will insure work for the force now employed, through the coming winter until April, by which time it is hoped the business of the country will have sufficiently revived to place the works back on the plane of all the work that can be performed. The news will be welcome, not only to the mechanics employed, but to the citizens of Dunkirk generally who are directly interested in the prosperity of the Locomotive Works. There has been, during the past year, a general depression in the business of locomotive building, throughout the country, but few shops doing anything at all. The Brooks Works, ever anxious to do all in their power for the help of their men, have kept running, although at a loss to themselves. They have now six locomotives on their hands, which were built for the purpose of giving men work, and with the hope of furnishing employment until contracts could be secured. By the energy and hard work of Messrs. Brooks and Hinman, that time has now come. Although this will not increase the present force employed at the shops, for the number now employed, it insures steady work through the winter months.

☞ Judge Dilion, of the United States Circuit Court, at Des Moines Iowa, has rendered a decree of forelosure against the Burlington, Cedar Rapids and Minnesota Railroad Company, and its four branches; for the sum of $7,000,000, and ordered the sale of said road at Cedar Rapids next month; a decree of foreclosure for $4,000,000 against the Davenport and St. Paul Railroad Company of a similar character; and a decree of foreclosure against the Iowa Central Railroad Company for $5,000,000, containing like provisions.

☞ Investors and Dealers in Railroad, State, City, and County and miscellaneous securities will find in A. J. F. Vandeventer, 61 Liberty Street, N. Y., a reliable party for the negotiation of all descriptions of Stock and Bonds, as well as securities of defaulting companies. Mr. Vandeventor having been for fifteen years with Messrs. M. K. Jesup & Co., has much experience in all Investment Securities, and makes a specialty of Mining Stocks, he being a member of the (New) New York Mining Stock Exchange.

☞ In the United States Circuit Court, at Atlanta, Ga., on the 29th ult., in the case of Wilmer and others, first mortgage bondholders, against the Atlanta and Richmond Air line Rail road Company his Honor decided in favor of the plaintiffs, and decreed that the Trustees shall sell the entire property. The first mortgage amounts o $4,248,000, the bonds being held principally in New York and Baltimore. The accrued interest unpaid to date is about $700,000. The road extends from Atlanta, Ga., to Charlotte N. C., a distance of 265 miles.

☞ The Portland and Ogdensburg Railroad was examined on the 2d inst. by the Maine Railroad Commissioners, who found it in excellent condition.

☞ B. E. Smith, of Columbus, Ohio, the only surviving trustee named in the mortgage deed of the consolidated European and North American Railway, has taken possession of the road.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Hatch & Foote,

BANKERS,

MISSOURI PACIFIC RAILROAD.

OFFICE OF THE ATLANTIC AND PACIFIC RAILROAD COMPANY,
No. 3 BROAD ST., NEW YORK, Oct. 28, 1875.

IN ACCORDANCE WITH THE SUGGESTIONS of the Committee of Missouri Pacific Stockholders, in their report made on the 26th inst., the Directors of the Atlantic and Pacific Railroad Company instruct me to offer to the stockholders of the Missouri Pacific Railroad $1,854,000 Third Mortgage Bonds of said Pacific Railroad at 75 per cent., stockholders to have the preference to purchase said bonds at that rate, until and including Nov. 10, 1875. The proceeds of said sales to be used only in liquidating the floating debt of said Pacific Railroad. An early response from the stockholders is requested.

ANDREW PIERCE, President.

INVENTORS. If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C. ☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

Chesapeake and Ohio Railroad.

A final decision was rendered by Judge Bond of the United States Circuit Court, at Richmond, Va., on the 30th ult., Judge Hughes, of the District concurring, in the Chesapeake and Ohio Railroad case. This decision was upon the application of the holders of $28,000,000 of bonds of the road, asking the appointment of General William C. Wickham, the Vice President, as permanent receiver, and, upon the application of the State Board of Public Works, asking the appointment of Isaac H. Carrington as receiver. The Court, in a previous order, had appointed Henry Tyson, of Baltimore, temporary receiver, and by the present decision that gentleman is made the permanent receiver of the road.

☞ The Master in Chancery, at Atlanta, Ga., to whom was referred, at the last term of the Circuit Court of the United States, matters in controversy between Henry Clews & Co. and the Cartersville and Van Wert Railroad Company, as to the liability of the latter to the former on account of bonds of the latter and money advanced for the construction of the road, reported $167,431 70 due Clews & Co. Exceptions were taken, and Judge Woods on the 30th ult. rendered a decision sustaining the report.

Chicago and Illinois River Railroad.

This road, as projected, was to extend from Chicago to Joliet in a direct line, and from that point direct to Streator, on the Vermillion, opening up a new and productive coal region. The road was completed from Joliet to Mazon River, 27 miles, last year, when the work was discontinued, owing to financial stringency. Since May of this year nothing has been done toward completing the road, but now Eastern capitalists have, it is stated, become interested, and have pledged a sufficient sum to secure its completion. It is intended to at once finish the road from the Mazon River to Streator, beyond which point the route has not been determined, and during the following year to Chicago. The construction of the remaining portion has been placed in the hands of F. E, Hinckley, who will proceed with the work as soon as the right of way is obtained at certain points. It is expected that the road will be equipped and in operation between Joliet and Streator the present year.

Statement of the Public Debt of the United States November 1, 1875.

Totals	$64,623,512 00	$1,292,470 24

Interest paid by United States, $28,202,807 70; interest repaid by transportation of mails, &c., $6,422,701 58; balance of interest paid by United States, $21,780,106 12.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, October 30, 1875.

R. H. BRISTOW,
Secretary of the Treasury.

Liability of Carriers.

The Supreme Court of Illinois has rendered an important decision regarding the liability of common carriers for goods lost by fire while in their care. In the case at issue, it seems the Merchants Dispatch Company shipped goods by the way of Chicago to a firm in Mattoon, Ill., and while the goods were in warehouse at the former city awaiting reshipment they were destroyed by fire during the great conflagration. The court held—

First. That the company is a common carrier, and therefore an insurer of all goods received by it for transportation against all accidents except arising from the act of God or public enemies.

Second. In the absence of a special contract (it seems) a common carrier must transport goods by the most usual, safe, direct, and expeditious route. Failing in any of these particulars, unless prevented by inevitable accident, he must be held liable for loss.

Third. The insurance continues to the end of the route, notwithstanding the goods may be stored in a warehouse by the way for reshipment.

Fourth. It was claimed that the great Chicago fire was the act of God; but the court did not decide this point, since the quickest and usual way of shipment to Mattoon was not through Chicago, but Indianapolis; so the matter turned on No. 3 supra.

THE

UPHOLSTERERS'

ELASTIC SPONGE

COMPANY,

No. 42 LAWRENCE STREET,
NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.

☞ The managers of the narrow gauge railroad project through Vermont, the southern terminus to be Shelburne Falls or Greenfield, are full of courage, despite the hard times. The preliminary survey has been made, enough stock has been taken to permit organization under the Vermont law, 10 per cent of the subscriptions has been paid in, and the towns have begun to bond. Additionally, H. Blanchard, President of the 41st Parallel Railroad at New York, is said to have promised that, if the towns would raise $6,000 to the mile, he would furnish funds to complete the undertaking.

Chesapeake and Ohio Railroad.

Mr. Henry Tyson, Receiver of the Chesapeake and Ohio railroad, on Saturday appointed Capt. W. M. S. Dunn, who has been engineer and superintendent of transportation, general manager of the railroad. Gen. Williams C. Wickham, who is vice president of the company, will hereafter have few or no duties to perform. The Richmond Dispatch of Monday says Mr. Tyson intimated on Saturday his purpose to retain in place the present officers and employees of the company as far as consistent with the economical and proper management of the railroad. The Dispatch expresses the hope "that as Mr. Tyson is the receiver during the settlement of the affairs of the railroad he will discharge his duties at least with a fair regard for the interests of a people who have invested so much in the road, and who depend so much upon it."

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

Redemption of 5-20 Bonds.

The following is the twenty ninth call for the redemption of 5 20 bonds of 1864 in full :

TREASURY DEPARTMENT, Nov. 1, 1875.

By virtue of the authority given by the act of Congress, approved July 14, 1870, entitled "An act to authorize the refunding of the national debt," I hereby give notice that the principal and accrued interest of the bonds herein below designated, known as "five twenty bonds," will be paid at the Treasury of the United States, in the City of Washington, on and after the 1st day of February, 1875, and that the interest on said bonds will cease on that day, that is to say, bonds of the act of June 30, 1864, as follows :

Coupon Bonds—$50, Nos. 3,701 to 4,300, both inclusive ; $100, Nos. 12 001 to 17,200, both inclusive ; $500, Nos. 18 001 to 22 000, both inclusive ; $1,000, Nos. 68,001 to 84,400, both inclusive. Total, $5,000,000.

Registered Bonds—$50, Nos. 151 to 370, both inclusive ; $100, Nos. 1,001 to 2,400, both inclusive ; $500, Nos. 751 to 1,600, both inclusive ; $1,000, Nos. 4,901 to 8,850, both inclusive ; $5,000, Nos. 2,201 to 3,165, both inclusive ; $10,000, Nos. 4,601 to 6,900 both inclusive ; total, $5,000,000 ; grand total, $10,000,000.

Of the amount outstanding (embraced in number as above) $5,000,000 are coupon bonds and $5,000,000 are registered bonds.

United States securities forwarded for redemption should be addressed to the "Loan Division, Secretary's office," and all registered bonds should be assigned to "The Secretary of the Treasury, for redemption."

(Signed) B. H. BRISTOW, Secretary.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size : can be repaired when worn by the rail ; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

Colorado Coal Fields.—The Denver and Rio Grande Railway.

It is the purpose of the Denver and Rio Grande Railway Company to extend their road from Pueblo to Trinidad, 100 miles. A large proportion of the funds have been subscribed in Philadelphia, and the remainder is guaranteed. The chief object of interest to moneyed men is the practically illimitable deposits of coal and iron found along the foot-hills of the Raton range, extending as far as the Cucharas, forty miles north of Trinidad, fifteen miles north of the dividing line between Colorado and New Mexico. These fields promise to furnish a constant supply of fuel and iron of the best quality, the first for use in reverberatory furnaces, the latter for machinery, railways, and the various other needs of our advancing civilization. Exploration in Northern Colorado has proven that its coals will not answer for this purpose. The fields about Cucharas and Trinidad, beyond the possibility of doubt, are capable of yielding just what is needed to insure the permanency of gold and silver smelting. To meet this requirement, however, one of two things must be done, viz: the laying of a third rail from Golden to Denver, or the completion of the Littleton cut-off, whereby coal trains destined for the mountains may be brought through without breaking bulk. Work on the first section of the line above referred to (sixty miles from Pueblo to Cucharas) will be commenced soon. Forty miles have already been graded. If there were no other inducement such as the San Juan, Santa Fe, and intermediate traffic, now settled and to be established at an early day, there would be ample reason for the extension of the Rio Grande Railway as far south as Trinidad, for the purpose of bringing to market the quality of fuel largely deposited there, which the manufacturing and bullion-producing interests of Northern Colorado cannot do without, because it is the only variety that will answer the purpose. It is a matter for general congratulation that the promise of speedy communication with that valuable quarter is now assured.—*Central City Register.*

The Miller Platform.

Hon. Charles Francis Adams, Jr., in an article upon railroad accidents, published in the November number of the *Atlantic Monthly*, thus describes the Foxborough accident, which happened in Massachusetts, on the Boston and Providence Railroad, July 16, 1872:

As an express train was running up to Boston about noon of that day, and at a rate of speed of some forty miles an hour, it came in contact with a horse and wagon at a grade crossing in the town of Foxborough. The train was made up of thoroughly well-built cars, equipped with both the Miller platform and the Westinghouse train brake. There was no time in which to check the speed, and it thus became a simple question of strength of construction, to be tested in an unavoidable collision. The engine struck the wagon, and instantly destroyed it. The horse had already cleared the rails when the wagon was struck, but, a portion of his harness getting caught on the locomotive, he was thrown down and dragged a short distance until his body came in contact with the platform of a station close to the spot of collision. The body was then forced under the cars, having been almost instantaneously rolled and pounded up into a hard, unyielding mass. The results which ensued were certainly very singular. Next to the locomotive was an ordinary baggage and mail car, and it was under this car, and between its forward and its hind truck, that the body of the horse was forced; coming then directly in contact with the truck of the rear wheels, it tore it from its fastenings and thus let the rear end of the car drop upon the track. In falling, this end snapped the coupling by its weight, and so disconnected the train, the locomotive going off towards Boston dragging this single car, with one end of it bumping along the track. Meanwhile the succeeding car of the train had swept over the body of the horse and the disconnected truck, which were thus brought in contact with its own wheels, which were also torn off; and so great was the impetus that in this way all of the four passenger cars which composed that part of the train were successively driven clean off their rolling gear, and not only did they then slide off the track, but they crossed a railroad siding which happened to be at that point, went down an embankment some three or four feet in hight, demolished a fence, passed into an adjoining field, and then at last, after glancing from the stump of a large oak tree, they finally came to a stand-still some two hundred feet from the point at which they had left the track. There was not in this case even an approach to telescoping: on the contrary, each car rested perfectly firm in its place as regarded all the others, not a person was injured, and when the wheelless train at last became stationary, the astonished passengers got up and hurried through the doors, the very glass in which, as well as that in the windows, was unbroken. Here was an indisputable victory of skill and science over accident, showing most vividly to what an infinitesimal extreme the dangers incident to telescoping may be reduced.

Redemption of 5-20 Bonds.

We gave last week the 29th call of the Secretary of the Treasury for the redemption of $10,000,000 United States bonds of 1864—$5,000,000 of coupon bonds, and $5,000,000 of registered bonds—the principal and accrued interest on which will be paid on the 1st day of February, 1876, on and after which day interest on the same will cease. The calls now outstanding for the 5-20 six per cents of 1864 are as follows:

Interest ceasing	November 18	$10,000,000
"	December 1	18,000,000
"	December 14	5,000,000
"	January 1	5,000,000
"	February 1	10,000,000
Total		$48,000,000

Of this amount about $17,750,000 are of the registered class, chiefly held in this country. When the issue of 1864 is exhausted the next class of bonds which will be called for conversion and redemption will be the issue of 6-20s of 1865. The bonds bear 6 per cent interest, payable in May and November. The amount now outstanding is $152,532,250.

Georgia Railroad and Banking Company.

The earnings of this road for the years ending March 31, 1874 and 1875, were as follows:

	1874.	1875.
From passengers....	$307,047 23	$272,467 76
" freight	1,239,336 69	983,864 52
" mails	25,401 10	25,554 96
	$1,571,785 02	$1,281,907 24
Expenses, viz:		
Conducting transp.....	$265,445 59	$230,455 94
Motive power.....	349,439 55	288,991 28
Maintenance of way...	212,044 76	243,094 98
Maintenance of cars...	60,521 09	68,555 70
	$887,450 99	$826,097 90
Earnings less expenses,	$684,334 03	$455,809 34
Out of which have been paid—		
For 1 new switch engine ..	$10,100 00	
For 1 small freight engine.	8,000 00	
For 1 new baggage car	3,000 00	
For new box, new coal and new cab cars..	40,033 50	
For 30 box cars purchased from the Dawson Manuf. Co.....	15,000 00	
For 2 new passenger cars, including cost of delivery	9,930 16

For new culverts.....	3,900 00	
		105,720 19
Leaving a balance of.		$350,089 15

In 1874 the extraordinary expenses amounted to $157,755 74, leaving the net profits in that year $526,578 29. Compared with the previous year, the gross earnings of 1875 show a decrease of $289,877 78, with a decrease in expenditures, both ordinary and extraordinary, of $113,388 64, making the decrease in net profits $176,489 14. The President in his report says:

The apology made for the short report at last Convention need not be repeated, though the same reasons for it, to some extent, still prevail. The accompanying report of the Superintendent, however, is so very ample in its details of the operations of the road for the past fiscal year, with the bearings of trade and other causes, by which its income has been affected, that the Board could add but little to what may be found in that document. Like most reports lately made of the business operations of Southern roads, the report is rather discouraging. A hasty criticism may pronounce it less favorable than the reports of other roads. This may be so, but it is due to truth and to the managers of the road the past year to examine carefully and impartially, and decide whether the controlling causes of these unfavorable results were under the control of the managers, or whether they were not entirely beyond their control, and many of them peculiar to the Georgia Railroad? There is one feature in which Southern roads resemble each other very closely since the war. None are paying regular dividends. The Georgia Road was the last to suspend regular dividends. Whether it will be the first to resume may depend upon the action of this Convention.

But what were the leading causes of the unfavorable exhibit of net earnings the past year? If beyond the control of the managers, the exhibit may affect the market value of the stock; but the officers and managers should be relieved from the injurious imputations which otherwise may be cast upon them.

To understand fully the leading causes of a depleted net profit for the last year, we should go back to the close of the war. In his report of 1867, the Superintendent says:

"At the close of the war, the track and rolling stock were so badly run down that they were considered unsafe, even with a schedule for passenger trains of 17 hours between Augusta and Atlanta. Out of some 700 cars owned by the Company, only about 70 were in running order, and scarcely one of them could be considered entirely safe. Fully one half were entirely lost or destroyed, and all that were saved required rebuilding or extensive repairs.

"Out of over 50 locomotives, only about 12 could be trusted with any degree of safety, and they requiring general repairs. Bridges over the Oconee and Yellow River to be rebuilt, together with all the depots for seventy miles, with the track destroyed by the march of Gen. Sherman, and no material on hand, in any of the departments, to commence with," etc. He might have added the extensive and costly buildings at Atlanta—Depot, Round House and Machine Shops—all destroyed!

Such was the condition of affairs, at the close of the War in 1865!

To restore, repair and renew this dilapidated property, was something like building a new road. Yet in the face of all this, and despite of all this, the Board ordered the commencement of dividends in 1866, when the restoration of property had scarcely commenced, and the circulation of the old Bank was pressing for redemption? The President reminded the Board of the state of affairs, and thought dividends were premature, and should be postponed until more progress had been made in providing for restoration of property, and payment of the floating debt. The stockholders, however, were known to be needy, and the directors were believed to be honest. They believed that with current receipts, and the aid of the fragments of the old anti war surplus, dividends might be declared, and the cost of restoration paid at the same time. This anti war surplus legally justified the dividend, but it was invested in securities, and not available as cash, without inadmissable sacrifices. Dividends were, therefore, in advance of the cash means of the company. Our neighbors, who had suffered from similar causes, obtained large loans on onerous terms, and renewed at once both iron and outfit, thereby increasing their bonded debt at a sacrifice, but relieving the management by furnishing new iron and outfit. The Georgia Railroad made no mortgage, nor made any increase in debt. The few new bonds issued were in renewal, or in liquidation of the circulation of the old Bank.

In a comparison, therefore, of net profits from gross receipts, the disadvantages under which the Georgia Railroad labors will be readily perceived. The road was without sufficient rolling stock, and without machine shops, round houses and depots, and the whole road was run down, and rapidly reaching the maximum of wear and decay. No loans were made for restoration and renewals, which have been heavy, and being charged to receipts, have of course made a very unfavorable exhibit of net profit. The renewal has never been completed, whilst the maximum of decay has been constantly pressing and absorbing the earnings for extra expenditures. The unrenewed section of the road, too, required extra vigilance and watching as a security against broken rails and other accidents, and the fidelity of this vigilance and extra caution is proved by the regularity and freedom from accident with which the road has been run in all seasons and in all weather, which will compare favorably with any road in the Union. The expensive work of renewal and renovation is now far advanced, and when completed, this heavy charge upon income for extra expenditures will cease, and receipts will be charged only with ordinary expenses.

Another disadvantage under which the management of the Georgia Railroad labors in comparison with other roads is the unprofitable branches with which it is encumbered. Side lines are always troublesome, and short branches are generally a dead weight upon the main line.

Another disadvantage under which our road labors in the economy of management is the construction placed by the Supreme Court upon our charter, by which the profit of our local business is nearly annihilated; It is hoped that decision may be reviewed or in some way modified. The loss on this account for the last fiscal year is reported at $82,125 90!

Again, new and increased competition at Atlanta by opening of the Richmond Air Line, and the unnatural competition of the Chesapeake Road and connections, by which trade has been diverted at a loss. These, and some other causes, have diverted our Northwestern business and impaired our income the last year, as stated by the Superintendent. They may be unfortunate, and justly affect the value of our stock, but certainly could not have been controlled or prevented by management. After all, the company could probably have continued dividends—though prematurely commenced—but for heavy responsibilities for, and loss by, other roads, into which the company was forced to preserve its connections. This is one of the curses attendant upon long through lines to cheapen transportation from distant points; and if all roads would confine themselves to the limits embraced in their charters, it would probably be better for the railroad interest generally, though prejudicial to the consumer of distant products. Whilst the present system of long connected through lines continues, however, the different links are, to some extent, identified, and the weaker links have to be trusted and sustained by the stronger, either by advances, endorsements, or subsidies in some form, or the line will be broken. The stockholders need not be reminded of the reluctance with which the Board was driven into these responsibilities. When originally contracted, but little loss, if any, was seriously apprehended, and there are some indications that the loss may not be as large as at one time apprehended. But in the present condition of the country, conjecture is idle.

At the April meeting of the Board a resolution was passed, intended to be provisional, for the reduction of fares to ante bellum rates. The final adoption was postponed until the first of June, that further time might be given for deliberation, and that this Convention might intervene. Other roads are concerned, and without their sympathy and cooperation the object could not be accomplished. The policy of low fares presents a compound question, and involves a question of population to be reached by it. It was thought that such population might be found in our freedmen, who are numerous and fond of travel, but from recent emancipation, have not much surplus means. As other roads seem to oppose the policy, and decline to cooperate, the resolution had better, perhaps, be recommitted, and its execution subjected to further consultation with other roads.

The finances of the company still suffer by the growing and pernicious claims of dead headism. Efforts should be made before the Legislature to follow the wise example of some of the Northern States, and put a stop to this fraud upon the rights of shareholders by law. And why not? It is a peculation and a fraud, and should be punished like any other fraud. We are glad to see that this evil is beginning to claim the attention it deserves, not only as an abuse by the officers of railroads, but by the officers of Government. By a providential interposition, the Government and people were saved the disgrace of dead heading to Mexico in a Government vessel, at heavy expense, a large party, with families and friends, in pursuit of pleasure or business speculation!

The stockholders will be struck with the large increase of expense for lawyers' fees. This is becoming a public grievance, and ought to be modified by law. The fee bill was probably fixed pending the late civil war, when Confederate money was 5 or 10 cents in the dollar, and has never been changed. All know that the charges are enormous, and generally out of all proportion to the services rendered. Moreover, there appears to be a certain class who believe it their peculiar mission to stir up frivolous and vexatious litigation, and keep it alive, on a guaranty of recovery or no pay. The law, when honorably practiced, is

a noble profession, (and there are still many honorable lawyers.) But when practiced otherwise, and allowed to run into champerty and maintenance, it becomes one of the vilest of trades.

The Board is happy to learn, on inquiry, that the late effort to reduce expenses has been attended with very encouraging results. It is an ungracious duty to reduce the pay of honest laboring men, especially those with families, below a point that furnishes a comfortable subsistence. But this becomes a necessity in some cases, and the cheerful acquiescence with which the reductions have been submitted to greatly strengthens the obligation to restore full pay, so soon as the business of the company will unable it to do so.

The stockholders will recollect, that at the last Annual Convention, the President, who has been long in the service of the company, expressed a wish to be relieved from the duties which the confidence of the stockholders has so long imposed upon him. The stockholders did not believe the time propitious for a change, and instead of making the change desired, appointed Mr. Davies as Assistant, with the office of Vice President. It is believed that Mr. Davies has performed the duties expected of him very diligently and faithfully, and given entire satisfaction to the patrons of the road, and the same may be said of all the officers connected with the Transportation Department.

The company have 53 locomotives, 28 passenger, 12 baggage, 3 mail, 3 express, 545 box, 22 cab, 128 platform, 35 stock, 65 coal, 24 shanty, 1 pay and 2 wood cars. Miles run by locomotives, 1,140,269, an increase over the previous year of 214. Miles of road in use, 231. Bales of cotton transported, 219,533. Bushels of grain, 1,851,733. Barrels of flour, 146,292. Pounds of guano, 41,273,852.

The earnings of the Macon and Augusta Railroad were, $115,450 79, the expenses $103,364, and the net profits $12,086 79. The Superintendent in his report says;

The future of the Georgia Railroad is no gloomy one, notwithstanding the competition it has to contend against, when its large local business and desirable connections are considered. When the connections for which it is responsible become self-supporting, or its liability for them diminished, dividends to its stockholders will be larger. In spite of the unfavorable circumstances of last year, the net income of your road, after paying and deducting $105,720 19 for additional outfit, etc., was sufficient to pay interest on the bonded debt proper of the Georgia Railroad, and about 7½ per cent on the capital stock, without referring to any other source of income which the company may have had; but a large amount of the road's revenue had to be used in paying interest on endorsements for other roads and other liabilities, and it may be that the company commenced paying, soon after the war, rather larger dividends than were advisable, under the circumstances then existing, and before the war damages to the road had been fully repaired. The opinion of the President on that subject will be well recollected, but in the needy condition of the stockholders after the war the board found very strong reasons for a departure from that policy.

The purchase lately made in conjunction with the Georgia Central Railroad, and joint agreement with that company for the management of the Western Railroad of Alabama, it is hoped, will prove advantageous to both companies, and lessen the burdens of your road in that direction. The completion of the Texas Pacific Railway is believed to be a question of time only, and not very long time either, which will be of immense advantage to that road.

Men of the closest observation and largest experience believe that the future promises well for the railroads of the South, but that the improvement will be gradual, and that, for the present, every possible economy will have to be observed consistent with a due regard for keeping the property in good order.

The following is a condensed statement of the condition of the Georgia Railroad and Banking Company on 31st March, 1875:

The road and its outfit		$4,156,000 00
Real estate		127,479 36
Banking house and lot		35,000 00
Material on hand for road		71,878 09
Road expenses	$1,050,807 15	
Interest on bonds	43,720 00	
Incidental expenses & salaries	11,286 27	
Tax to State of Georgia	3,253 20	
Attorney's fees and costs	8,342 75	
		1,114,909 87
Stocks of other companies		730,901 67
Bonds of other companies		144,760 00
Port Royal Railroad Company		57,998 24
Western R. R. of Ala.	$236,676 56	
Notes of do	20,000 00	
		256,676 56
Macon and Augusta R. R. Co		142,016 27
Bills receivable		36,657 97
Assessment on stock		207 50
Suspense account		639 56
Cash	$93,939 35	
Less our own notes on hand	37,263 52	
		56,675 83
		$6,931,786 42
Capital stock		$4,200,000 00
Profit and loss		498,428 23
Income of road	$1,426,499 28	
Dividend on stock	49,707 48	
Interest	12,504 77	
Rent	496 50	
		1,489,208 03
Bonds of this company		564,500 00
Unpaid dividends		26,399 59
Due to other corporations, etc.		2,071 69
Completion of Macon and Augusta R. R.		71,000 00
Bank notes	$116 072 40	
Less notes on hand	36,857 27	
		79,715 13
Change bills	$1,350 00	
Less on hand	886 25	
		463 75
		$6,931,786 42

President.—JOHN P. KING.

Directors.—E. E. Jones, James S. Hamilton, Antonie Poullain, M. P. Stovall, James W. Davies, D. E. Butler, L. M. Holt, Wm. M. Reese, Thos. J. Burney, George Hillyer, Josiah Sibley, John Davison, Stevens Thomas, Wm. W. Clark, Geo. T. Jackson, Chas. H. Phinizy.

Superintendent.—E. W. COLE.

Cashier.—J. A. S. MILLIGAN.

☞ The Ontario (Canada) Weekly Free Press says that Mr. L. J. Sergeant, the traffic agent for the Grand Trunk Railway, has notified the freight agents under his jurisdiction that arrangements are being perfected which will place the Grand Trunk in as favorable a position as any other on the American continent for the shipment at Portland of freight for Europe. Mr. Sergeant says nearly 900 miles of main line have been relaid with steel rails, and the condition of the Grand Trunk was never as good nor its rolling stock more efficient. Since the last season the Company has at great expense erected an elevator at Portland, of the capacity of 200,000 bushels.

☞ B. J. Pengra has been re elected President of the Oregon Central Pacific and Winnemucca Railroad. Three surveying parties are in the field. If on the completion of the surveys certain final proposals are accepted, it is intended to commence work in February or March on this road.

Chesapeake and Ohio Railroad.

The following is the opinion of Judge Bond, in the United States Circuit Court at Richmond, Va., on the 30th ult., (Judge Hughes concurring,) overruling a motion of holders of other mortgage bonds of the Chesapeake and Ohio Railroad Company for the appointment of Gen. Williams C. Wickham as permanent receiver:

The court has considered with great care the application of the bondholders in this case for the appointment of a permanent receiver therein of their selection, and the petition of the board of public works of Virginia in opposition thereto.

The sole purpose of the appointment of a receiver is to provide for the safety of the property pending litigation. In this case the property can only be secured from loss by deterioration by its constant use. The receiver, therefore, must not only be trustworthy, but he must be competent to conduct the business of the defendant.

The circumstances of this case show that either by negligence or mismanagement of the road itself, or in the conduct of its financial affairs, it has been reduced to bankruptcy.

Its debt is enormous, and whether this results from mismanagement or misfortune, certain it is that none but the secured creditors are likely to realize any dividends from the proceeds of sale of the property of the defendant.

Now the proposition is that the court remove its present receiver and appoint another, who has all along been connected with the present management of the company, and who is responsible in a degree for the present unfortunate bankrupt condition of the railroad, whether that condition be the result of misfortune or negligence.

It seems to the court to do this would be to decide now *in limine* that there has been no mismanagement or negligence in the past conduct of the affairs of the defendant company, and that its condition was the result solely of the depression in mercantile affairs.

A receiver, while it is not necessary that he should be antagonistic to the officers of the company, ought at least to be an indifferent person as between the parties. The unsecured creditors, though they may have little hope of ultimate payment, ought to have the full assurance that the affairs of the road will be administered by impartial hands, and should be satisfied that if they get nothing it will be because there was nothing to be gotten.

It does not appear to give strength to the application of the bondholders under the first and second mortgages that these bonds are now controlled or represented by the parties who have managed the financial and business affairs of the road heretofore: but even were it the fact that they had individually selected the person named for receiver, it is, in the exercise of the sound discretion of the court, better for all parties that the appointment of the present receiver be made permanent. And we both concur and shall require the receiver to give additional security for the faithful performance of his trust in the sum of one hundred thousand dollars.

Judge Bond afterwards issued an order appointing Henry Tyson, of Baltimore, permanent receiver, and directing that within ten days he file a bond in the penalty of $100,000, with good security, to be approved by the court, conditioned for the faithful performance by him of duties as such receiver.

When Judge Bond's opinion was promulgated William W. MacFarland, Esq., of counsel for first and second mortgage bondholders, asked leave to file an amended and supplemental bill in this cause. Judge Bond granted the motion, and gave counsel until December 1 to file the amended bill.

Pacific Railroad of Missouri.

The gross earnings, operating expenses and net earnings of this road since its lease to the Atlantic and Pacific Railway Company, June 29, 1872, have been as follows:

	Gross Earnings.
For 6 mos. ending Dec. 31, 1872..	$1,928,420 92
For year ending Dec. 31, 1873.....	3,707,941 69
For year ending Dec. 31, 1874.....	3 713,452 93
For 9 mos. ending Sept. 30, 1875..	2,104,326 42
Total.	$11,454,141 96
	Operating Expenses.
For 6 mos, ending Dec. 31, 1872....	$1,337,525 54
For year ending Dec. 31, 1873.....	2,305,225 93
For year ending Dec. 31, 1874.....	2,261,563 97
For 9 mos. ending Sept. 30, 1875...	1,450,550 77
Total..	$7,354,866 21
	Net Earnings.
For 6 mos, ending Dec. 31, 1872...	$590,895 38
For year ending Dec. 31, 1873.....	1,402,715 76
For year ending Dec. 31, 1874.....	1.451,888 96
For 9 mos. ending Sept. 30, 1875...	653,775 65
Total.....	$4,099,275 75

The following are the disbursements for interest on the funded debt, rentals and dividends:

For 6 mos. ending Dec. 31, 1872...	$691,804 98
For year ending Dec. 31, 1873.....	1,402,188 04
For year ending Dec. 31, 1874.....	1,417,139 92
For 9 mos. ending Sept. 30, 1875...	1,062,854 95
Total disbursements in transportation department (1,050 000 being in dividends to stockholders)....	$4,573,987 88
Total net receipts in transportation department	4,099,275 75
Deficiency	$474,712 13

Union Pacific Railroad.

REPORT OF THE GOVERNMENT DIRECTORS.

Hon. C. Delano, Secretary of the Interior:

SIR: During he month of August the Government Directors of the Union Pacific Railroad made the usual annual inspection of the road. The result was quite satisfactory, as the entire line gave evidence of steady, noticeable, and substantial improvement, fully justifying the commendation bestowed, in our report of 1874, upon the General Superintendent and his several assistants.

In our report for 1874 we remarked that "the protection of the road now against obstruction by snow has been carried to such a degree of perfection that impediments to the operation of the line from that cause will be no greater in the future than may be expected on any of the lines between Chicago and New York. The problem of the practicability of the road for Winter operation may be considered as solved."

The experiences of last Winter more than maintain this declaration; for, while the lines between Chicago and New York were frequently and seriously obstructed by snow, the Union Pacific Road was substantially free from such impediment during the entire season, notwithstanding the Winter was exceedingly severe, and the fall of snow unusually great.

The only serious delay on the road during the year was occasioned by the "wash outs" on the two western divisions last Spring. All roads are liable to such disasters, but on none could they be met more efficiently than they were on this. It put the Superintendent's department to a severe and unexpected strain, and the promptness and completeness with which it was met shows how thoroughly that department is organized. The greatest delay to first class passengers was three days, and the greatest delay to freight was ten days, notwithstanding the vast amount upon the line at the time. The experiences of the "wash out" period, short as it was, and the means adopted to prevent a like occurrence, we regard as sufficient to dispel any apprehension for the future, beyond such as apply to all the great lines of the country.

The replacement of iron is being carried on with sufficient rapidity to keep the track in as serviceable and efficient condition as upon most other trunk lines. The mountain divisions are being supplied with steel rail as fast as the needs of the road require and it can be obtained.

The establishment of a rolling mill on the line at Laramie was an act of wisdom, and is working a great saving in the cost of re rolling the iron of the road. Heretofore all re rolling was done by mills east of the Mississippi River. The economy of the present system will appear from the following statement. Heretofore Eastern mills took the old iron at Council Bluffs at $21 per ton, and returned at that point the same number of tons at $51. Allowing fifty cents per ton each way over the Missouri River bridge would make the cost at Omaha $52 per ton. The result from 100 tons of old rail sent to Laramie from Omaha would be as follows:

One hundred tons old rails, at $21.....	$2,100 00
Company freight, 573 miles	573 00
Allowing sixteen per cent. for shrinkage, would give eighty four tons re rolled at $18 50	1,554 00
Company freight on eighty four tons 573 miles	481 52
Cost of eighty four tons....	$4,708 32

Cost per ton at Omaha, $56 05.

Upon the same basis, to renew a ton of rails at North Platte would cost:

If shipped East.....	$36 64
If shipped to Laramie.....	28 87½

Cost to renew per ton at Cheyenne:

If shipped East.....	$41 32
If shipped to Laramie...	23 74

Cost at Laramie:

If shipped East.....	$42 64
If rolled at mill....	22 50

Cost at Ogden:

If shipped East....	$51 64
If shipped to Laramie.	32 55

This comparative statement shows that a vast aggregate saving will be made by the establishment of the rolling mill at Laramie, even while it is operated by lease to private parties as it is now, and this saving would be enhanced should the company conclude to operate the mill itself, as it should do.

The amount of rail renewed during the year ending June 30, 1875, was 4,640 tons of iron and 1,015 tons of steel.

In the matter of ties, a great improvement has been made, as on the western part of the line great quantities of red pine ties are being used—a wood which holds a spike almost equally with oak. On the eastern part of the line oak ties are now, to a great extent, being used. These ties are being obtained at a cost of about fifty cents each for pine and eighty for oak.

The Dale Creek bridge, the largest wooden structure on the line, is to be replaced by one constructed of iron, the contract for it having been let, and it is expected to have it in position before the close of the present year.

There have been, and will be, placed in position during the year iron bridges as follows:

Two bridges, each 107 feet long, at a cost of....	$9,514 66
One bridge, 102 feet long, at a cost of.	4,083 20
One bridge, 64 feet long, at a cost of..	4,736 00
Total	$18,333 86
Masonry for above....	29,200 00
Masonry for other bridges....	6,500 00
Total	$54,033 86

We give here a statement of extraordinary expenditures upon Union Pacific Railroad for year ending June 30, 1875, which have been included in operating expenses:

TENEMENT HOUSES AND HOTELS.		
Eating house at Rawlings..	$9,959 78	
Eating house at Sidney....	271 80	
		$10,231 08
STATION HOUSES.		
Depot at Omaha....	$73,108 44	
Depot at Cozad....	965 92	
		74,074 36
TANKS AND WATER WORKS.		
Tanks, &c., at Omaha	$2,004 94	
Tanks, &c., Dale Creek.....	1,438 01	
		3,442 95
SHOPS AND MACHINERY.		
Scrap furnace and hammer, Omaha	$14.432 94	
Rolling mill at Laramie....	188,293 93	
		202,726 87
RIGHTS OF WAY AND LAND DAMAGE.		
Land at Laramie....	$2,000 00	
G. M. Dodge for right of way at Council Bluffs....	549 19	
Land damage near Ogden, arbitrated by J. Sharp...	15,930 89	
		18,480 08
ENGINE EQUIPMENT.		
Seven Taunton locomotives, freight on same to Omaha, and fitting for service....		$3,088 06
CAR EQUIPMENT.		
One passenger car, returned by Colorado Central	$3,600 00	
Twenty five Pennsylvania Railroad cars, and freight on same to Omaha	48,197 50	
Ten second class cars...	35,670 00	
Ninety six box cars.....	79,200 00	
Four fruit cars....	7,449 27	
Twenty coal cars....	16,928 05	
One derrick car....	2,787 08	
Total	$193,832 00	
Less exchange of car with Colorado Central.....	1,000 00	
		192,832 00
Total		$585,025 40

The improvements which we would recommend as next to be effected are the construction of a more substantial, commodious, and convenient passenger house at Ogden, cutting down Aspen Hill, and by widening cut do away with large snow shed at that point, thus saving largely and constantly in power and expense of protecting the road: take out the shale cut at Green River, and the reduction of the Elk Horn about ten feet at the summit. These improvements, we are assured,

are all contemplated by the company, but they should not be long delayed, upon economic grounds if none other.

The business of the road for the year has been very satisfactory. It was feared last year that the general depression which had fallen upon the business of the country would seriously and unfavorably affect the earnings of the road for the year upon which we are now reporting. The fears entertained seem now to have been groundless, as will appear from the comparative statement of the earnings and expenses for the years 1874 and 1875, given herewith:

EARNINGS.

	Year ending June 30, 1874.	Year ending June 30, 1875.
Passengers—		
Cash	$3,541,633 57	$4,149,648 40
Government	208,361 55	259,317 75
Mail	325,143 00	325,114 00
Express	366,192 98	433,340 77
Freight—		
Cash	4,933,664 61	5,142,883 94
Government	225,545 69	297,179 20
Company	513,513 71	624,574 45
Car service	*6,953 12	5,988 35
Miscellaneous	122,791 47	260,459 67
Rent of buildings	16,863 70	23,515 01
Total earnings	$10,246,760 16	$11,522,021 54

EXPENSES DURING SAME TIME.

Conducting transportation	$770,331 07	$875,237 62
Motive power	1,662,771 98	1,721,963 39
Maintenance of cars	432,769 03	563,416 09
Maintenance of way	1,865,729 98	1,825,605 86
General expenses	380,748 19	447,298 41
	$5,112,400 25	$5,433,521 37
Surplus fuel and material accounts	22,611 08	59,865 50
Total expenses	$5,089,789 17	$5,373,655 87
Less amount expended for depots, shops, equipment, etc., such as were charged to construction before Oct. 1, 1874		585,025 40
Expenses	$5,089,789 17	$4,788,630 47
Net earnings	$5,156,970 99	$6,733,391 07
Expense ratio, p. c.	$49 67	$41 56

* Paid.

The transportation of cattle over the road is rapidly increasing, and as illustrative thereof we give the following statement of stock shipments from points on the Union Pacific Railroad to Omaha from Jan. 1 to Aug. 31, 1875:

	January	February	March	April	May	June	July	August	Total
Ogden	1	..	..	..	..	..	..	..	1
Evanston	..	12	..	..	..	..	..	..	12
Laramie	..	..	..	..	..	2	..	8	10
Cheyenne	2	..	..	..	..	..	36	147	185
Pine Bluff	..	..	..	..	..	..	18	48	66
Sidney	..	..	..	..	8	2	..	..	10
Julesburg	13	..	..	..	..	..	34	49	96
Ogalalla	..	..	..	..	..	..	15	60	81
North Platte	..	..	..	1	..	..	40	9	50
Plum Creek	..	..	..	..	..	5	..	..	5
Kearney	..	..	..	..	..	..	24	17	41
Fremont	..	..	..	3	2	..	2	2	9
Valley	..	..	..	..	1	1	..	..	2
Elkhorn	..	..	1	3	1	..	..	1	6
Papillion	..	..	..	4	2	..	1	..	7
Total	16	12	1	11	14	10	170	347	581

Comparing the two heaviest months in this table with the corresponding months of last year, we have the following result:

July and August, 1875, total number of cars	517
July and August, 1874, total number of cars	255
Increase for 1875	262

The herds on the plains of the Platte are constantly increasing, while the aggregate number of cattle is becoming fabulous. The plains west of Kearney Junction will soon become one of the chief sources from which the Eastern markets will be supplied with beef cattle. These plains furnish unsurpassed grazing range, and the lands belonging to the Government and to the company ought to be placed under some well-devised system of pasturage from which profit could be secured to both. We would respectfully call the attention of the Government and the company to this exceedingly important subject, hoping that some system may be devised whereby the growth of cattle may be fostered and the lands made immediately remunerative.

We have expressed our views fully in former reports relative to the fuel question. We have little to add thereto. We have not changed our views as to the policy which should be adopted by the company in the treatment of this question, if it can rid itself of the mistaken and mischievous contract made between it and the Wyoming Coal and Mining Company. This contract is now in course of judicial determination in the courts, where we must leave it until a conclusion shall have been reached therein.

The production of coal at the company's mines during the year was as follows:

	Tons.		Per ton.
At Carbon	78,534	costing	$2 04¼
At Rock Springs	107,147	costing	1 95¼
Total	185,681	cost., av.	$1 99¼

There were mined at Almy 33,898 tons, at $2 per ton, by contract.

The foregoing tables of earnings and expenses for the year ending June 30, 1875, show net earnings, after paying operating expenses, amounting to	$6,733,391 57
Deducting from this the interest on the first mortgage bonds, with gold at fourteen per cent	1,862,977 42
We have	$4,870,414 15

on which, according to the basis we have heretofore reported, the Government is entitled to receive five per cent, making due the Government for the year the sum of $243,520 70.

The company deny the correctness of the rule here adopted, and claim that the decision of the Supreme Court of the United States, in St. John *vs.* The Erie Railway Company, justifies them in resisting the demand of the Government for the payment of the five per cent until all obligations of the company shall have been discharged or deducted, and the five per cent be assessed upon what may be thereafter left, for division to the stockholders as dividends. Of this we will say more hereafter.

At the May term, 1875, of the Circuit Court of the United States for the State of Iowa, it was decided that the eastern terminus of the Union Pacific Railroad is on the Iowa side of the Missouri River, and a decree was entered, requiring the company to operate its line as a continuous road from the said terminus. The company appealed the case, and it is now pending in the Supreme Court of the United States.

Our views, expressed in former reports, relative to the desirability of a localized management have undergone no change. Indeed, they have been rather strengthened by the fact that, owing to the personal attention which the present President of the company has given to the road during the time he has occupied said office, many desirable things have been done, and are being done, which doubtless would have remained undone for indefinite periods had it not been for his more than usual attention to, and contact with, the line.

The President of the company, in his report to the stockholders at their last annual meeting in March, 1875, made this very significant statement, viz:

"An important consideration for the stockholders of this company, and one which should not be lost sight of, is, that while most of the great railway enterprises of the country have been largely increasing their bonded obligations, this company has steadily pursued a directly opposite policy, having actually reduced its land-grant bonds, during the year $678,000, and upward of $2,600,000 since the completion of the road."

We see no reason why this reduction of the bonded debt of the company should not be a steadily continuous and increasing operation; for there is one fact peculiar to this company, and that is, that its road has now a capacity for doing over double its present volume of business without any considerable additional expenditure, or which may not be met by its increasing revenues, and without any increase of its bonded indebtedness. There is not a division on the line which cannot promptly handle more than twice the business now passing over it, without any expenditure for additional track, turn-outs, sidings, etc., so that the traffic of the road may be increased until the earnings thereof shall reach more than $20,000,000 per year without any call for expenditures demanding an increase of the bonded debt of the company. There is probably no other trunk line in the country of which the like can be said.

(To be continued.)

New Jersey Southern Railroad.

A meeting of the holders of the first mortgage bonds of this road was held in the city on the 9th inst., to consider a plan devised by a committee appointed at a previous meeting to consolidate the New Jersey Southern Railroad and its connections with the two roads on the Delaware Peninsula—the Smyrna and Delaware Bay, and Kent County Railroads. The second mortgage bondholders of the New Jersey Southern Railroad are to exchange their bonds for common stock at par, the first mortgage bondholders are to buy in the New Jersey Southern Railroad, the purchase to be made by trustees appointed under the first agreement, and the reorganization and consolidation to be carried out by a committee appointed under the second agreement. If Southern roads are not consolidated then the New Jersey Southern Railroad is to be reorganized with the Long Branch and South Shore Railroad on the basis of the same figures at which they are to be represented in the consolidation; and lastly, the agreement for consolidation is to continue in force until May, 1877, with liberty to all parties to extend the time further if proper. On motion, the proposed plan of consolidation was adopted, and Messrs. G. M. Titus, Day, Bates and Stirling were appointed trustees to represent the different parties in interest to proceed with the first part of the arrangement. Messrs. Henry Day, William Walter Phelps, J. W. Stirling and C. W. Huntington were next appointed to organize and conduct the new corporation. On motion it was agreed to recommend the purchase of a boat for the purposes of travel from the surplus funds in the hands of the Chancellor. After agreeing to an assessment of $7 50 on each bond of $800,000 to defray present expenses the meeting adjourned. To carry out the proposed plan the holders of $1,500,000 (par value) of the first mortgage bonds must agree to it.

American Railroad Journal.

Saturday, November 13, 1875.

Financial and Commercial Affairs.

The Money market has been comparatively easy through the week. The supply has been liberal, and lenders have been quite prompt in meeting the requirements of responsible borrowers, notwithstanding the further reports of financial and commercial failures, and the somewhat threatening aspect of affairs in Europe and the East. Call loans have been quoted to the leading Street houses at 2¼@3¼ per cent. Strictly choice to prime mercantile credits at 5½@7 per cent per annum. The Stock Exchange dealings have been fairly active, affording temporary employment to considerable amounts of capital at the current quotations. The Gold Exchange business, though indicative of wider and more frequent variations as to rates, was, as a whole, less extensive than during the preceding week. And the movements in the Produce and Merchandise lines have been on a restricted scale. The export trade has been checked toward the close in part by the limited supply of freight room available for early use. The City Banks reduced their reserve of legal tender notes $2,140 950, while augmenting their deposit item $855,000, and their specie average $8,324,600. They report a decrease of $669,900 in the loans and discounts, and an increase of $41,700 in their circulation. The U. S Sub Treasury in this city closed the week with a currency balance of $53,859,578 against $53,976,012, the preceding week; and a coin board of $41,764,600 against $42 872,421, on the previous return. The City bank exchanges in currency reached $478,-

100,498, or a daily average of $79,683,415. The customs revenue of the port, during the week, was $1,672,000. The City banks reported their average of gold last week at $13,245,500, and their greenback average, at $51,314,500. Their deposits stood at $221,931,200. The loan item was $277,555,800. The circulation was $18,997,700

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $9,077,200.

The aggregate of the outstanding U. S. currency, of all denominations, November 1st was $414,455,666. The outstanding amount of legal tender notes is $373,236,244. The National bank circulation is now $345,799,108, including $2,620,000 of national gold bank notes.

The specie shipments from San Francisco, January 1, to October 28, were $39,417,705, against $24,257 627 same time in 1874.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $9,205,000; special deposit of legal tenders for the redemption of certificates of deposit, $52,725,000; Coin, $72,600,000; Coin certificates $16,989,700.

The week's import entries of Foreign Merchandise at New York were $3,810 520, including $1,022,608 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 42⅛ millions; and from Customs, 60⅛ millions.

Gold has been more variable as to price, on, however, a restricted volume of dealings. The speculation weakened toward the close. The customs call was limited, and the export drain light. The extremes of the price during the week have been 114⅛@115⅝, closing on Wednesday at 114⅛, as against 115⅛ on Wednesday of the preceding week. The specie outflow last week was $604,150 against $498,859 the previous week. The imports of specie at this port since Jan. 1, have been $11,251,791, against $5,487,864 same time last year. The customs demand for Gold last week averaged $277,000 per day. Foreign Exchange has been more active and higher, but at the close weaker and irregular. Bankers' sixty day bills on London closed on Wednesday at $4 81@$4 82; sight bills on London at $4 86⅛@$4 87⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,815,238. The week's imports of Dry Goods and general merchandise were to the specie value of $3,810,520, as against $7,771,028 the corresponding week of last year.

Government Securities have met with a comparatively prompt sale to investors at the ruling figures, which at the close indicated a firm market. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $366,658,312.

U. S sixes of 1881 closed on Wednesday of this week at 122@122⅜; U. S. Five-Twenties of 1864, at 114⅛@115; U. S. Five-Twenties of 1865, 115¾@116¼; U. S. Five-Twenties of 1865, consolidated, 118⅞@119⅛; U. S. Five-Twenties of 1867, 120⅛@120⅞; U. S. Five-Twenties of 1868, 121@121¼; U. S. Ten-forties at 116¾@117; U. S. Fives of 1881, (Funding Loan) 115⅛@115⅝; Six per cent. currency Sixes, 123¾@124.

State and Railway bonds have been in fair investment demand at generally stronger prices. And in the line of Railway and Miscellaneous share property, business has been comparatively brisk with values ruling higher, in the leading instances.

General business has been moderately active in Produce and Merchandise. Breadstuffs and Cotton closed stronger in price. Provisions, Petroleum and Naval Stores easier at the close. Hardware, Dry Goods, Boots and Shoes, and Earthenware quiet. Metals in moderate request. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock, $32@$33; Coltness, $33; No. 1 American Pig at $24@$25; No. 2 do. at $22 @$23; Forge, $19@$21; English Rails at $46@$49, gold; American Rails, at works, $46@$50; Old Rails, $25@$26. Wrought Scrap, $30@$32. Ocean freights have been quoted irregular as to rates, on a restricted business. Grain and Cotton room in most demand.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ At a meeting of the directors of the Pacific Railroad of Missouri, held in St Louis on the 9th inst., a proposition submitted by the Atlantic and Pacific Railroad Company to surrender the Pacific Railroad of Missouri to the directors of the latter company was accepted. Mr. Andrew Peirce was elected General Manager of the Pacific Railroad of Missouri. The other officers of the road remain unchanged. The company's indebtedness to St. Louis county was considered, and action taken that will assure the payment of all the past due interest at an early date.

☞ Hon. Andrew K. Hay has been elected President, and D. M. Zimmerman Secretary and Treasurer of the Camden and Atlantic Railroad Company.

Manhattan Railway Company.

This company was organized on the 10th inst., by the election of nine directors, and the subsequent election of two of them to the offices of President and Secretary-Treasurer respectively. The meeting took place at the office of the Chicago, Rock Island and Pacific Railroad Company, over the Corn Exchange Bank, at noon, there being present the following stockholders: J. A. Cowing, Milton Courtright, David Dows and John Ross, representing the New York Elevated Railroad, and President William Foster, Jose F. Navarro, Horace Porter and Charles H. Clayton, of the Gilbert Elevated Railroad; John F. Tracy, of the Chicago, Rock Island and Pacific Railroad, and Mr. Alexander, of the law firm of Alexander & Greene.

The Commissioners of Rapid Transit sent a communication appointing John A. Cowing, Secretary of the New York Elevated Railroad, and Charles H. Clayton, Secretary of the Gilbert Elevated Railway Company, inspectors to conduct elections. The following ticket was put in nomination and was unanimously elected:

Cornelius K. Garrison, George M. Pullman, Horace Porter, and Jose F. Navarro, all of the New York Elevated Railroad; Milton Courtright, William L. Scott, David Dows, and John Ross, all of the Gilbert Elevated Railway, and John F. Tracy, of the Chicago, Rock Island and Pacific Railroad.

All the stock, with the exception of about thirty shares, was represented either in person or by proxy Mr. Tracy is not a stockholder in either of the above companies, but a friend of both. He was put on the directory with the distinct understanding that he shall resign. The object of this is to leave no balance of power in the directory in favor of either of the companies represented.

The directors subsequently held a meeting and elected Milton Courtright, President of the New York (or Greenwich) Elevated road, as President, and Jose F. Navarro, of the Gilbert Elevated road, as Secretary-Treasurer, and the meeting adjourned, subject to the call of the President.

☞ A despatch from Washington says that the Governing Committee of the Washington Stock Exchange have adopted a resolution that in view of the opinion of the United States Attorney General concerning the three sixty five District bonds that "The United States themselves authorized the issue of these bonds to secure their own debt," they shall hereafter be recognized and classed in all transactions of the Exchange as bonds of the United States.

☞ The contract for the construction of the Springfield, Pomeroy and Jackson narrow gauge coal road, in Ohio, running a distance of one hundred and five miles, has been awarded to Prescott & Co., of Cincinnati, Ohio, for $1,100,000. The contract embraces all expenses of construction, material, &c., and the contractors are to put the road in proper condition for the rolling stock.

☞ The Chillothe (Ohio) Advertiser says that "President Gibbs, of the Michigan and Ohio Railroad, is now in Europe negotiating bonds for the purpose of extending his road from Columbus to Gallipolis via McArthur. He is after that connection with the Chesapeake and Ohio Railroad, and may get there yet ahead of anybody else."

We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C. ☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

Union Pacific Railroad.

The operations of the Land Department of the Union Pacific Railroad from July 29, 1869, to August 31, 1875, were as follows:

Number of acres sold	1,144,863
Amount realized	$5,176,376
Average per acre	$4
Number of purchasers (or families)	8,008
Average acres each	143

The land account now stands as follows:

Original land grant, acres	12,180 000
Sold August 31, 1875	1,144,863
Number of acres unsold	12,035,137

The proceeds from land sales have been applied as follows:

Original amount of land grant bonds	$10,500,000
Amount canceled by trustees by sale of land, interest on land notes, etc.	2,800,000
Present amount of bonds outstanding	7,700,000
Land notes on hand	2,917,880

The results of the sale of 1,144,863 acres of land are indicated in the purchase and cancellation, by the trustees, of $2,800,000 land grant bonds, and $2,917,880 land notes on hand, making a total of $5,717,880. Some idea of the value of the remaining 11,035,137 acres of land still belonging to the company may be obtained from these figures.

☞ The location of the Providence, Ponagansett and Springfield Railroad from Providence, R. I., to the Connecticut line, has been completed. The distance is about 25½ miles, and the line is a very favorable one.

☞ Mr. E. B. Phillips, General Manager of the Wisconsin Central Railroad, says that the road is now sure to go forward and be completed as far as Hancock this autumn, unless the weather should prove extraordinarily unfavorable.

☞ James M. Stone has been elected President and James M. Parker Treasurer, of the Massachusetts Central Railroad company.

Official List of Patents Issued by the United States Patent-Office.

[For the Week ending November 5, 1875.]

MECHANICAL AND RAILROAD.

168,830. Nut Locks, L. Chapman, Collinsville, Ct.
168,837. Rotary Engines, G. D. Harwood, Andrew County, Mo.
168,842. Air Pumps, C. F. Moll, Quincy, Ill.
168,845. Car Springs, D. R. Pratt, New York.
168,852. Pipe Wrenches, W. K. Stevens, Mansfield, Ohio.
168,853. Railroad Crossings, W. J. Stillman, Troy, N. Y.
168,884. Apparatus for cleaning Locomotive Ash Pans, P. K. Dealy, St. John, Canada.
168,888. Air Pumps, J. H. Ellis, Peoria, Ill.
168,889. Railway Switches, S. R. Evans, New Orleans, La.
168,899. Furnaces for Locomotives, H. T. Hayden, Washington, D. C.
168,900. Railroad Rail Joints, J. G. Holliday, Pittsburg, Penn.
168,904. Manuf. of Gas, M. W. Kidder, Boston, Mass.
168,913. Steam Boiler Indicators, A. Moon, San Francisco, Cal.
168,915. Car Couplings, D. A. Newsom, Hatchers Station, Ga.
168,928. Lathes, L. K. Scotford, Burlingame, Kansas.
168,958. Lock Nuts, S. G. Barker, Scranton, Pa.
168,980. Air Springs, for Cars, P. Giffard, Paris, France.
168,984. Lubricators, A. Gould, Rochester, N. Y.
169,021. Railroad Switches, L. Middleton, Victor, Iowa.
169,033. Inclined Revolving Puddling Furnaces, Chas. Pernot, St. Chamond, France.
169,047. Puddling Furnaces, C. J. Schofield, Clayton, Gt. Britain.
169,070. Rolling Mills, J. I. Williams, Millvale, Penn.

MINING.

168,895. Detonating Caps for Blasting, Joseph Goldmark, Brooklyn, N. Y.
168,838. Chucks for Rock Drills, H. Thomas, New York.

REISSUE.

6,705. Tripods for Rock-Drilling Machines, J. B. Waring, New York. Old Patent No. 152,712, dated June 30, 1874.

SHEET METAL.

168,908. Metal Shears, T. C. Livesay, Montana City, Kansas.
168,934. Eaves Troughs, O. W. Stearns, Johnson, Vermont.
168,961. Ventilating Caps, Lewis F. Betts, Chicago, Ill.

☞ The Boston *Journal* says that the citizens of Brookfield have raised their proportion of the money to make a survey of a railroad line from West Brookfield through Brookfield and Sturbridge to Southbridge. This short link, it is claimed, will give Southbridge, Sturbridge, the southeastern part of this State and the State of Rhode Island a direct line to the West by the way of the Boston and Albany Railroad from Brookfield, and if the Worcester County Central is built will give them a direct line to the Tunnel and the West, which will give Providence a better line to the West than any other seaport place in New England.

The Coal Trade.

The anthracite coal trade for the week ending on the 30th ultimo, as reported by the Miners' Journal, was 635,658 tons, and for the year 16,959,963 tons against 17,143,926 tons to corresponding date last year, a decrease of 183,963 tons. The bituminous tonnage for the week was 82,660 tons, and for the year 3,293,149 tons, making a total of all kinds for the week of 718,318 tons, and for the year 20,253,112 tons, against 20,215,768 to corresponding date last year, a decrease of 37,314 tons. At Port Richmond for the week ending the 6th instant there were receipts of 45,000 tons of coal, shipments of 50,000 tons, leaving 195,000 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the last week was 111,151 tons, and for the year 3,514,308 tons, of which 2,866,763 was coal, and 560,351 coke. This embraces all the coal carried both east and west. The shipments of coal over the Lehigh Valley branch road from Easton to Perth Amboy for the week ending on the 30th ultimo were 20,549 tons, making the total received to that date 260,407 tons. The shipments for the week were 16,395 tons, making the total shipments to that date 236,835 tons, and leaving on hand 27,660 tons. The shipment of Cumberland coal over the Chesapeake and Ohio Canal for the week ending October 30 amounted to 24,973 tons, an increase of 318 tons compared with the week previous. The shipments by all routes for the week show a decrease compared with the corresponding week in 1874 of 5293 tons. The total shipments since January 1 show a decrease of 46,937 tons as compared with the corresponding time in 1874. The Chesapeake and Ohio Canal is doing a prosperous business.

☞ The Supreme Court of Michigan has ruled that an innkeeper is not liable for the loss of his guest's goods, unless the loss is caused by his negligence, but that he is held to guarantee the good conduct of his servants and all other persons in his house. Hence, when the goods of a guest are stolen or disappear in an unexplained way, the loss is presumed to be in consequence of the innkeeper's negligence. When the loss happens by an accidental fire or other casualty coming from without, and of such nature as to negative his negligence, he is not liable.

☞ The Pottsville Miners' Journal says that the Philadelphia and Reading Coal and Iron Company have made arrangements to ship weekly from 600 to 700 tons of ore from their mines at Seisholtzville to the various furnaces which have accepted the proposal of President Gowen. There is a large quantity on hand, and about 100 tons are mined daily. It is mostly shipped via Alburtis.

☞ A National Railroad Convention will be held in St. Louis, Missouri, November 23, 1875, "to consider the construction of a Pacific railroad through the States and Territories of the South west."

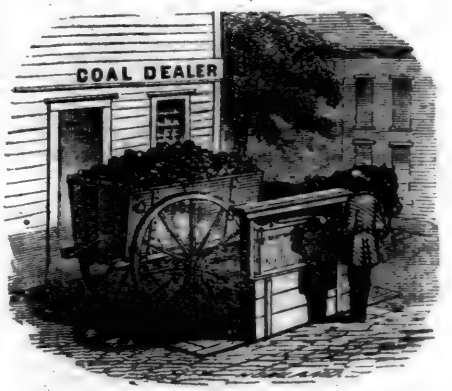
☞ J. M. Hood has been reelected President, Alexander Rieman Vice President, and J. S. Harden Secretary and Treasurer of the Western Maryland Railroad Company.

THE

UPHOLSTERERS'

ELASTIC SPONGE

COMPANY,



No. 42 LAWRENCE STREET, NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.

FAIRBANKS' SCALES,

R. R. TRACK, HAY, COAL SCALES.

☞ Between 40 and 50 hands are now employed on the Nevada Central Railroad at Pioche, and the work will be pushed to completion as rapidly as possible.

☞ The Easton and Amboy Railroad Co. is now engaged in laying its second track from Easton to Perth Amboy. The coal traffic on this road has greatly increased.

☞ The stockholders of the New York and Cayuga Railroad company met in this city on the 4th inst., and elected as Directors. Talmadge Delafield, A. Craig Palmer, Hon. E. D. Morgan, of Aurora; Jas. Stillman, D. B. Coe, Alex. P. Fiske N. Y.; Frederick Collins, Geo. C. Morris, Wm Elliott, Philadelphia; J. J. Thomas, Union Springs: J. R. Cox, A. H. Goss and Horace T. Cook, Auburn. The Directors subsequently met and elected Mr. Delafield, President, Mr. Collins Vice President, Mr. Stillman Secretary and Treasurer, and Mr. Palmer his Assistant.

☞ Charles G. Wicker has been elected President, W. W. Brooklings Vice President. J. H. Wicker General Manager, J. S. Meckling General Superintendent, and J. R. Hanson Secretary of the Dakota Southern Railway.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

M. Brigham, J. H. Butts, Ag't,
KINGSTON, N. Y. 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

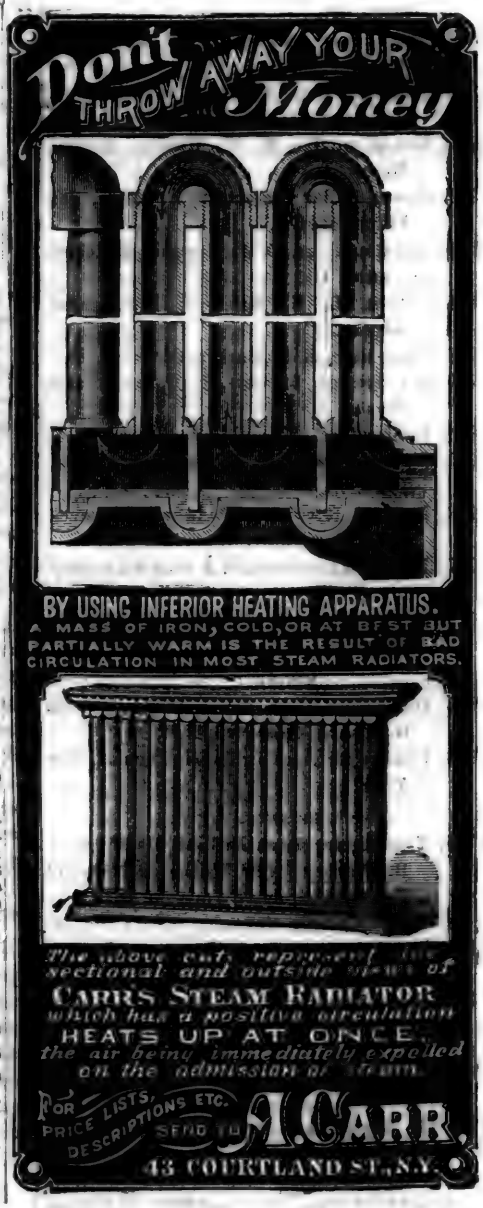
WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.



LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,
96 Wall Street, New York.

ESTABLISHED 1857.
C. EDWARD HECHT,

RICHARD H. ROGERS,

Die Sinker and Letter Cutter,

No. 50 Fulton Street, New York.

Name Punches, Alphabets, Figures, and every variety of Steel Stamp Work for

RAILROAD PURPOSES

Established 25 years. Orders and inquiries by mail promptly answered.

THE

PHŒNIX IRON CO.,

410 Walnut St., Philadelphia,

MANUFACTURERS OF

CURVED, STRAIGHT AND HIPPED

Wrought Iron Roof Trusses

BEAMS, GIRDERS and JOISTS,

and all kinds of Iron Framing used in the construction of iron roof buildings.

DECK BEAMS, CHANNEL, ANGLE AND T BARS

curved to template, largely used in the construction of Iron Vessels.

Patent Wrought Iron Columns,

Weldless Eye Bars,

for top and bottom chords of bridges.

Railroad Iron, Street Rails, Rail Joints and Wrought Iron Chairs.

Refined Bar, Shoeing, and every variety of Shipping Iron Made to Order.

Plans and Specifications furnished. Address

SAMUEL J. REEVES, President.

ESTABLISHED, 1821.

THOS. T. TASKER, Jr., STEPHEN P. M. TASKER.

MORRIS, TASKER & CO.

PASCAL IRON WORKS,

PHILADELPHIA.

TASKER IRON WORKS,

NEW CASTLE, DELAWARE.

Office, FIFTH and TASKER Streets, Philadelphia.
Office and Warehouse, No. 15 GOLD St., New York.
Office and Warehouse, No. 36 OLIVER St., Boston.

Manufacturers of Wrought Iron Welded Tubes, plain, galvanized and *rubber coated*, for gas, steam and water.
Lap-Welded Charcoal Iron Boiler Tubes.
Oil Well Tubing and Casing.
Gas and Steam Fittings, Brass Valves and Cocks.
Gas and Steam Fitters' Tools.
Cast Iron Gas and Water Pipe.
Street Lamp Posts and Lanterns.
Improved Coal Gas Apparatus.
Improved Sugar Machinery, &c.

We would call special attention to our Patent Vulcanized Rubber-coated Tube.

Jersey City Steel Works.

JAS. R. THOMPSON & CO.,

MANUFACTURERS OF

HAMMERED AND ROLLED

The Dickson Manufacturing Co. of Scranton,

Maryland and Delaware Railroad.

Mr. J. L. Caldwell, Superintendent of the Maryland and Delaware Railroad, has for some time past had a force of from twenty to thirty men at work repairing and putting in complete order the track between Easton and Oxford. Mr. Caldwell designs soon running the cars regularly to Oxford, and expects to develop a large grain trade from along the line of the road to Baltimore by that route, making the cost of transhipment exceedingly light, and giving the benefit of a large portion of cheap water carriage. The oyster trade will also probably be greatly increased by the opening of the route. The track has been laid to Oxford for several years, but the cars have been running no further than Easton.

Pittsburg and Northwestern Railroad.

Matters in relation to the new outlet to the Northwest are progressing very favorably. On Friday last, the contract for grading and masonry was sublet, the work to be finished by October 1st, 1876. New York capitalists, represented here by Mr. Elton, are pushing things most energetically, and Mr. Bird, at the head of the engineering department, has overcome the difficulties of the route between Allegheny and Bellevue. The heaviest work between here and Youngstown lies in the thirty miles to Harmony, Butler county, and comprises a short tunnel at Crawford's Summit. The route between Harmony and Youngstown has not been definitely located, one line leaving Harmony and Zelienople some two miles to the southwest, and the other following the Connequenessing to a point near or just below the last named village. Work along the line will be commenced in ten days.—*Pittsburg Chronicle.*

☞ Work on the whole line of the Wisconsin Central Railroad, between Stevens Point and Portage, is now under way. The track is laid from the Point some way south of Plover, and large forces of men are now at work at different sections on the remainder of the line.

Phœnixville Bridge Works

Clarke, Reeves & Co.,

The attention of the officers of Railroad Companies is called to a new Album of Designs, showing the various styles of Iron Railway Bridges, Viaducts, etc., that we have constructed and are prepared to construct, which we will send by mail on application to

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size: can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, November 20, 1875.

Baltimore and Drum Point Railroad.

At a meeting of the directors of this company held in Baltimore on the 15th inst., a proposition from Henry S. Welles, of New York, to build the road, was considered and accepted. Mr. Welles offers to build the road from Baltimore to Annapolis by the shortest and most practicable route, and from Annapolis to or near Drum Point, at the mouth of the Patuxent river, in all 70 miles, in twelve months from the time Baltimore city and Anne Arundel and Calvert counties make good endorsements and subscriptions. The board decided to present a memorial to the mayor and city council asking the city to endorse the bonds of the company for $600,000, $200,000 to be endorsed when the road is built from Baltimore to Annapolis, $150,000 when it reaches Mt. Zion, in the lower part of Anne Arundel county, and $150,000 when the road is completed.

Anne Arundel county has voted $200,000 and Calvert county $100,000 to the stock of the company, and their county commissioners, it is expected, will officially subscribe those amounts in a short time. The stockholders of the company have agreed to increase their private subscription to the stock to an amount which, with their present subscription, will make a total of $300,000. The State subscription for this work was $150,000, of which $25,000 has been used, leaving $125,000 available. The amount thus contemplated to be obtained for building the road, including bonds and subscriptions to the stock, is $1,225,000, a sum sufficient to complete the work. The road has been located, and six miles of the bed graded.

Railway Progress in New Brunswick and Nova Scotia.

The St. John News, in noticing the opening of another link of the Intercolonial Railway, says:

Step by step we are obtaining direct railway communication with our neighbors. But a few years ago our railway system had connection with that of no other Province or State, and the deficiency was painfully felt. But by one means or other the case is greatly altered to day, and will be still more so in a comparatively short time. The steps already taken in this direction are easily traced. First came connection with the United States Railway system by means of what was called the Western Extension railroad. This important work is involved in some difficulty just now, but it proved a great boon to our people, and will no doubt continue to render important service to New Brunswick. After the establishment of direct railway connection between New Brunswick and Maine, came the completion of the link between Moncton and Truro which placed the railway system of New Brunswick in connection with that of Nova Scotia. And now we have all but direct railway communication between New Brunswick and Quebec, the link being opened between Moncton, the centre of the railway systems of New Brunswick and Nova Scotia, and Campbellton on the very borders of Quebec. And in a short time the link between Campbellton and a station of the Grand Trunk Railway on the right bank of the River St. Lawrence, will be thrown open for traffic. Ere a great while we shall have railway connection with Quebec also by way of the upper valley of the St. John, and with Maine by a southern route. We shall likewise have railway extension in the direction of Prince Edward Island. "A silver strip of sea" prevents absolute connection with the Island, but it does not prevent the building of a branch line from a point on the Intercolonial to the extremity of Cape Tormentine, the nearest position of New Brunswick to Prince Edward Island, and such a branch without question we shall have at no distant day.

But meanwhile we must rejoice at the new link just added to our railway chain. It may be safely claimed as the finest piece of railway work yet accomplished in America. It will serve most important ends, Local, Provincial, National and Imperial. A large portion of the country traversed by it is naturally one of the richest and most beautiful in North America. Its resources of the forest, field and sea are great, and the iron way now thrown open to traffic will greatly aid in their development.

The New Railroad between New York and Philadelphia.

The contest going on in the New Jersey courts about the new railroad bridge across the Delaware River at Yardleyville is interesting to New York and Philadelphia people because over this bridge will run the cars of the new railway line shortly to be opened between the two cities. The road, which is 88 miles in length, will be composed of sections of the North Pennsylvania, Central of New Jersey and Bound Brook Railroads. Track laying is now going forward on the new sections of the line, and the company expect to open it for travel early in the spring. An obstacle has recently been thrown in their way in the form of an application by the attorney general of New Jersey for an injunction to prevent the completion of the bridge, on the ground that it is a nuisance and an obstruction to navigation. All the piers of the bridge were completed and the superstructure partly in place before the attorney general moved in the matter. President Comly, of the North Pennsylvania Railroad Company, says that the structure will be finished within thirty days, and does not apprehend anything from the final decision of the points raised by the attorney general.

Alluding to the prospective early opening of the new line, the Philadelphia correspondent of the New York Tribune says:

"The Pennsylvania Company will have a strong rival for the immense traffic between the two cities—a rival with terminal facilities in Philadelphia and in Jersey City as good as its own, but with no Western or Southern connections here. The competition will of necessity be confined to that traffic at first, but it will not be long before the new line will be seeking a connection with the Philadelphia, Wilmington and Baltimore railroad in order to make an alliance with the Baltimore and Ohio Company, and thus get a share of Western freight business. In the end one may expect to see a struggle between President Garrett and

President Scott for the possession of the new road Mr. Garrett will naturally see in it his long desired outlet to New York, and Mr. Scott will regard it as an annoying and possibly a dangerous rival."

Great Western Railway of Canada.

REPORT OF THE DIRECTORS.

During the last half year the directors have steadily pursued the policy which, from the first, they marked out for themselves, and for which they obtained the sanction of the shareholders. That policy was stated to be to maintain the line and rolling stock in a condition fit to receive increased traffic on the revival of trade; to discountenance unnecessary competition, by cultivating friendly relations with the neighboring companies; to curtail capital expenditure, limiting it to the completion of the branches to which it was found that the company had been committed, and to necessary improvements of the existing system; and to reduce working expenses to the utmost degree consistent with safety and the maintenance of the property. In carrying out this policy, the circumstances of the year 1875 have exhibited unusual difficulties. The severe competition both for local and through traffic, which had been in course of development for some time (though partly checked in the early spring) was fully explained to the shareholders in April last. The commercial depression which still overspread the United States had extended to the Dominion of Canada; and the results of the good European harvest of 1874 were seen throughout the half year, in the reduced transportation of grain from the West for shipment at the Atlantic ports. In addition to these disadvantages to the company, the weather during the first four months was more severe than had been known in Canada and the United States for many years. On the northern parts of the company's system the traffic was for weeks entirely suspended; and the ferry transit at Detroit was only kept open with great difficulty, and at heavy cost, while that at Sarnia was altogether closed for some time.

The earnings of the half year amounted to £411,187, i. e., about £105,000 less than those of the corresponding period of 1874. This great falling off is mainly due to the very low rates on through traffic, both freight and passenger. While the number of through passenger was less by only 8 per cent., the receipts from this class of business show a reduction of 20 per cent. The weight of through freight and live stock diminished by only 7½ per cent., but the receipts by nearly 25 per cent. The rates and fares obtained in the half year ended July, 1874, if in force during the half year now under notice, would have increased the total gross receipts by £84,000. Those obtained in the half year ended July, 1873, would have increased them by a further amount of £34,000; so that, without any addition either to the volume of the traffic on the one hand, or to the working expenses on the other, £135,000, instead of £17,000, would have been carried to net revenue account.

The reduction in working expenses has been continuously and satisfactorily pursued, and is still in progress. These expenses amounted in the last half year to £393,793, or about £42,000 less than in the corresponding period of 1874. The cost per train mile has been reduced from 5s. 8½d. to 4s. 9½d., a lower rate than has been reached for some years. This economy has been effected at a time when the volume of traffic has but slightly diminished, the passenger mileage (that is, the number of passengers carried one mile) having only decreased about 4 per cent., and the freight mileage (that is, the number of tons carried one mile) having decreased less than 6 per cent. The diminution in expenditure is due partly to great vigilance in the ordinary working of the train service, but mainly to large reductions in the redundant staff of the various departments, the salaries and wages of the half year being less than those of the corresponding period in 1874 by about 18 per cent. Since the close of the half year these reductions have been carried still further. But the staff may now be considered in a satisfactory and efficient condition, and capable of dealing with a considerably increased business. The directors, however, are not satisfied that the lowest point of working expenses has yet been reached; and their attention, and that of the general manager, has been for some time past directed to economies in the purchase and consumption of stores, especially of fuel. The result of these economies does not appear so quickly in the accounts as the reduction in the staff, but it will be apparent in the current and future half years. Further savings through diminution of the train mileage are also contemplated by the general manager, and arrangements are being made for reducing the heavy agency expenses in the United States. The "general charges," although somewhat less than in the half year immediately preceding, are still in excess of those of the half year ended in July, 1874. This increase is partly due to the special and exceptional payments arising out of the change of management in Canada; and the total charge will be considerably less in future.

The main line and the rolling stock are in an efficient condition. Steady progress is being made in the substitution of steel for iron rails where necessary in the branches and the subsidiary lines. The rolling stock is ample for a very large increase of traffic.

The company's amicable relations with the connecting American lines have been maintained, and they are especially satisfactory in respect of the New York Central, the Erie and the Michigan Central railroads, with the executive officers of which lines the President has recently conferred. The directors have the satisfaction of stating that, in compliance with the resolution adopted by the shareholders at the last meeting, negotiations were carried on during the spring with the Board of the Grand Trunk Railway Company, and that in the month of July an arrangement was made, subject to confirmation at the present half yearly meetings, under which the general managers of the two companies were to meet and gradually adjust percentages for the apportionment of traffic between places served by both lines, transmitting from time to time the schedules for the approval of the respective boards. A resolution authorizing this arrangement will be submitted at the special meeting. The directors of this company, while fully alive to the difficulties which have to be surmounted in completing the subsidiary agreements, and especially to the importance of in no way prejudicing the traffic exchanged with the American companies, will use their utmost exertions to bring this important business to an early conclusion. With reference to the Detroit and Milwaukee Company, the directors have to announce that under the suit in Chancery commenced by the bondholders for the foreclosure of the mortgages and the sale of the line, Mr. Trowbridge, the late President of the company, has been appointed receiver, and he is now in charge of the property. After the failure of the proposal by this company, referred to in the last report, a new scheme was put forward by the English bondholders' committee, but it is still uncertain whether it will be accepted by the bondholders generally. Meanwhile the interests of the Great Western Company are being carefully watched, and this subject was one to which the President directed his special attention when in America.

The agreement with the Wellington, Grey and Bruce Company, confirmed by the Shareholders at the last meeting, is being duly carried out. The *pari-passu* bonds have been issued to this company, and the line, in so far as its working is concerned, is now practically a branch of the Great Western. It will be necessary to relay gradually the whole of this line with steel rails; and consequently, although the directors are curtailing its capital expenditure to the utmost extent, it is probable that the outlay necessary to bring the road to a proper state of efficiency may somewhat exceed the amount of the bonds appropriated to this purpose. The construction of the London, Huron, and Bruce Railway is being proceeded with, and the line will probably be opened at an earlier date than was anticipated when the works were commenced. At the last half yearly meeting power was given to the directors to subscribe for the London, Huron and Bruce bonds guaranteed to a maximum amount of £190,000 under the resolution of the shareholders in October, 1874. The Great Western, under the authority of the shareholders, are also holders of the Wellington, Grey, and Bruce *pari passu* Bonds, above referred to, amounting to £74,000, and of bonds in the same company acquired by semi-annual drawings under the former traffic agreements. It is evidently desirable that instead of offering these securities to the public the directors should have power, when necessary, to issue from time to time an equivalent amount of their own authorized bond capital, and a resolution to this effect will be submitted to the shareholders. The power so conferred will only be exercised to the extent absolutely required.

The auditors have for many years urged upon the directors the propriety of establishing a permanent way renewal fund. This most difficult subject was one of the first which came under the consideration of the present board after they took office in 1874. In the last half year's report the directors expressed a hope that they would be able to determine a proper basis for such a fund, and the President explained at the meeting that the fund should provide, not only for the relaying of the line and branches with steel, but for the substitution of permanent iron and stone bridges for those in wood exceeding a certain span. The officers have fully reported on this subject, which the President personally investigated with them in Canada. The directors have now arrived at the conclusion that a fund, to be provided by setting aside semi annually from revenue a sum equivalent, upon the present train mileage, to about £30,000, will meet the charge properly falling on revenue during the next twenty years, both for renewing the bridges in iron and stone and for the cost of steel rails. This charge will have to be distributed over the Great Western line proper, and some of its leased lines. The difference between the cost of renewing the bridges in wood, and in stone and iron, will be charged to capital. This is estimated to amount to an average half yearly charge of £7,500 for twenty years. It appears to the directors that the Locomotive Renewal Fund has accumulated more rapidly than the prospective demands upon it justify; and it will be a subject for careful consideration whether some modification of the mileage rate, upon which this charge has hitherto been based, cannot safely be adopted. The Car Renewal Fund appears to be in a satisfactory condition.

The report, approved by the shareholders in April last, informed them that it had been decided to reorganize the management in Canada, substituting for the Canada board and executive a general manager responsible directly to the London board, and that Mr. Frederick Broughton had been appointed to this important office. Mr. Brydges, who had consented to take charge of the company's affairs for six months until the new general manager could take up his office, and who executed the commission entrusted to him with great ability, handed over his charge to Mr. Broughton a few days before the end of the half year. The directors are glad to be able to express their entire approval of the proceedings taken by Mr. Broughton since he assumed office.

The following is the usual summary of the accounts which are rendered in the form prescribed by the imperial "Regulation of Railways Act, 1868." Both the capital and revenue accounts are for the first time stated in sterling, only reduced to a gold basis. They cannot, therefore, be in all respects compared with those of former half years; and this is especially the case with reference to the gross revenue receipts. The receipts in American currency have been subject to a greater depreciation than in the corresponding period of 1874, the average rate of conversion having been 115½ as compared with 112½. The cash receipts on capital account during the half

year to 31st July, 1875, amounted to £224,658 13s. 11d., as follows:

Share account:		
Nominal amount of second and third instalments on 44,876 new shares, issued at the price of £10 per each £20 10s. share	£459,981	
Less received on account of second instalment, as per last half year's report	30,734	
	£429,247	
Final instalment on 6,987 new shares paid in full and converted into original shares	38,808	
Received on account of final instalment on balance of 37,889 new shares	15,179	
	£480,234	
Deduct calls in arrear £1,823		
Proportion of discount on instalments received 253,940		
	255,763	
	£224,471	
Preference stock:		
Balance of calls received	113	
Debenture stock:		
On account of remaining instalments	475	
	£225,059	
Less bond account:		
6 per cent bonds due 15th Nov., 1873, paid off	400	
	£224,659	

The total charges to capital account, during the half year, amounted, as per statement No. 4, to £316,761 7s. 8d., but this includes the sum of £253,940 10s. 3d., representing the proportion of discount on the instalments of the new issue of shares maturing during the half year, and £48,521 invested in the bonds and stock of the Wellington, Grey and Bruce Railway, under the various agreements, leaving £44,300 expended for the general purposes of the railway. This latter sum includes £27,554 for amounts expended in previous half years, now transferred from the balance sheet. The balance, £16,746, representing the cash expenditure during the half year, is fully detailed in statement No. 5. The total capital expenditure to July 31, 1875, amounted to £8,883,547 9s. 5d., leaving a balance at credit of that account of £621,046 10s. 3d. The receipts and expenditure on revenue account for the half year have been as follows:

Gross receipts reduced to a gold basis	£411,188	
Working expenses, including renewals, rents, taxes, and all revenue charges	393,793	
	£17,394	
Interest on bonds and debenture stock	£98,862	
Loss on working leased lines	19,988	
Proportion of charge for depreciation account	6,500	
	£125,350	
Deduct amount to credit of general interest account	681	
	124,669	
	£107,275	
Add deficit on January 31, 1875	34,288	
Total	£141,563	

On the other hand, the locomotive, car, ferry steamers, and insurance funds, which have been formed by deductions from revenue, are in credit £105,868. The unpaid dividend accumulated on the 5 per cent preference stock, to 31st July, 1875 amounts to £27,122. The gross traffic on the main line and branches (excluding the Galt and Guelph, the Wellington, Grey and Bruce, and London and Port Stanley Railways) amounted to £411,188, as compared with £516,536 in the corresponding half year, showing a decrease of £105,348. This decrease may be classified as follows:

Decrease in passenger earnings	£19,422
Decrease in freight and live stock earnings	82,280
Decrease in mails, express freight and rents	3,646
Total decrease	£105,348

The earnings and working expenses per train mile compare during the last six half years as follows:

Half year ended	Earnings.	Working Expenses.
31st Jan., 1873	7s. 4¼d.	5s. 1¼d.
31st July, 1873	7s. 1 d.	2s. 2¼d.
31st Jan., 1874	7s. 0¼d.	5s. 2¼d.
31st July, 1874	6s. 3¼d.	5s. 3¼d.
31st Jan., 1875	6s. 8¼d.	5s. 4¼d.
31st July, 1875	4s. 11¼d.	4s. 9¼d.

The earnings and working expenses for July, 1874, and July, 1875, are exactly reduced to a gold standard. Those of the other half years are approximate, but the difference will be slight. The movement of the several renewal funds has been as follows:

	Balance 31st Jan., 1875.	Credit during half year.	Balance 31st July, 1875.
Ferry steamers renewal fund	£17,194	£3,016	£20,210
Locomotive renewal fund	66,037	11,564	77,601
Car renewal fund	5,056	845	5,901
Insurance fund	1,104	552	1,657
	£89,391	£15,787	£105,368

The change of gauge account has now been finally adjusted, and £19,497, the proportion of this expenditure properly appertaining to capital, has been charged in the present accounts. Revenue has been debited in account No. 9 with the usual sum of £9,100, leaving a balance of £7,452 still to be charged in the current half year. This will finally close the account. The working of the leased lines has entailed a loss to revenue for the half year of £19,988. Of the above sum no less than £16,101 arises from the Wellington, Grey and Bruce Railway. This is greatly attributable to the defective manner in which the line was originally constructed, involving increased cost of maintenance and renewal of way. Under the traffic agreements, 20 per cent of the additional earnings from traffic interchanged with this railway during the half year (amounting to £3,653) has to be invested in its bonds. As stated at the adjourned meeting on the 9th September, 1874, when the election of the present directors was settled, there will be no vacancies at the board to be filled up this year. The auditors, John Young, Esq., and Thomas Adams, Esq., go out of office, and are eligible for re-election.

In the last half year's report, reference was made to the Great Western Amendment Act of 1875, reducing the number of the directors to not less than six, and increasing their qualification. The shareholders will be asked at the special general meeting to fix the number of the board, for the present, at seven directors, four to be a quorum, and to determine how many shall go out of office in each year.

On behalf of the board of directors,
HUGH C. E. CHILDERS, President.
London, 26th October, 1875.

☞ At the annual meeting of the Hannibal and St. Joseph Railroad company, held at Hannibal, Mo., on the 1st of November, the following gentlemen were elected directors: H. H. Baxter, N. L. McCready and J. Vanschaick, re-elected. These gentlemen are all residents of New York. The retiring directors are A. W. Lamb and P. H. Koehner.

Progress of Railroads.

It is expected that the through rail line between Fall River and Providence will be opened by the latter part of the present month.

The rails on the Delaware Shore Railroad, New Jersey, have been laid as far as Paulsboro, about twelve miles below Camden.

The railroad along the west shore of Lake Champlain from Whitehall to Plattsburg, has been completed. It gives better access to the Lake Champlain iron region, and completes a new line from New York to Montreal.

The Knoxville branch of the Chicago, Burlington and Quincy Railroad, extending from Albia, on the Burlington and Missouri River Railroad, to Knoxville, Iowa, has been completed. The new road is 33 miles in length, and is on the direct line to Des Moines. The road opens up a new tract of country, and will undoubtedly prove a valuable feeder to the main line.

The London, Huron and Bruce Railway was opened on the 7th inst. as far as Clinton. The ballasting is progressing rapidly, and the line will be in efficient working order next spring.

Ten thousand tons of Esquimalt steel rails for the Canadian Pacific Railway will be loaded at Halifax during the approaching winter.

The Southern Pacific Railroad have completed grading from San Gorgonio Pass to Indian Wells, in the Colorado desert, fifty miles out, and are pushing on for the Colorado.

The rails on the Emmittsburg Branch Railroad, the bed of which has been graded and bridged for five or six years, have been laid from its divergence from the Western Maryland Railroad at Rocky Ridge, or near that point, to Emmittsburg, a distance of seven miles.

It is proposed to extend the Worcester and Somerset Railroad, on the Eastern Shore of Maryland, to the seaside, in order to open up a new route to the oyster beds of Chincoteague Island and adjacent waters.

Mr. H. T. Keith, of Boston, who has charge of the surveying party at work in the vicinity of Great Barrington, Mass., for the Massachusetts Central Railroad, says that the road is sure to be carried through, the object being to make a shorter avenue for coal and freight, and not to depend on passenger travel much. The proposed route will take the road through Westfield, Blandford, Monterey, Great Barrington, Egrement, Boston Corners, etc., to Poughkeepsie. The towns will probably be asked to subscribe toward the expense.

Mr. John Gilman and his engineers have begun the survey for the proposed Providence, Brookfield, Hoosac Tunnel and Chicago line. The starting point is about one mile east of Brookfield station on the Boston and Albany Railroad, and sixty-six miles from Boston.

The citizens of Dorchester County, Md., have by vote authorized the County Commissioners to endorse the bonds of the Fox Creek Extension of the Dorchester and Delaware Railroad.

☞ The mining dividends paid in October, 1875, in San Francisco, amounted to $1,170,000, against $988,800 same time last year. The totals of the October dividends by banks, mining and other companies compare as follows: 1875, $1,483,430; 1874, $1,826,960.

Redemption of 5-20 Bonds.

The following is the thirtieth call for the redemption of 5-20 bonds of 1864:

TREASURY DEPARTMENT, Nov. 15, 1875.

By virtue of authority given by the act of Congress approved July 14, 1870, entitled "An act to authorize the refunding of the national debt," I hereby give notice that the principal and accrued interest of the bonds herein below designated, known as five twenty bonds, will be paid at the Treasury of the United States, in the city of Washington, on and after the 15th day of February, 1876, and that the interest on said bonds will cease on that day; that is to say, bonds of the act of June 30, 1864, as follows:—Coupon bonds—$50, No. 4,301 to No. 5,752, both inclusive; $100, No. 17,201 to No. 27,047, both inclusive; $500, No. 22,001 to No. 26,500, both inclusive; $1,000 Nos. 84,401 to No. 99,288, both inclusive. Total, $7,440,300.

Registered bonds—$50, No. 371 to No. 525, both inclusive; $100, No. 2 401 to No. 3,550, both inclusive; $500, No. 1,601 to No. 2,150 both inclusive; $1,000, No. 8,351 to No. 10,968, both inclusive; $5,000, No. 3,166 to No. 3,824, both inclusive; $10,000, No. 6,901 to No. 10,150, both inclusive. Total, $5,345,050.

Grand total, $12,785,350.

United States securities forwarded for redemption should be addressed to the Loan division, Secretary's office, and all registered bonds should be assigned to the Secretary of the Treasury for redemption.

B. H. BRISTOW.

Thirty first call—Redemption of five twenty bonds of 1864 and 1865, M. and W. account of the Sinking Fund.

TREASURY DEPARTMENT, Nov. 15, 1875.

For the purpose of obtaining bonds for the sinking fund, by virtue of the authority given by section 11 of the act of Congress, entitled "An act making appropriations for sundry civil expenses of the government for the fiscal year ending June 30, 1876, and for other purposes," approved March 3, 1875, and in compliance with sections 3,694 to 3,697 inclusive, of the Revised Statutes of the United States, I hereby give notice that the principal and accrued interest of the bonds herein below designated, known as five twenty bonds, will be paid at the Treasury of the United States, in the city of Washington, or at the office of the Assistant Treasurer of the United States, in the city of New York, on and after the 15th day of February, 1876, and that the interest on said bonds will cease on that day; that is to say, bonds of the acts of June 30, 1864, and March 3, 1865, as follows:—

Act June 30, 1864, registered bonds:—$50, No. 526 to No. 532, both inclusive; $100, No. 3,551 to No. 3,662, both inclusive; $500, No. 2,151 to No. 2,201, both inclusive; $1,000, No. 10,969 to No. 11,209, both inclusive; $5,000, No. 3,825 to No. 3,876, both inclusive; $10,000, No. 10,151 to No. 10,484, both inclusive—$3,024,600.

Act March 3, 1865, M and N coupon bonds:—$50, No. 1 to No. 550, both inclusive; $100, No. 1 to No. 850, both inclusive; $500, No. 1 to No. 500, both inclusive; $1,000, No. 1 to No. 800 both inclusive—$1,475,400.

Registered bonds—$5,000, No. 1 to No. 641, both inclusive, $500,000. Total, $5,000,000.

Of the amount outstanding (embraced in the numbers as above), one million four hundred and seventy five thousand four hundred dollars ($1,475,400) are coupon bonds, and three million five hundred and twenty four thousand six hundred dollars ($3,524,600) are registered bonds.

The bonds embraced in this call will be paid at any time previous to their maturity, upon presentation, with interest to date of such payment, at the Treasury of the United States, in the city of Washington, or at the office of the Assistant Treasurer of the United States in the city of New York. Registered bonds should be assigned to the Secretary of the Treasury for redemption.

B. H. BRISTOW, Secretary.

Hoosac Tunnel Line.

The work of constructing the Hoosac Tunnel line goes steadily on, and the business of the road increases daily. On Tuesday night there was quite a large increase in the amount of freight. Ninety cars had accumulated at the eastern portal by evening, with more to come through at a later hour, and all to be shipped east during the night. With those going West the whole number of cars passing through the tunnel that day was 170. More power was needed, and Mr. Farren, the contractor, has purchased a new locomotive, to be put on next week, to help on freight and construction trains. His 500 hands make the requisite rock excavations and lay about 50,000 brick per day. Of the 175 jobs of masonry on the route between the tunnel and Shelburne Falls, all but four are completed, and those will be finished in a month. All but two of the rock cuts between the portal and the Falls have been finished. New steel rails have been laid from the portal to Charlemont. A new iron turntable is to be built at North Adams, and an engine house to accommodate six locomotives. Aaron Wright has contracted to build a Howe truss bridge at Bardwell's Ferry, to take the place of the present structure, work upon it to be begun at once.—*Boston Journal, Nov.* 11.

Eastern (Mass.) Railroad.

Progress is being made in the work of preparation of the report of the condition of the Eastern Railroad, which is to be presented to the Railroad Commissioners, and will be completed in a few days. In this connection, it is stated that efforts are being made to negotiate a further loan on the road and equipments and that the Baring Brothers have been applied to for this purpose. This firm is understood to have dispatched Mr. Morrison to this city for the purpose of examining into the facilities and resources of the road, and that gentlemen presented his letters of introduction on Tuesday. Since then, in company with Hon. Henry L. Williams, Mr. Morrison has been engaged in a thorough inspection of the road, including all of its branches, quarries and opportunities for the increase of business, and is said to entertain favorable opinions of the result. The tour of inspection will continue to day, and possibly, through a portion of to morrow, and the full report of Mr. Morrison will be of great interest. —*Boston Traveller, Nov.* 11.

Portland and Ogdensburg Railroad.

Work on the western end of the Vermont division of this road has now been resumed. It is expected that a force of 400 men will soon be at work between Sheldon and Johnson. The road is all graded from Maquam Bay to Sheldon and 44 miles of iron are down between Swanton and Highgate. The company have been able to negotiate some of their first mortgage bonds lately and have kept the price up to the point fixed when they were first offered. Responsible parties in England are now investigating the merits and prospects of the enterprise with a view to taking the remainder of the issue. It is expected that trains will run from Portland to Lake Champlain by the first of next July.

Pullman Palace Car Company.

At a meeting of the directors of this company, held at Chicago, on the 1st inst., the following preamble and resolution were unanimously adopted:

Whereas, It appears by the financial statement of July 31, 1875, that during the present year $277,000 of 8 per cent bonds will mature; and that in 1878 $598,000 of 7 per cent bonds will mature; and,

Whereas, The current surplus earnings are required to pay for construction of additional cars, rendered necessary by the increasing demands of the business of the company; and,

Whereas, It is estimated that, by limiting the cash dividends to $2 per share, quarterly, sufficient money will be reserved to retire and cancel the bonds at or before maturity; and,

Whereas, In the opinion of this board, it is for the true interest of the company to pay its bonds by appropriating a portion of its current revenue to that purpose, instead of providing for their redemption by the issue of new securities; it is, therefore,

Resolved, That a dividend of $2 on each share from net earnings be declared payable on and after Nov. 15, 1875, to stockholders of record at close of business this day.

CHARLES W. ANGELL, Secretary.

The following is the financial statement above mentioned. It is for the fiscal year ending July 31, 1875:

INCOME ACCOUNT.

Revenue:		
Earnings		$2,022,629 77
Our proportion of earnings of other sleeping car associations controlled and operated by this company		500,948 32
Patent royalties		11,184 13
Dividends on stock in Pullman Southern Car Company		20,111 00
Dividends on stock in Central Transportation Company		3,823 75
Total revenue		$2,558,646 97
Disbursements:		
Operating expenses, taxes and insurance	$683,187 77	
Maintenance of upholstery and bedding	124,283 42	
Our proportion of operating expenses and maintenance of upholstery and bedding in cars of other sleeping car associations controlled and operated by this company	175,925 26	
Rentals of leased lines (Central and Southern Transportation Companies)	284,000 00	
Balance of interest, discount and exchange	30,451 49	
Coupon interest on bonds	235,905 40	
Dividends on capital stock	618,648 00	
		2,152,351 84
Surplus for the year—being excess of revenue over ordinary disbursements		$406,295 63
From which deduct amount expended in rebuilding and remodeling old style cars into the latest standard Pullman cars, and for discount on old cars sold		76,068 47
Balance of surplus for the year carried to credit of income account		$330,227 16

FINANCIAL STATEMENT.

Assets:		
422 cars and equipments, including franchises		$7,877,615 84
Construction material and operating supplies, including amount paid on cars in process of construction		446,920 22
Car works at Detroit		334,400 54
Estate, No. 506 Michigan avenue		21,901 66
Furniture and fixtures in the several offices of the company, 52 in number		61,292 10
Patents		149,364 77
3,373 shares stock in Pullman Southern Car Company		206,840 00
665 shares stock in Central Transportation Company		33,250 00
Amount invested in other car associations controlled and operated by this company, to wit:		
Pullman Pacific Car Co.	$963,041 99	
Erie and Atlantic Sleeping Coach Co.	518,850 00	
Pullman Baltimore and Ohio Association	251,813 24	
Pullman St. Louis and Iron Mountain Association	57,029 92	
Pullman European Car Association	176,205 36	
Chicago and St Louis Dining Car Association	21,030 40	
Burlington and Miss. Dining Car Association	12,614 14	
		2,000,645 05
Balance of accounts and bills receivable and payable		55,979 26
Cash on hand		69,681 28
Total assets		$11,257,390 72
Liabilities:		
Capital stock issued, 58,262 shares, par value $100 each		$5,826,200 00
8 per cent currency debenture convertible bonds:		
First series, due Nov. 15, 1875	$277,000 00	
Second series, due May 15, 1881	298,000 00	
Third series, due Feb. 15, 1887	434,000 00	
Fourth series, due Aug. 15, 1892	996,000 00	
	$2,005,000 00	
Seven per cent sterling debenture convertible bonds, due April 1, 1885	144,000 00	
Seven per cent currency debenture inconvertible bonds, due Oct. 15, 1878	598,000 00	
		2,747,000 00
Amount received from sale of old cars leased from Central and Southern Transportation Companies		359,400 01
Total liabilities		$8,932,600 01
SURPLUS ACCOUNT—(INVESTED IN ASSETS OF THE COMPANY.)		
Guarantee fund to provide for taxes in dispute and possible losses in adjustment of unsettled accounts	$120,000 00	
Sinking fund to represent possible depreciation in franchises and patents	300,000 00	
Balance at credit of income account	1,904,790 71	
		2,324,790 71
		$11,257,390 72

District of Columbia 3-65 Bonds.

The following is Attorney General Pratt's opinion as to investments in District of Columbia bonds:

STATE OF NEW YORK,
OFFICE OF THE ATTORNEY GENERAL,
ALBANY, Nov. 9, 1875.

Hon. D. C. ELLIS, Superintendent of Bank Department:

DEAR SIR: Yours of October 29, 1875, with enclosures, was duly received. The Attorney General has examined with considerable care the questions propounded to the Superintendent of the Bank Department on behalf of several savings banks in the city of New York, and has come to the conclusion that trustees of savings banks may, under the statute of this State, lawfully invest the moneys deposited in said banks in the 3-65 bonds of the District of Columbia, issued under the act of Congress, of June 20, 1874, and February 20, 1875. By chapter 371 of the Sessions Laws of 1875, section 26, trustees of savings banks are authorized to "invest moneys deposited in those banks in stocks or bonds of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal." By section 7, of the act of Congress of June 20, 1874, as amended by the act of February 20, 1875, after providing for the issue of the bonds in question and for the form thereof, it is further provided as follows:—

That the faith of the United States is hereby pledged that the United States will by proper proportional appropriations as contemplated by this act, and by causing to be levied upon property within said District such taxes as will do so provide the revenue necessary to pay the interest on said bonds as the same may become due and payable, and create a sinking fund to pay the principal thereof at maturity.

The terms of this provision are so similar to those used in our State statute in regard to investments by trustees of savings banks as to raise a strong inference that the framers of the latter act must have had the acts of Congress in relation to the issue of these bonds before them, and framed the act with special reference to these bonds. That these bonds answered all the requirements of our statute will not be questioned, unless the clause prescribing the method of raising the revenues necessary to redeem the pledges in some manner impairs or neutralizes the pledge itself. I am unable to construe that clause so as to give it any such effect. As to that proportion of the obligations which Congress may decide that the United States ought to pay, the pledge is absolute and unqualified that Congress will make the necessary appropriation to provide for its payment. As to that proportion which may be imposed upon the District of Columbia, the pledge is substantially direct. Congress has supreme legislative power over the District of Columbia, and may impose upon the property or inhabitants any rate of taxation necessary for the payment of its debts. It is only by means of taxation of some kind that the United States is enabled to discharge its pecuniary obligations, and the revenues necessary to discharge these obligations of the District of Columbia may be raised by taxation upon the property of the District as well as by any other method of taxation. There can be no presumption of any failure in the amount of property subject to taxation necessary to raise the requisite amount of revenue; and if there could be such failure the Attorney General does not see how the United States could be relieved from its pledge. "The faith of the United States is pledged that the United States will (by causing to be levied upon property within said District such taxes as will do so) provide the revenue necessary," &c. The pledge is so absolute that the United States must be deemed to take the risk of any failure in its objects of taxation. The Attorney General therefore feels constrained upon a more deliberate examination of the question to modify the opinion heretofore rendered from this Department to the Superintendent of the Bank Department, and advise that, in his opinion, trustees of savings banks in this state are legally authorized to invest the funds of said banks in the 3 65 bonds of the District of Columbia, issued under the acts of Congress of June 20, 1874, and February 20, 1875.

All of which is respectfully submitted,

DANIEL PRATT, Attorney General.

Railway Mail Service.

The annual report of the Superintendent of Railway Mail Service shows that on the 30th of June, 1875, there were sixty two lines of railway post offices on routes aggregating a total distance of 16,932 miles, over which there was an actual daily service of 40,109 miles and an annual service of 14,639,785 miles. The total number of clerks employed in the service is 901, at salaries ranging from $1,000 to $1,400, and aggregating $1,122,640 per annum. As compared with the preceding fiscal year, these figures show an increase of 518 miles of route distance, 910 miles of daily service, 332,150 miles of annual service, fifty one in the total number of clerks, and $64,441 in their compensation.

Land Grant Maps.

The Land office at Washington has just completed a very handsome series of 31 maps, showing the land granted to railroads in the state of Wisconsin, with reference to laws, rulings, decisions and important correspondence relating thereto indicating the history of each railroad. The maps show the grants in place, the indemnity belt, the claims of each road, and where each conflicts with the other.

The series give an accurate history of 12 railroads. The land office contemplates a similar series of maps for the state of Michigan, which will be completed within a few months.

☞ The iron bridge across Taunton Great river at Slade's Ferry, just completed, was tested on the 9th inst. in the presence of thousands of persons by a rolling load of two tons per lineal foot. The deflection of the 155 feet spans was only about one inch. It is evidently a most superior and stable structure, reflecting great credit upon the Old Colony Railroad, and its builders and the designers of the superstructure, the American Bridge Company of Chicago.

☞ In a peat manufacturing district of Sweden peat is being made by a new process, which consists in making it into small tubes. This quickens the drying process and adds to the combustive qualities of the article.

☞ The experiments made with naphtha as fuel for steam engines in the south of Russia have yielded such satisfactory results as to induce the Imperial Government to order its regular use henceforth in all vessels stationed on the Caspian.

☞ It is now designed to run the cars on the proposed Capitol Hill (Washington) and Bladensburg Railroad by small engines, built after the model of engines used on some street roads in New Orleans.

☞ The contract for a tunnel and reservoir to supply the city of Baltimore with water has been awarded to Mr. J. McPherson, of Pittsburg. The amount of the contract is about $4,500,000.

☞ The Kansas and Missouri bridge, across the Missouri river at Leavenworth, has been placed in the hands of a receiver.
